Formally Appointed Commander of Southern Department.

Washington, Feb. 21.—Major General John J. Pershing was formally appointed commander of the Southern department today, succeeding Major General Frederick Funston. The appointment will take effect immediately and does not require confirmation by the Senate. General Pershing, while in command of the expedition into Mexico, was selected for command of the department of New Mexico, which it was proposed to create if military operations on a large scale were undertaken in Mexico.

A World

Pershing was born in Linn county, Mo., September 18, 1860. He graduated with the second class from the Kirksey Military Academy in 1877. Five years later he entered the United States Military Academy, from which he was graduated in 1882. His first actual military service was in the Indian service, for which he was ordered to Santa Fe, N. M., in 1885. Pershing was appointed a first lieutenant in the 9th Infantry on July 1, 1887, and was given a permanent commission in that capacity on June 30, 1888.

When General Pershing was first ordered to Mexico, he was stationed there for a period of four years, and was appointed colonel of the 25th Infantry in 1900. He was successively advanced to the rank of brigadier general, and in 1915 he was given the temporary rank of major general.

Captain James Bartlett Robinson, who celebrated his ninetieth birthday at his home at No. 617 Wethersfield avenue last week, is very proud of the accompanying picture taken of him and the lady Mme. Lillian Nordica on the porch of the captain's homestead at Vineyard Haven, Mass. Captain Robinson is the father of Mrs. William E. Whittemore and grandfather of Rev. Lewis Bliss Whittemore of Christ Church, New York. He received flowers and telegrams from many friends last week.

He is one of the old-time whalers. He was born at Chilmark, Martha's Vineyard, a direct descendant of Rev. John Robinson, one of the earliest settlers of New England. When he was still in his teens he shipped on a whaling boat in a humble capacity and later rose by way of boat-steerer and mate to the captain's post, sailing out of New Bedford harbor in 1864. He enlisted in the United States navy and served off Charlestown. After the war he again followed the lure of the waves, sailing on the Palmetto to the Pacific.

In that same year that he joined the navy he married Sarah D. Barrows, who died in 1908. Captain Robinson also lived in California for twenty-five years and engaged in the sheep-raising industry. His mother was a sister of "Camp Meeting" John Allen, the celebrated evangelist of Maine, who was a grandfather of Mme. Lillian Nordica, the prima donna, who visited the captain at his Vineyard Haven home. He spends the greater part of his time there, passing the winter months with his daughter in this city. He is a member of Henry Clay Wade Post, No. 617, G. A. R.; a warden of Grace Church in Vineyard Haven and a prominent Mason.

The first time in ten years, the old Jonathan Niles house at Farmington avenue, which is one of the oldest in the western section of the city, is to be occupied. Through the kindness of the present owner, Thomas F. Garvan, the Hartford Chapter, American Red Cross, will establish an annex in the building, in order more effectually to carry on the work of organization.

The house was built in 1839 for Jonathan Niles by the Porteus Company, he and his family occupying the house the following year. There were seventeen acres in the original estate, the grounds extending west some distance beyond what is now Laurel street. Mr. Niles's brother, James Niles, built the house on the adjoining property to the west, the house later being bought by Marshall Jewell. It was through this property that Marshall street was later cut. The house, which is now on the northwestern corner of Farmington avenue and Marshall streets, is at present occupied by Collins W. Benton and Mrs. R. B. Parker.

Through the rear of the property of the Niles brothers, Niles street was cut, and Laurel street from Farmington avenue to Niles street was cut through the property of Jonathan Niles. After several years, the late Patrick Garvan bought the eastern section of his estate, on which he built the house now owned by his son, Thomas P. Garvan. Mr. Niles died in 1878 and the house was occupied by his children, Miss Frances Z. Niles and Mrs. Gordon W. Trumbull until the marriage of the latter, after which Miss Niles remained until 1903, when the house was sold to the Roman Catholic diocese of Hartford, through Bishop Tierney. For about a year, the nuns who taught at Mount St. Joseph's Seminary, lived here, after which the house was given to the Hamilton Heights School, which was then completed. They were the last occupants of the house, and at the time Patrick Garvan bought the estate to protect its own property.

The grounds in the rear he used as gardens and the buildings remained unused. After his death, the grounds were bought by his son, Thomas Garvan, who has now given the use of the house for war relief work.

The children of Jonathan Niles, who are now living, are Miss Frances Z. Niles of Forest street, Mrs. Gordon W. Trumbull of Asylum avenue and Judges Niles of New York.

The house contains five spacious rooms on the first floor, which will be used at first by the Red Cross. The bedrooms on the second and third floor may also be used as classrooms. The building is of red brick and brownstone and has a rectangular tow
MAJOR PROFIT VITIATED?

There was only one possibility of miscalculation in the German plan. The escape from the deadly embrace at the Somme was reasonably sure, absolutely sure, as it turned out. The delay to the Allied advance and offensive was reasonably sure, absolutely sure, as the event proved. But the major profit of the retreat would be vitiated if the Allies had planned to attack not the center but upon the flanks and if this attack should prove successful.

Now, it is too early to say definitely that the Allies had planned in advance of the German retreat to attack the flanks and not the center. But we do know that General Maurice, of the British army, the official spokesman of the General Staff, has explained that the British had planned to attack at Arras as early as February. As to the French, I have very good reasons, which I cannot mention now, for believing that their attack upon the other flank was in preparation as early as January of this year.

In any event the Allies did attack, both upon the Arras flank and the eastern flank, which we may call the Rheims flank, just as soon after the German retreat as the weather would permit. And on both flanks they won considerable successes, the British much greater than the French. This seems to have been due to the fact that the Germans had mistakenly concluded that their positions about Arras, resting on the Vimy Ridge, were impregnable, while they had regarded their Rheims front as less secure and had massed against the French the greater portion of their artillery and reserves.

HOW GERMAN STRATEGY MAY FAIL

To this point, then, the situation is plain. The Germans drew back their center and in drawing back devastated the country in the belief that they would delay the Allied attack by months. The Allies at once met this strategy by attacking one flank was practically covered by the Allies on the Mons-Bapaume road, and on the next day of the Somme, as we have explained, the advance upon the Auchonvillers and Ovillers ridge. By this the Germans were prevented from making any counter-attack from the Arras flank.

The situation is relatively clear now. The Allies are advancing against the German lines from the north, the center, and the west. The Germans are being driven back upon the Somme and the Aisne. The situation is becoming more and more serious for the Germans as the days go by.

WIDENING

Meantime the British have widened their wedge at once from the sides of the wedge over their attacks aimed at the second diagram. By the middle of the next week the Germans were beginning to feel the present situation played by Miss Jennifer Stoughton, the bride's sister. The bride wore white chiffon taffeta with silk net overdrapery and trimming of iridescent bands of taffeta. She wore a veil of tulle and carried a bouquet of bride's roses and maidenhair fern. The maid of honor wore a gown of pale pink crepe de chine with picture hat to match, the hat trimmed with black velvet streamers. She carried white roses and spires. The other girls were Emi'ly Bliven, Norwich, a niece of the bridegroom, and Dorothy Gillette, No. 107 Evergreen street, and Robert C. The resignation of Rev. Franklin Hoyt Miller, the rector of St. Thomas's Episcopal Church, who resigned after a stormy business meeting on May 8, was accepted last night at a special meeting of the parishioners and vestrymen attended at the home of his father in the parish house.

Mr. Miller asked the result of the election of officers and, upon seeing that two men elected were the men who had refused to serve at the annual meeting, he told the committee that he absolutely refused to reconsider his action.

The adjourned annual meeting lasted nearly three hours and thereafter were approximately sixty people present. When Mr. Miller's resignation came up after a long discussion, Mr. Miller asked the result of the election of officers and, upon seeing that two men elected were the men who had refused to serve at the annual meeting, he told the committee that he absolutely refused to reconsider his action.

The committee that waited upon Mr. Miller was comprised of T. J. Creighton, senior warden; Charles M. Lane and Clemons R. Darnstaedt.

The officers elected are as follows:

Senior warden, T. J. Creighton; junior warden, Carl Long; treasurer, John S. Buttenweiser; clerk, Wells; R. Bill; vestryman, Lewis H. Stegall; rector, Rev. Franklin Hoyt Miller, the rector of St. Thomas's Episcopal Church, who resigned after a stormy business meeting on May 8, has left his parsonage at Middle Church, it was learned last night, to build.

Old Warden Thomas J. Creighton. There was a good attendance and the action of the church was unanimous. There are no candidates under consideration for the vacancy.

Rev. Mr. Miller suddenly resigned as rector of the church at the annual meeting on May 8, when there was some difficulty in electing officers. The resignation was due, he said, to the state of the financial affairs at the church.

Recently, Rev. Mr. Miller packed up his household goods and moved to Stamford. He declared that he will not leave the ministry, but awaits another appointment from Bishop Brewster.

Meanwhile, the pulpit at St. Thomas's is being occupied every Sunday by Archdeacon Henry S. Harte, who has been in charge of the affairs of the church since the resignation. He will send candidates to the church each Sunday until the parishioners call the one who seems best fitted.

"Avalon," the estate at Pride's Crossing, was the scene of the wedding of Miss Mary Katharine Ayer and Mr. Merrill of Minneapolis. The wedding, which took place at 3:30 p.m. on May 7, 1917, marked the beginning of a new chapter in the lives of the couple.

Miss Ayer, a beautiful and well-dressed woman, was the center of attention as she walked down the aisle with her father, Lieutenant Ayer, on her arm. She wore a wedding dress of white organdy, with a trail of orange blossoms trailing behind her. Her hair was styled in loose waves, and her face was adorned with a veil of silk.

Mr. Merrill, a tall and handsome man, was equally well-dressed. He wore a tuxedo with a white tie and a black armband, which was a symbol of his dedication to his late father, who had passed away the previous year.

The ceremony took place in the living room of the Ayer residence, which was elegantly decorated in gold and orange. The windows were draped with white tulle, and the room was filled with the soft glow of candles. The officiant, Dr. D., stood at the front of the room, ready to pronounce the marriage vows.

Miss Ayer and Mr. Merrill exchanged rings and vows under the watchful eyes of the guests. They were then pronounced husband and wife by the officiant. The atmosphere was filled with joy and happiness as the couple stood together, their hands clasped in front of them.

Following the ceremony, the newlyweds had a reception that was attended by many of their friends and family. The guests were served a delicious meal, and the couple cut their wedding cake in front of their friends and family.

As the wedding party left the residence, they were showered with confetti and well-wishes. The couple was then driven away in a horse-drawn carriage, setting off into their new life together.

The wedding was a wonderful celebration of love and commitment, and it was a day that will be remembered by all who were fortunate enough to be a part of it.
Twenty-fifth Anniversary of Cathedral Dedication
To Be Observed May 8.

On May 8, 1892, St. Joseph's cathedral in this city was dedicated and consecrated. That was twenty-five years ago, and on the same date in May this year, which, as it happens, is a Tuesday, the interest

Cornerstone Laid in 1877.
The cornerstone of the cathedral was laid April 29, 1877, by Archbishop Williams of Boston. Bishop Galberry was the bishop of the diocese. The prelates who assisted at the ceremonies were Bishop Conroy of Albany, N. Y., Bishop O'Reilly of Springfield, Mass., Bishop Shannon of Harrisburg, Penn., and Bishop Loughlin of Brooklyn, N. Y., who preached. The money was the Rev. John A. Mulcahy, who was vicar-general of and who died on Patrick's parish, and who defended the cornerstone.

The cornerstone was laid May 8, 1873, by Bishop Farland. The people worshipped in the church for some time until upper part of the cathedral was consecrated. Bishop Tierney succeeded Bishop McMahon in 1894 and died in October, 1908. Bishop Nilan was appointed Bishop Tierney's successor some time later.
Catholics throughout the state are observing today the twenty-fifth anniversary of the mother church of the diocese St. Joseph’s cathedral on Farmington avenue in this city. Especially is the anniversary of special interest to the Catholics of Hartford, and the large attendance at the services this afternoon was, in a manner, evidence of this interest.

To-day’s Services.

From an early hour this morning there were masses said in honor of the observance of the day. The first mass was said by the Rev. J. Clement Martin at 6 o’clock. Thirty minutes later the Right Rev. Monsignor T. S. Duggan, vicar general of the Roman Catholic Diocese of Hartford and editor of the “Catholic Transcript,” who recently accepted the position of chaplain of Hartford Council, Knights of Columbus, was the guest of honor at dinner at the Hartford Club and a reception at the council’s clubhouse last night.

Gift of $3,000 announced. Rt. Rev. Monsignor Thomas W. Duggan announced yesterday that he had received a check for $3,000 to pay for the building of the celestial, which is a part of the grand organ just installed, from Fire Commissioner Thomas F. Garvan.

Knights of Columbus, in reply, spoke of the work of the Knights of Columbus and said the council should extend its activities. He said he hoped that when the new building was built in the rear of the club that it would be of good size and a credit to the city, and that when the new building was built, it could not have been consecrated if there had been a penny of debt on it. There are very few churches in the diocese which have been consecrated. There are a large number of Catholics in this city who recall the ceremony of consecration a quarter of a century ago which was the realization of the hopes of their beloved bishop, the late Right Rev. Lawrence S. McMahon, and the completion of his years of anxious work. They shared their Bishop’s hope and rejoiced with him in its realization. Of the large number of bishops and priests who took part in the ceremony in May, 1892, quite a number have died. The bishop and his immediate successor, the late Bishop Tierney, have passed away and the onus was, in a manner, evidenced of this interest.

CLOCK TOWER ON NEW YORK CITY HALL IS BURNED

Historic Building Saved By Prompt Work of Firemen

New York, May 10.—New York's historic city hall, built more than 100 years ago, constructed mostly of marble and considered architecturally one of the most beautiful buildings in the country, was threatened with destruction by fire today. Flames started in its wooden clock tower, but after an hour's work by the firemen were under control.

City Hall was the scene yesterday of the reception of the French commission by the city and was brilliantly decorated. Tomorrow the British commission is due to be received. Although the decorations were torn down during the fire, the officials said they would be restored and the reception held.

Only a shell of the clock tower remains and the clock which for generations has told time to millions who passed through Park Row, and Broadway, was destroyed. The statue of Justice which surmounted the tower is still standing, however.

Many priceless relics and paintings of historical significance to the city and nation were said by the prompt efforts of firemen, policemen and volunteers, some damage was done to the interior of the building by water, but it was said that nothing unreplaceable had been lost.

The damage was estimated at $25,000. An hour and a half after the fire was out, a large force of workmen was busy putting the building into shape for the reception to be given by the British commission tomorrow afternoon. The ruined clock tower will be covered with bunting and the promise was given that the cause of the fire would be visible when the commission arrives.

The fire was due to the carelessness of a workman, according to a statement made by Fire Commissioner Adamson tonight. An investigation conducted by him had established, the commissioner said, that a dropper, engaged by the city to do some repair work, had left an unattended lighted charcoal furnace near the cunca.

The city hall was erected more than 100 years ago and has been regarded as one of the most beautiful pieces of architecture in the country. The architect was John McComb. Construction began in 1802 and it was completed in 1812.
The rehearsal of the wedding of Miss Helen Goodspeed Cutter, daughter of Mr. and Mrs. Frank Albert Cutter of Glendale terrace, and Clifton Chapin West of this city is to take place this evening, was held last night at Miss Cutter's home at 7 o'clock, and after the rehearsal the members of the bridal party were entertained at supper. Covers were laid for 11, and the decorations were charmingly carried out in pink and white. On the center of the table was the wedding cake in white and silver, with silver leaves around the edges and the base. From the cake rose a little white standard of white lilies and bride roses, while on the top was a silver and lace bell. After the bride-to-be had cut the cake and wished on it, it was removed and replaced by the bridal loaf.

On either side of the centerpiece were pink and white baskets, from which went pink ribbons to each place with little white satin ribbons on the edges. From the baskets the guests pulled these they drew the gifts from the bride and bridegroom. Miss Cutter's presents to her matron of honor, Mrs. Harold H. Cutter, and to her two bridesmaids, Mrs. Chauncey M. Depeh and Miss Dorothy A. Phelps, and to Miss Flora Mather, who is to sing at the wedding, were attractive pins of cloisonne enamel mounted on silver. To Frances West, Mr. West's gift to Harold H. Cutter, his best man, was a leather belt with silver buckle. To Dorothy Allen, cousin of the bride, Mr. West's gift was a pair of different color. Miss Cutter and Mr. West each drew from the baskets a miniature of a cloisonne pin set with pearls. Mr. West's gift to Harold H. HUNTO MOVES UP TO GRADE ABOVE MAJOR SEPTEMBER 21, 1918. Former Commander of 101st Becomes Lieutenant Colonel.

From a source which is believed to be authoritative came yesterday the information that Major James L. Howard, has been promoted a grade and is now a lieutenant colonel. He was major of the 101st Machine Gun Battalion at its formation at Niantic and was in command during its voyage over and in France until he was called some months ago to the staff of Major General Clarence R. Edwards commanding the Twen-ty-sixth Division, and was, it is un-derstood, made representative on that staff of the machine gun units of the division.

According to the information the new personnel arrangement calls for a position on the staff of an officer representing all the units of the kind in a division and the appointment is an original appointment. The fact that Major Howard had been pro-moted was verified by a statement by Mrs. Howard at her home last evening. Mrs. Howard received yesterday a letter from her husband under date of September 4, in which the matter of the promotion was casually referred to.

Lieutenant Colonel Howard was born in Hartford March 21, 1875, and was graduated from the Sheffield Scientific School in 1898. He entered the actuarial department of the Travel-ers Insurance Company and later was made secretary to the president. In 1906 he was made assistant secretary of the life department. Later he was made secretary of the company.

When 20 years old he enlisted in Battery A, Connecticut Volunteer Artillery, and in 1905 he was com-missioned a first lieutenant in the Fifth Infantry, C. N. G., and later in the year became captain and ad-jutant. He was made captain at the formation of Troop B in 1901 and in 1915 was commissioned major and later transferred to the reserve list.

September 4, 1916, he was must-ered into the federal service and was made adjutant of the Fifth Sep-arate Brigade. Later he was must-tered out. In May, 1917, he was put in command of the Separate Squad-ron. In August the cavalry was shifted over into a machine gun unit. Early in July he was slightly wound-ed in the face by a piece of shrapnel striking him in the head.

New York, April 24.—The resignation of Howard Elliott as president of the New York, New Haven & Hartford Railroad, was accepted today at a meeting of the board of directors here. His retirement becomes effective on May 1, but he will continue to act in an advisory capacity with the presidents of the various companies comprising the “New Haven” system.

As Mr. Elliott’s successor the directors elected E. J. Pearson, who since March 9, 1916 has been vice-president and Mr. Elliott’s general assistant in charge of construction, operation, and maintenance.

The directors created a committee of intercorporate relations which is to consist of the presidents and vice-presidents of the various companies and Mr. Elliott will co-operate with this committee “to coordinate and harmonize its activities.” Recently Mr. Elliott was selected as a member of an executive committee of railroad presidents to co-operate with the Council of National Defense in putting the country’s transportation lines on a war basis. This is believed to have been one of his reasons for resigning the presidency of the “New Haven.”

Benjamin Campbell was elected vice-president of the “New Haven” and president of the New England Steamship Company, of the Hartford & New York Transportation Company, and of the New Bedford, Martha’s Vineyard & Nantucket Steamboat Company.

Mr. Pearson.

Mr. Pearson, since March 9, 1916, has been a vice-president of the “New Haven” road, with headquarters in Boston.

He has acted as a general assistant to Mr. Elliott, and in particular has had charge of all matters relating to construction, operation and maintenance.

Mr. Pearson is 53 years old and of New England stock. In 1883 he graduated from Cornell with the degree of civil engineer. His mother was born in East Corinth, Me., and the family later moved to Branford, Conn. His father was born at Hyfield, near Newburyport, Mass. Like many New England families, they moved to the West, but Mr. Pearson always kept up his associations with New England.

When in the service of the Northern Pacific, he made a complete examination of the 300 and dock properties of the “New Haven” road all the way from New York to Boston so that he could be helpful in the construction of similar facili-

Not Connected With Valley Railroad, Says Conduct of First Train.

Although the general impression has been that Fenwick Hall, which was burned last Saturday was and operated by the Valley Railroad, chiefly because of the fact that two were opened within a day of each other, J. E. Halmen, a young conductor, who was associated with the New York, New Haven & Hartford Railroad many years and who ran the train to Saybrook for the Valley Railroad, assured "The Courant" yesterday that the enterprises were entirely independent. Fenwick was erected by a company of Hartford capitalists, he said. A. M. Hoe, being the builder and Colone A. Rood the first proprietor. Colone Rood ran the United States Hotel on State street this city, a num ber of years. He was the father of F. D. Rood and Arthur W. Rood. The hotel was opened July 1871, the first guests going to Saybrook Point by the steamer Sunfish and then taking a railroad.

Miss Clare Eames, prominent in Cleveland and Hartford society, will make her professional debut in a leading role in "The Big Scene" by Arthur Schnitzler, translated by Henry Melzer, a one-act play to be produced at the Greenich Village theater next week. Included on the bill were George Jean Nathan's "The Green Room," which is a social comedy written by W. S. Gilbert, and Mr. Charles Frohman's "The Man in the Moon," a one-act play with music by Walter Damrosch and lyrics by Richard Vaillant, which is the property of the Metropolitan Opera Company. Miss Eames is a niece of Mme Emma Eames de Gogorza, grand opera prima donna, whom she somewhat resembles, and has been looking forward to a stage career since her childhood, this being her first appearance. She is of unusual type, having a profile like those in some of the classic Dutch paintings, and seems to possess a unique personality.

HARTFORD keeps the New York stage supplied with stars?

The average Hartford citizen will reply by saying he was not aware of the fact that this city was responsible for so important a mission. After he has reflected on the matter for a time, however, undoubtedly he will state his astonishment and admit that perhaps it would appear, after all, as though Hartford had to furnish at least a goodly portion of the names which appear in the electric light signs which illuminate Broadway in the vicinity of Forty-second street. Almost each day one reads in the various theatrical reviews of some individual who has jumped into footlight fame who has at one time lived in Hartford. To repeat all of these names would be impossible in less than two or three columns of closely typed matter. It is necessary, however, to mention the latest Hartfordite to climb to success in the theatrical world—Miss Clare Eames, Princess Elizabeth of "The Prince and the Pauper.

Each day one reads in some local dailies how "The Prince and the Pauper" has taken the city. The play which is now running at the Booth theatre which was produced by an old New England family. For generations various male members of the Eames family served in the United States Navy, and Miss Eames' father was born in Shanghai, China, the son of a naval captain. Mr. Eames, or Ensign Eames as he was listed on the Navy rolls, came to this city in the eighties to the factory of the Colt Patent Firearms Company, where he acted as inspector of navy ordnance being manufactured by that firm. Later he left the Navy and became manager of the Electric Vehicle Company, a rival of the Pope Manufacturing Company at that time, which made electric cars.

When Mr. Eames was manager of the Electric Vehicle Company, the chief designer of the company was Hiram Percy Maxim, now one of the best known of the country's inventors, and President of the American Radio Relay League.

And Miss Eames' mother is a sister of Mrs. Hiram Percy Maxim, both being daughters of former Governor William T. Hamilton of Maryland. When 15 years old Miss Eames went to live in Cleveland, Ohio. After living there for a time she left the city and Mrs. Edinor Eames (Mrs. Hiram Percy) Maxim brought her back.
Faversham had the leading role, and his greatest success in the metropolis today, was written in the columns of "The Sunday Courant" several weeks ago.

The Prince and the Pauper was first dramatized five years ago with some Connecticut stage names and presented Hartford people in the various colleges. Again it appeared here as a popular production several years ago. It was given at Farmington's theater by the actors, the Trinity College drama organization, and so that time Richard Harrison, one of the leadingPerfectus, perfectum quem apertum, appeared in the part which Mr. Faversham has now.

In the account of the Mark Twain anniversary, that he would do everything in his power to assist in the saving of the Hartford home of Sarah Cowell Lemoine, and at the time when more attention was paid to art—for art's sake—most—she decided that she would not see her work so well that he determined to answer the lure of the footlights, which portrayed the so-called 'Virgin Queen Elizabeth thoroughly at this time. She later took part in "Through the Ages," and then made a successful engagement in "Declasse." Then came "The American Magazine," to the former Hartford girl to abandon stage names and turned to painting, specializing in portraits.

For a peculiar coincidence, William Faversham, the star who has raised Miss Eames to the Olympian heights of station where he himself once stood, was the man who caused the saving of the Hartford home of Sarah Cowell Lemoine. While one might believe that the saving of a home, as for the benefit of an American home, was a natural and unimportant task, it is not far distant, and wonder if after all this is not the best road. And it was, for a time, with Miss Eames.

In one of the periods of discouragement, perhaps, she thought that she could not go on with her career. She knew that her performance, which she termed "too amateurish." She later took part in "Declasse." Then came "The American Magazine," to the former Hartford girl to abandon stage names and turned to painting, specializing in portraits.

Resignation Accepted
Regret at Special Meeting.

May 4, 1917

The resignation of Rev. Dr. H. Berg as pastor of the South Congregational Church was accepted at a special meeting of the Congregation held last evening. His resignation was read at the close of the meeting last Sunday and will take effect last Sunday this month. He will take up the pastorate of the Fort Washington Reformed Church of New York, one of five churches organized by the College Church, New York. Although Dr. Berg's resignation will take effect May 27, he will spend at Columbia Lake the next three months' vacation, which he intends to spend at Columbia Lake.

At the meeting Sunday a committee of five, consisting of J. Robinson, James H. Bidwell, Henry C. Dwight, Professor S. Pratt and Robert D. Bone, was appointed to draw up a resolution expressing the action of the congregation and its deep regret that he is leaving. The following resolution was adopted:

"The Council, having approved the action of the Second Church of Christ in Hartford, in accepting the resignation of the Rev. Dr. Irving H. Berg, hereby declares the dissolution of the Pastoral relation. It desires to put on record its sense of appreciation of the services of Dr. Berg, and its deep regret that he has called upon to terminate his work in this city.

Five years ago he came to the Pastorate of this historic church. He was not unknown to some of us, having been graduated from the Hartford Theological Seminary. He brought to his work in this church the experience secured in a successful pastorate in the Reformed Church in America, courage of high order, a fine enthusiasm, and a vision which enabled him to see things both as they were and as they ought to be. His labors have been richly rewarded, and in manifold ways evidences of Divine Blessing have been granted to him and to his people.

The Council would further make mention of the brotherly and earnest manner in which Dr. Berg has served the common tasks of the churches in the city and state, his ardent and zealous participation in the duties of citizenship, not forgetting his marked service to the church in the capacity of Chaplain of the First Connecticut Regiment.

The Council would commend Dr. Berg as a brother beloved to the fellowship of the Reformed Church in America, to which his new work calls him.

The records of the church show that during the five years of Dr. Berg's pastorate there were received into membership on profession of faith, ninety-seven persons; from the Wethersfield Avenue Church three hundred and ninety-two, and by letter from other churches, ninety; a total of five hundred and seventy-nine.

At the Bible School Teachers' meeting last Tuesday evening, Dr. and Mrs. Berg were presented with five-dollar gold pieces, and on Friday evening the Junior Brotherhood presented to Dr. Berg a cane, engraved with his fraternity emblems.
Former Hartford Pastor Attacked By Lawyer Bennett in Open Letters.

Charging that Rev. Dr. Irving H. Berg, pastor of the Fort Washington Reformed Church and formerly of Hartford, preaches "charlotte russe" sermons and that the results of his pastorate are not commensurate with the $20,000 expended on his church and the pastor's salary of $8,000, James E. Bennett, a New York lawyer, and for a short time an official of the Fort Washington Church, has been carrying on a campaign against Dr. Berg in a series of five letters sent to the members of the consistory.

In a letter dated April 24, Mr. Bennett comments upon the small number of new accessions to church membership, compares them with the large number received by nearby Presbyterian churches, and makes the following comment on Dr. Berg's preaching.

"If anybody had joined our church on confession the question would have been, What were they confessing? We have had many Sunday lectures on the war and addresses on various kinds of ethics. One of the sermons preached on Sunday, April 14, entitled 'The Love of the World,' has been published, and I think that every member of the consistory should have a copy of it. When you have read it you will undoubtedly see why we received no members on confession. Charlotte russe is a tasty morsel, but it is by no means a square meal."

Mr. Bennett's latest letter to the Great Consistory of the Collegiate Church, which helps to support the Fort Washington Church, is dated May 8. When Mr. Bennett's criticisms were referred to Dr. Berg, he answered, "I do not wish to be drawn into any controversy with James E. Bennett."

Redfield and Walker, Back From France, Tell Of Conditions.

Charles H. Redfield, son of Mr. and Mrs. Edward D. Redfield, of No. 229 Kenyon street, and Wilbur W. Walker, son of Mr. and Mrs. Charles H. Walker, of No. 50 Farmington avenue, who were among the Hartford men who went to France for ambulance work this year, has returned to this country with an indefinite stay, according to a cablegram received by his parents yesterday morning. Lieutenant T. B. Boardman was a member of the Psi Upsilon fraternity at Trinity College, class of 1918, who left for France in June, 1917, to become a member of the service in the American Ambulance Corps. He has recently returned to this country after a year's stay in France and received his commission on the trip, and is enthusiastic in his praise of the equipment and general outfitting of the ambulance service. There is more than enough to drive the ambulances, according to the two who have returned, and practically the only work there is left for new arrivals consists of truck driving, garage work and the attendant duties. Many of those who went to France for ambulance work have been disappointed at having other very ordinary work allotted to them, which hardly suited their adventurous spirits.

The young men left France and the service, intending to enlist with Company B in the Machine Gun Corps. They arrived a day too late to do that, however, with the result that other plans will have to be made, and it is not known yet what the purpose of his return to this country will be.

Lieutenant T. B. Boardman, who is spending a seven days' leave at his home, No. 76 Oxford street, is to report at the end of his furlough at Camp Jackson, near Columbia, South Carolina, to give instruction in artillery fire.

While there has been nothing received in town in the way of a message which will bear out the truth of the opinion, there is ample reason to feel that Manchester will have at least three soldiers among those who are the first Americans to land in France. The announcement yesterday that General Pershing had arrived in England leads one to suppose that his army is near Manchester men who were with him in Mexico are with him in Europe.

MISS FLINT A BRIDE.

Wedded to Reginald L. Whitman in New York City.

New York, May 25.—Miss Adelaide Flint, daughter of Dr. and Mrs. Austin A. Whitman, was married to Reginald L. Whitman, a son of Mrs. Charles L. Whitman, in St. Bartholomew’s church yesterday afternoon at 4 o’clock, in the presence of a large assemblage of relatives and friends. The Rev. Dr. Leighton S. Parks, rector of the church, and Bishop David H. Greer were the officiating clergy.

John S. Norton, whose marriage to Miss Beatrice Tapley, daughter of Mr. and Mrs. William Wells Tapley of Springfield, was postponed last night because of the trip to Boston, was married to Miss Beatrice Tapley, daughter of Mr. and Mrs. William Wells Tapley of Miniature Terrace. Like so many weddings this season, the Tapley wedding was hastened because of the war, and the bride was to sail for France June 2, the youngest driver in the American ambulance service.

Although the young man has not written to his parents recently, it is evident from a letter received by Dr. Philip Kilroy from Mrs. Kilroy, who is in France, that the lad has displayed remarkable bravery on at least one occasion. Mrs. Kilroy said that Russell had written her, acknowledging the receipt of some candy and cigarettes she had sent him, and said that he had “run into a gas attack.”

Apparently he escaped without injury for he tells later of driving his ambulance, filled with wounded soldiers, into a curtain of shell fire. The engine, after the manner of all engines at the crucial moment, stalled. Tapley climbed down from the driver’s seat and squared under the automobile to adjust the mechanism. A shell crashed into the car, overturned it and killed four of the wounded soldiers. Because of his position Tapley was not injured.

The bridal party made its entrance to the living room to the strains of the Lohengrin wedding music, played by Mrs. N. Van Buren.

Major Henry P. Hitchcock, June 1, 1816

Major Henry P. Hitchcock is 79 years old to-day, but he carries his years so lightly that few realize that he is so near fourscore.

It was on June 1, 1837, that the major was born in a house at the corner of High and Walnut streets. It was after his early boyhood in Hitchkissville, now Riverton, and in Farmington, that he began his career of more than sixty years of active business life in the heart of Hartford. It was first as a clerk in the store of N. J. Brockett at No. 6 State street, the pioneer dealer in men's furnishings, that the major had his start. Then he was a clerk in the clothing store of Kelsey & Carpenter at the corner of Main and Pearl streets (the Alderman Drug-store location) a year, and then became a partner in the firm. There he was located some twenty years.

In 1851 the major returned to No. 6 State street, and ever since has had his tailoring establishment there. The major and his store have become landmarks at Exchange corner. Always alert and cognizant of what transpires, the major is a mine of information of what has occurred in Hartford in the past sixty years. He has been its secretary more than thirty years.

The major received many personal congratulations to-day. He received many remembrances of flowers and letters.

Major Preston 79, Also.

The fires of patriotism which burned in his youthful breast in the days of 1861-1865 and prompted him to four years of loyal service for his country are still aglow in the life of Major Edward V. Preston, and to-day, the seventieth anniversary of his birth, he was active and eager in his preparations for the preparedness parade on Saturday in which he will be marshal of the Travelers unit. All day he has been busy in consultation with his aids, John McGinley, John E. Ahern and Miss Helen L. McManus, in the plans for the parade.

Major Preston has been nearly ninety-one years with the Travelers, or with whom he is the oldest employee and officer.

On his desk to-day were two large bouquets of old-fashioned stocks, the vases, explained the source of the flowers, explained the source of the flowers.

Among the thousands of June 1 birthdays were those of three well known Hartford men, Major Edward V. Preston, Major Henry P. Hitchcock and Captain Francis B. Allen.

Major Preston and Major Hitchcock, attained four score years to-day. Both were at their places of business, but were frequently interrupted by a host of friends who extended congratulations. On Major Preston's desk at the Travelers were several bouquets of roses from associates. Aside from a slight weakness following an attack of the grip a few weeks ago, the major said he was as well as ever. Major Preston is the oldest officer of the Travelers, having his service of four years.

June 1, 1837, and came to Hartford in 1850.

Captain Allen's Natal Day, Too.

Captain Francis B. Allen, vice-president of the Hartford Steam Boiler Inspection company, was happily reminded of the important fact that he had to-day reached his seventy-fifth birthday when, on entering his office this morning, he saw two vases filled with carnations on his desk, the number of blossoms corresponding with the number of years he has lived. The following letter, which was placed near the vases, explained the source of the floral gift and the occasion of it:

Mr. Francis B. Allen:

The officers and other employees of this office extend to you their most hearty congratulations on this your 75th birthday and trust that you may be spared many years, and happier ones than any which have gone before.

Yours most respectfully,

THE HOME OFFICE.

During the day the officers of the company and clerks called on their venerable associate to pay their personal respects to him.

Captain Allen was born in a native of Baltimore, June 1, 1837. He served in the navy during the Civil War, as a lieutenant. Shortly after the close of the war he entered the field of insurance, and for a number of years was secretary of the Hartford City Guard and later served as commandant of the veteran reserve corps. In his youthful days he was a clerk in the same building to which he returned in 1884 and engaged in merchant tailoring. There he has been ever since, on State street, near Exchange corner. Gifted with a wonderful memory, the major readily recalls the man business changes which have taken place in Hartford during his lifetime.

Vice-President of Hartford Steam Boiler Remembered.

Captain Francis B. Allen, vice-president of the Hartford Steam Boiler Inspection & Insurance Company, was 76 years old yesterday. He was greatly surprised on entering his office yesterday morning to find seventeen-five carnations in two large baskets on his desk, one basket containing white and the other pink carnations. He thanked the officers and employees of the company who had remembered his birthday, saying that he was proud to be identified with a company which has made such advances as has the Hartford Steam Boiler Inspection & Insurance Company and that he holds his fellow officers and employees in high esteem.

Captain Allen said yesterday afternoon that he was especially surprised at finding the flowers on his desk because he said nothing about it. When Captain Allen was 70 years old, in 1911, a silver loving cup was given to him by his associates and employees. He has been connected with the company for almost forty-four years last year. Yesterday afternoon he entered the employ of the New York office in 1872, several years after he resigned as an officer from the American Company and that he holds his esteem.

Majors with Travelers

Major E. V. Preston, general manager of agencies of the Travelers Insurance Company, who was 60 years old June 1, had another anniversary Saturday, when he completed fifty-two years with the Travelers.

WAR VETERANS HAVE BIRTHDAY

Major Hitchcock Gives City Guard Records to State Library.

The birthdays of three men well known in this city were fittingly observed yesterday, those of Edward V. Preston, Major Henry P. Hitchcock and Captain Francis B. Allen. Both Major Preston and Major Hitchcock attained their eightieth birthday anniversary yesterday, while Captain Allen was 76 years old. The two majors were at their places of business yesterday and were frequently interrupted by visits from a large number of their friends. On Major Preston's desk at the Travelers office, were several bouquets of roses from associates. Major Preston is the oldest officer in the Travelers Insurance Company, having entered its employ June 9, 1865, following his service of four years in the Civil War. He has been general manager of agencies for many years.

Major Hitchcock also received letters of congratulations and flowers, and at noon yesterday was the guest of Major Preston at dinner, having been host last year. Yesterday afternoon he enjoyed an automobile ride. Captain Allen, vice-president of the Hartford Steam Boiler Inspection & Insurance Company, who was 20 years old June 1, had another anniversary yesterday, when he completed fifty-four years with the company, being 75 years old yesterday. He remembered his birthday, saying.

Major Hitchcock was a member of the Hartford City Guard and later served as commandant of the veteran battalion. He was secretary of the battalion for more than thirty years. Recently Major Hitchcock presented the records relating to the Hartford City Guard to the State Library for permanent deposit. The records were contained in a beautiful oak chest. George S. Godard, state librarian, has acknowledged the gift in the following letter:

CONNECTICUT STATE LIBRARY
Hartford, May 31, 1917.
Major H. P. Hitchcock,
50 Garden Street,
Hartford, Conn.
My dear Major Hitchcock:
The receipt of the records and memorabilia relating to the Hartford City Guard, all contained in a beautiful oak chest, which you brought to the State Library this morning for permanent deposit, is hereby acknowledged with thanks. It will be my pleasure to have these several items as conveniently accessible as possible bearing in mind at all times their safety.

It is a pleasure to have records of this character placed here in our State Library where provision has been made for the receipt and care of such records pertaining to the life and activity of the various organizations of Connecticut as it has been, as it is now and as it is to be. It is especially pleasing to receive these records of the Hartford City Guard for no instance thus far have I received records which have had the apparent care and value which these have. There is something about the life and times of a city and the worth and place of its people that seem to be made grateful and known through records which are made a part of the history of our State Library.
It was on his birthday night and a surprise — testimonial from Church Committee.

Major Edward V. Preston, senior deacon of the Asylum Avenue Baptist church, was reminded of his eighty-first birthday in a delightful manner by members of the church Friday evening.

The major had received many congratulations during the day and did not anticipate the call of a general committee representing the church, to extend good wishes and congratulations and to give the major a handsome testimonial on behalf of the parish.

The testimonial was a booklet, with covers of imported leather and eight pages of heavy paper. On the front of the cover was "E. V. P." and underneath, "1837-1917," all embossed in gold. Engrossed on the first inner page was "Asylum Avenue Baptist Church, Deacon Edward V. Preston, 1837-1917. We wish you as many returns of the day as you can enjoy." "Sail on, sail on."

On the third page the signatures of the general committee of the church were written. They were the following: John Gemmill, Charles F. Gordon, Alfred Spencer, jr., Charles Edward Prior, Willis B. Case, J. Allen Wiley, Howard H. Burtick, Lewis M. Robotham, Herbert Spencer, Frederick W. Blauvelt, Harvey W. Corbin, Kirby C. Pratt, Alexander Cameron.

In addition the major was given three dozen Sawyer roses in a basket.

Alfred Spencer, jr., as spokesman for the committee, made the presentation remarks. Major Preston responded with words of deep appreciation. A social hour followed. Refreshments were served by Miss Preston.

All of the members of the general committee were present, except Allen Wiley, who is in Philadelphia and Kirby C. Pratt, who is in south attending a wedding.

Miss Mitchell applied yesterday in the office of the clerk of the United States district court for the passport. She will probably be accompanied to Paris by Mlle. Louise Delpit, professor of French at Smith College. Miss Mitchell is a graduate of the Hartford High School and of Smith College. Mlle. Delpit was her instructor.

Miss Blanche Mitchell, daughter of Mr. and Mrs. Emlyn V. Mitchell of No. 888 Asylum Avenue, left for New York to-day and will sail Saturday for Bordeaux, from which place, in company with Mlle. Delpit, professor of French at Smith College, she will go to hospital No. 13, Dordogne, in which the family of the latter is interested. Miss Mitchell will then go to Paris, where she will be nurse in auxiliary hospital No. 132, at No. 49 Rue la Boetie. Both institutions are French. Miss Mitchell was registrar at the Hartford dispensary until May 1. She was accompanied to New York by Mrs.

Hartford Girl Tells of Service in War Hospital in Paris

After spending the summer working as an auxiliary nurse with the French Red Cross in hospital No. 232, Rue Le Boetie, Paris, Miss Blanche Mitchell, daughter of Mr. and Mrs. E. V. Mitchell of No. 888 Asylum avenue, has returned home in this city Wednesday, having arrived in New York that morning. She is the first feminine war worker to return to Hartford.

Miss Mitchell lived and worked among French people throughout her term of service and learned the living conditions and the feeling of the people of France as no ordinary American visitor or war worker could. The hospital, where she served, cared only for French soldiers and contained 100 beds, and Miss Mitchell expresses the most profound admiration for the spirit and courage of the men and women in that country who have done their part to help win the war in the trenches or at home.

"The soldiers in the hospital were wonderful," said Miss Mitchell today. "They were patient, brave, uncomplaining and resigned, although they had all sorts of cases, burned, amputated, among them those who had been in the war for years."}

Faces.

This is at the head of one of the beds. Miss Mitchell noted French faces with surgical scars on the noses and big faces, some of his work, said Miss Mitchell. The men treated were not only presentable but improved. One man who came to the hospital had fourteen operations because part of his face had been shot away. One operation could repair his nose, another a cheek, another an ear, and so on. The parts were replaced by grafting flesh from other portions of his body and the result was splendid. In the end some of the men look better than they did before being wounded.

Amputations were also performed in the hospital, but the courage of even the sorely-crippled men was unflinching. The hospital fare, Miss Mitchell said, was very plain, and jams, jellies and such articles, which are being collected in this country for the French wounded, would be appreciated. In Paris there is much enthusiasm for America, and the people are courageous, but the general atmosphere is depressing.

"There are many mutilated and wounded soldiers on the streets," said Miss Mitchell, "and much black, because the French women who don mourning do so very completely. The people feel certain that they are going to win the war, but they are not expecting the end immediately, although they are placing their hope in the American aid to victory. They are just plugging ahead and doing their best. Women drive taxis, handle trucks at the railroad stations, and do all kinds of heavy work as a matter of course.

Horseflesh Tastes Good.

Living is high in Paris, and many necessities scarce. "There are two days every week in Paris, Monday and Tuesday," said Miss Mitchell. "When the only meat that can be purchased is horseflesh. It costs sixty cents a pound but it is very good and tastes exactly like beef. Then on Wednesdays and Saturdays the bakeries are closed and nobody can buy cakes, candy or chocolate. There is evident need of victory in Paris. One cannot get any crackers, the cakes are not good and the bread very poor. There is no milk, but there is much enthusiasm for America, and the people are courageous, but the general atmosphere is depressing.

In Bordeaux, watched out for periscopes.

"We were visited by Zeppelins two or three times," she said. "But they did no particular damage, only dropping a few bombs." When asked how the German raids impressed her, Miss Mitchell said she had rather anticipated some excitement, and was disappointed. Because of her constant association with the French, the Hartford young woman met few Americans, and did come in contact with the Smith college unit, which went abroad to do relief work and of which Miss Lucy Mather of this city was a member. Miss Mitchell was graduated from Smith in 1914, and found a classmate among the members of the relief mission, which she said, was delayed in Paris for several weeks before going to Grecourt to begin its work.

Miss Mitchell, who went to France June 1, found some difficulty in returning. Although boats are supposed to sail for New York from Bordeaux every week, she said, there was none between September 1 and September 29, 1918, which she returned was supposed to leave that port on September 15, but Miss Mitchell was delayed in Paris, being notified that the sailing had been postponed, and then, on arrival at Bordeaux, had to live on board the boat for another week, while heavier guns were installed as precaution against submarines.

Steamer Crowded.

On the voyage across, Miss Mitchell said, the steamer was crowded, the passengers including 200 French sailors who were said to be destined for coast patrol work on this side and a mission of French military officers, including specialists in engineering and aviation, who were to act as instructors in this country. Returning Red Cross workers and some drivers of the American ambulance service were also on board. The voyage was uneventful, Miss Mitchell said, and the passengers obtained entertainment from watching the daily submarine practice by the gunners.

Miss Mitchell has made no plans, she said, for immediately resuming her work on returning home, but enjoyed her summer in a Paris hospital.

Clark of Lafayette street, and John Rogers of Boston, is to take place Monday morning at 10 o'clock in the church of the Holy Family, 389 Boylston avenue and King street. Because of the fact that Miss Clark's brother, Richard Stanley Clark, will be unable to obtain leave from the Plattsmouth camp and because six other members of the immediate families of Miss Clark and Mr Rogers have enlisted in various branches of the national service, all appointments for the wedding have been kept in simplest form. Judge Joseph P. Tuttle of Hartford has sent a letter to Governor Marcus H. Holcomb, resigning from the superior court bench. He bases his resignation on what he considers inadequate salary.

Judge Tuttle's letter follows:

Hartford, Conn., May 14, 1917.

My dear Governor:

You may perhaps recall the receipt of a letter from me last fall expressing a desire to confer with you about a matter of vital personal concern. The matter referred to was that of making the purchasing power of the salary approximately equal to that when the present salaries were fixed a dozen years ago. Unsolicited advice from the reputed leaders of the Legislature during the session has repeatedly came to me that the bill finally impossible. I have onportunities to return tip advices from the reputed leaders of the bar of the state. Unsolicited advice from the reputed leaders of the Legislature during the session has repeatedly came to me that the bill finally impossible. Very sincerely yours,

Judge Joseph P. Tuttle.

To Hon. Marcus H. Holcomb, Governor of Connecticut.
Governor's Acceptance.

Governor Holcomb, in his letter accepting Judge Tuttle's resignation, said that he knew he had the power to fill any vacancy in the office of a judge of the superior court, but that he would have preferred to have had the appointment confirmed by the General Assembly. His letter follows:

"June 4, 1917.

"My Dear Judge Tuttle:

"I received your letter of June 1st when I reached the Capitol this morning. I know, of course, that I have power to fill any vacancy in the office of a judge of the superior court that should prefer to have made the appointment and had it confirmed by the General Assembly if there had been opportunity. The time, however, when I receive your resignation and the large amount of legislation I was compelled to examixe made it impracticable, if not impossible, to do this—and, too, there was but a single day left, which was in one fixed for final adjournment.

"Your letter leaves me no alternative but to accept your resignation, to take effect on August 31, 1917, the day fixed by you.

"With regret that the state is to lose your services as judge, and with the assurance that your future the state will be congenial and successful.

"Sincerely yours,

"Marcus H. Holcomb, Hartford, Conn.

Following out his idea of buying some of the best property in the business section of Hartford, Ferdinand Richter of the firm of Richter & Co., has just completed a deal, whereby property on Trumbull street between Allyn and Church streets has been transferred to him from Sarah B. and Susan M. Fisher. The two-story brick house on this property, which was occupied for many years by Rev. C. C. Fisher, well known in Hartford as a religious clergyman, who married more couples than any two other ministers, is an old Hartford landmark. The property has a frontage of forty-five feet on Trumbull street, and a depth of 115 feet.

Sarah B. Fisher and Susan N. Fisher have sold to Ferdinand Richter land and buildings at No. 27 Trumbull street, the property having a frontage of 43.3 feet on the west side of the street.

When the Rev. Dr. Ernest DeF. Dr. Miel has gone to help establish centers of recreation and amusement, which is made possible through the help of the French people through the Civil War, and in his press in the Union side in the war time in more than half a century ago. French Admires Twenty-Sixth.

The men won for themselves the admiration of the French officers, who regarded them as shock troops of the first order. Nothing could exceed the courage and endurance in the men in the ranks as well as the officers who led them. This is especially true in the Verdun sector, where they fought for four weeks under the heaviest fire, and were obliged to put on an offensive almost daily.

The severe positions held by the enemy in this sector made the men fight for every inch of ground. They came out of the struggle naturally very much exhausted, but we can do more for them by urging these in authority for their immediate return to their homes.

Judge Decides That Guardian Must Be Named for Britton, Jr.

MOTHER IN COURT ON CONTEMPT CHARGE Fails to Carry Out Order Allowing Youngster to Visit Father at Intervals, Feb. 26, 1918

That neither Ralph D. Britton, nor his former wife, Edna Nettleton Britton, was a proper person to be the guardian of their son, Ralph, Jr., was the conclusion reached by Judge Burpee in the superior court to-day and he advised the half dozen lawyers interested in the case to agree upon some responsible person, if they could find one, who would take the guardianship of the boy and in his or her discretion decide whether Ralph, 9 years old, should continue to live with his mother, and when and where and how the boy should see his father, if at all.

Judge Burpee reached this conclusion after a talk with the boy, who had come to court with his mother. The latter had been summoned to show why she should not be held in contempt for disobeying a court order to the effect that she was to send the boy to his father on Saturdays and Sundays.

A galaxy of legal talent is interested in the case. Lewis Sperry and Senator Edward M. Alden appear for Mr. Britton. B. M. Holden is attorney for Mrs. Edna Nettleton Britton, State's Attorney H. M. Alcorn and John W. Holden, H. M. Alcorn, and Mr. Holden said it did.

MRS. BRITTON LOSES CUSTODY OF SON

Conduct of Mr. Britton toward his former wife and the absolute refusal of the boy to go to him were set out as a reason why the court order was not kept, but Judge Burpee said he did not take seriously the statements that the mind of a child of 9 years would arrive at such material conclusions as Mr. Holden said it did.

Leonard D. Fisk, Jr., formerly a salesman for the Reid Motor company, writes Fred T. Reid of the company under date of September 28, regarding his experiences in the war zone which are quite interesting. In his last letter to Mr. Reid, young Fisk, who is the son of Mr. and Mrs. Leonard D. Fisk of Bloomfield, told of having a National sedan blown up. He formerly drove for Machine Gun Parker, commander of the 102d in which the Connecticut troops figured. In the course of time Len was transferred and says that when his superior officer learned that he was a National man offered to get a twelve-cylinder car if Len thought he could make it work. It appears from young Fisk's letter that various other drivers had a chance at the machine so that when it was turned over to him its condition was by no means Al. He writes Mr. Reid that he made his own adjustments and soon had her hitting on all twelve much to the satisfaction of the superior officer. There have been times when fast work was necessary and Len found the car ready and willing on such excursions. In the course of service this old car has been driven many thousands of miles, far more in fact than a private owner would think a car could be driven over decent roads. Len says the only trouble he had was when the timer went wrong and he had to wait for spare parts. These were hard to get. He broke a spring but put in a new one himself in four hours. Len says that he will be glad to get back in Hartford and sell cars once more and is convinced that he will be able to put up some real convincing arguments.

Young Fisk makes no especial mention of peace, and of course the big event occurred after his letter was written. He has been overseas for more than a year and has had a full measure of excitement. He is of the opinion that the road leading to his home in Bloomfield is a boulevard. Len lays especial emphasis on driving over shelled roads.

Two Bright Women

One of the features of the recent 
graduation exercises at Mt. Holyoke 
College was the presence of two 
bright women who were graduated 
from the old seminary in 1847, and 
who received their diplomas from the 
hands of Mary Lyon. One of them, 
Mrs. James Blaisdell of Claremont, 
Cal., came across the country unat-
tended; the other, Mrs. Francis 
Chamberlain of Medford, Mass., 
was a shade older of the two, but both were careful 
to miss any feature of the 

exercises and both sat out the two-

hour graduation program on Wed-
nesday in high spirits and both seem-
ed mentally as young as 
young girls.

the entire program of the school, 

including the addresses of the 

late Dr. George Washington 

Mead, the late Dr. J. Warren 

White, and the late Dr. Melancthon 

W. Jacobus, dean of the 

School.

The ceremony, a small reception, was held 
at the home of the bride's parents. 

The bride wore a dress of white 
satin, cut with a court train, the 
corset being embroidered in lace. 

She wore a tulle veil, caught with 

a wreath of orange blossoms, and 

her only ornament was a string of

The wedding took place at noon at the Central Church, Boston, 

by the pastor, Rev. William L. Sperry. The bride was attended by her cous-

of honor, and by her niece, Miss 

Penelope Perry, as flower girl. The 

bridesmaids were Miss Clarissa Hall, 
sister of the bridegroom, Miss Mary

Gordon Hall, who was to have been 

the best man, is at the Reserve

brothers of the bride, Dr. J. A. S. 

Brady, Dr. F. Dennette Adams and 

Dr. J. Warren White, all members 
of the class of 1917 at Harvard Medi-

entered the church to the strains of 

Wagner's "Bridal Chorus" from 

"Lohengrin," and the ceremony was 

partly in accordance with the custom 
of the Society of Friends, of which 

the bride is a member. A marriage 

certificate was signed and afterwards 

read to the congregation by the off-

Bolting clergymen. Following the 
ceremony, a small reception was held 
at the home of the bride's parents.

scattered before the bride. Among 

the Hartford guests present were Mr.

G. W. V. SMITH IS 85
"Hell Can't Hold Germans," He Says of Ruinous Teutons in Birthday Comment—World's Finest Art in This Country

George Walter Vincent Smith, giver of the valuable collections in the Springfield art museum, of which he is the curator, quietly observed his 85th birthday yesterday in his home at 49 Chestnut street. The day was observed informally with its simple recognition by Mr. Smith's many friends and relatives. The aged art collector was born in New York June 14, 1832. Since 1867, when he retired from active business, Mr. Smith has been collecting works of art from almost every country on the globe. He visited Europe in 1867 and has spent 12 years in foreign countries.

Mr. Smith's interest is as absorbed as ever in his collections and he is always planning additions. He deprecates the fact that space is so limited in the museum that extensive additions will be impossible. Two rooms will soon be opened up on the first floor, and filled with enamels and embroideries.

"The prices of curios and works of art are constantly increasing," Mr. Smith complained last night. "They cost nearly four times as much as they did 15 years ago. The war has materially affected the collection of works of art in this country," Mr. Smith whimsically continued. "because the men in this country have been more interested in the fighting than in fine things as Mr. Smith has been."

BRANDT-BACON.

West Hartford, June 18.

In a setting of pink and white blossoms and in the presence of more than 100 guests, the marriage of Miss Martha A. Bacon of 316 North Main street, West Hartford, daughter of Mrs. James A. Bacon and Harold Reaberper Brandt of Hartford, son of Mr. and Mrs. H. Brandt of Kitchener, Ont., took place at 7:30 Saturday evening at the home of the bride's uncle and aunt, Mr. and Mrs. Py. H. Brandt, No. 203 North Main street, West Hartford. The ceremony was performed by the Rev. T. M. Hodgson, pastor of the First Congregational church of West Hartford.

The colonial style of the house and its summer decorations formed a delightful setting for the bridal party, the costume of the bride's attendant carrying out the color scheme. The decorations, which consisted of daisies in panels and tall baskets, with ferns and palms, and a profusion of pink and white wisteria blossoms, were arranged by Mrs. F. L. Everett, an aunt of the bride. The wedding music was played by Elliott S. Footh, pianist.

The bride, who was given in marriage by her mother, had as maid of honor and her only attendant, Miss Anna Carl Vail of New York city, best man. A pretty feature of the wedding was provided by the children, June, Cornelia, Everett and John Anderson, who scattered daisies from little baskets to form a path for the bride through the drawing room. The bride wore an elaborate and handsome gown of embroidered white silk, trimmed with lace and carried a bouquet of white roses and maidenhair fern. The maid of honor's gown was of short white silk satin and she carried pale pink roses.

The bridegroom's gift to the bride was a pendant of aquamarine and diamond, at which more than 100 guests were present. The ceremony, Mr. and Mrs. Brandt left afterwards to spend a fortnight in the Adirondacks and will be at home after September 1.

Mr. Brandt is a graduate of Toronto university and foreman chemist at the Hartford Rubber Works. Among the out of town guests present were Mr. and Mrs. Lester Baker, Mrs. H. R. Baker, Mr. and Mrs. F. L. E. Smith.

Lieutenant Thorndike Saville of this city has been discharged from the United States army. He trained at the Hineburg camp and at Fortress Monroe, J. J. V., being commissioned in the coast artillory of the war, was transferred to the signal corps of the army.

Friends looking for Charles Wooster and Miss Bidwell hear they were married in afternoon.

Charles Adams Wooster of Tarnewville, graduating class of Trinity college was married shortly after commencement exercises Monday to Miss Alice Bidwell of Thomaston. The young man received his degree shortly after noon and was married at 3 o'clock at Christ church. Dr. John J. McCook of Trinity, who has been one of Wooster's instructors for the past four years, performed the ceremony. Only members of the immediate family were present. Paul Edwin Porter of Thomaston, Miss Bidwell's roommate at college, was best man. Immediately after the ceremony Mr. and Mrs. Wooster departed on an automobile trip.

The announcement of the marriage was circulated among the students Monday evening and caused considerable surprise as no announcement had been made. Mr. Wooster had arranged to take Miss Bidwell to the senior promenade in alumni hall last night and had already partly filled a dance card with his college mates. It was while different students were looking about the hall for the absent one that the announcement of his wedding became known.

Wooster has been very popular on the campus during his four years at Trinity. He has been a member of the musical clubs for four years. He is a member of the Alpha Chi chapter of Delta Kappa Epsilon. He prepared for Trinity at the Hartford Public High School.

COLONEL JAMES B. ERWIN.
Chicago Heiress Who Married Russian Nobleman, Seeks Divorce.

Chicago, June 19.—The Countess Eleanor Patterson Gizycka, formerly Miss Eleanor Medill Patterson of Chicago, testified in her suit for divorce today, telling a story of neglect and unhappiness on the lonely estate in Russia of her husband, Count Joseph Gizycka, that finally won from Judge Charles M. Thomson the announcement that he was satisfied she could receive her decree.

The ancestral estate of the Russian noblemen, which he had described vividly before their marriage in Washington in 1904, proved to be a tumble-down, ramshackle castle, surrounded by peasants' huts and five miles from a railroad. Countess Gizycka testified. The imposing array of seventy servants promised to be a bower of Russian peasant boys and girls, who received no pay but their food and a trifling present at Christmas. She declared that her husband's life was centered on hunting, drinking, and women, that his father had died many years ago, that the house was lived in constant terror of him and that he had married her solely for her money.

The countess said that she wished to be known as Mrs. Gizycka and wanted to lose her title forever. All of her money, she said, had been used to maintain her titled husband's establishment, she continued. "He thought he would get hold of some estate in Russia of her husband."

The ushers were Lyman Porter, Yale, '16, Gardner Murphy, of Concord, Mass.; Clarence Barton, of Hope Valley, the bride; John Chittenden, of East River; Paul Murdock, of West brook, and Raymond E. AMOS WHITNEY DIES IN MAINE

One of Pratt & Whitney Company Founders — In 88th Year of Age.

FIRST FACTORY IN RENTED ROOM

Growth of Business From Making Spoolers to One of Largest in World.

Amos Whitney, for many years one of the leaders in Hartford manufacturing and a founder of the Pratt & Whitney company, died at the Poland Spring's hotel, Poland, Me., Thursday evening, after an illness of four weeks. He was a frequent visitor at that hotel in the summer and was there when he was taken ill.

The death of Mr. Whitney removes one of the best known inventors in Hartford and a man who, starting in a small business, had been married. the company until 1899. He became vice-president in 1878 and president following the death of Mr. Pratt. He continued as president until January, 1901, when the control of the company was acquired by the Miss-Elmford-Pond company. He had continued as a director.

He was president of the Gray Telephone Pay Station company and a director of the Gray Telephone Manufacturing company and a director of the Hartford Faience company until the company was organized in 1869. The Pratt & Whitney company was organized in 1869 with a capital of $350,000. Mr. Whitney was superintendent and Mr. Pratt president. The company soon moved from Prospect Street to the shop of Fales & Gray on Potter Street. The plant was burned in less than a year and the company began anew near Main and Grove streets. The business increased and the first building of the present immense plant in the west side factory section was completed.

War Orders of 1873.

The excellence of the work of the Pratt & Whitney company attracted the attention of the German government. After the close of the Franco-Prussian war, and several orders were given, some being for army equipment in Erfurt, Spandau and Dusseldorf. These orders aided the company to weather the financial depression of 1873, and with the return of prosperity the business grew rapidly.

In the years since the panic the company has continued to expand. In addition to the orders in this country for machinery of a varied character, many large contracts for machinery in foreign lands have been filled. The capital of the company increased in 1875 to $500,000 and in 1893 to $3,000,000. It was reorganized in January, 1901, and the capital increased to $4,000,000.

Mr. Whitney was superintendent of the company until 1889, when he became vice-president in 1893 and president following the death of Mr. Pratt. He continued as president until January, 1901, when the control of the company was acquired by the Miss-Elmford-Pond company. He had continued as a director.

He was president of the Gray Telephone Pay Station company and a director of the Gray Telephone Manufacturing company and a director of the Hartford Faience company until the company was organized in 1869.

Amos Whitney, for many years one of the leaders in Hartford manufacturing and a founder of the Pratt & Whitney company, died at the Poland Spring's hotel, Poland, Me., Thursday evening, after an illness of four weeks. He was a frequent visitor at that hotel in the summer and was there when he was taken ill.

The death of Mr. Whitney removes one of the best known inventors in Hartford and a man who, starting in a small business, had been married. the company until 1899. He became vice-president in 1878 and president following the death of Mr. Pratt. He continued as president until January, 1901, when the control of the company was acquired by the Miss-Elmford-Pond company. He had continued as a director.

He was president of the Gray Telephone Pay Station company and a director of the Gray Telephone Manufacturing company and a director of the Hartford Faience company until the company was organized in 1869. The Pratt & Whitney company was organized in 1869 with a capital of $350,000. Mr. Whitney was superintendent and Mr. Pratt president. The company soon moved from Prospect Street to the shop of Fales & Gray on Potter Street. The plant was burned in less than a year and the company began anew near Main and Grove streets. The business increased and the first building of the present immense plant in the west side factory section was completed.

Mrs. Thomas To Be a Princess.

New York, June 20.—Mrs. Helen Thomas, the former Mrs. Helen Kelly, learned today of her marriage to Prince Nommidii Vlora, Prince of Vallence, Albania. The prince has his home in one of the traditionally restive Balkan states, but it is nevertheless considered pleasant to bear the title of princess even under unsettled national conditions.

Their two children, Helen and Dorothy Gould, have been cared for by their aunt, Mrs. Finley J. Shepard, who was Miss Helen Gould.

In 1914, Mr. Thomas died New Year's eve, 1914, leaving to his wife an estate of $2,000,000.

Mrs. Thomas is a sister of Mrs. Albert Davis of Jericho, L. I., and is an extremely wealthy woman. She is a daughter of Mrs. Edward Kelly and granddaughter of the late Eugene Kelly, who was a prominent New York financier. PATRIOTIC FAMILIES.

The Answer of a New Jersey Veteran With Seven Sons.

To the Editor of the New York Times:

The correspondence between William Allen Butler, president of the New York Lawyers' club and Congressman W. H. Cox of Indiana, that appeared in Sunday's issue of the New York Times, recalls the story of the late Joseph A. Yard, assistant surgeon of the New York Volunteers, Thomas S. Yard, physician, is captain of Company G, Tenth United States Infantry, during the Mexican war and who enlisted and became captain of Company A, Third New Jersey Militia, in 1863. He was the father of seven sons, and while detailed at the state concentration camp at Trenton in 1862 an old man, "sicker" paid him a visit, and asked, if he had not got war enough in Mexico without starting out again to "free the niggers." "Why don't you let your sons go instead of sticking type?" he asked.

In a serious mood Captain Yard handed his visitor a sheet of paper and a pencil and suggested a memo of his sons, and this followed:

Thomas S. Yard, physician, is assistant surgeon, U. S. N., Benjamin H. Yard, druggist, is hospital steward, U. S. N.

Alexander A. Yard is major of the Third New Jersey Cavalry, and John S. Yard is deceased.

All have passed to "The Bivouac of the Brave" except Alexander, his 75th year, who is postmaster at Farmingdale, N. J., and three daughters survive, Mrs. A. M. Sibley of Baraboo, Wis.; Mrs. C. E. Des Augus, 55, Avon, N. J., and Josephine A. Yard, 25. Ansbury Park, N. J.

If the effect of Captain Yard's memo caused a shiver to his old friend, the Hoosier congressman, Cox, possibly thought his battery of cream hit a sunken mine when he read President Butler's answer in Sunday's Times.

Long and Honorable Is the Friday Morning Club History.

June 1917

Nowadays, to call together a group of women to study any topic or undertake almost any task, would cause no comment. Telephones could summon them, and automobiles convey them. The great question for them would be, how to fit in one more demand upon their time.

It was not so in Nov. 1884, when the Misses L. and G. Karr, M. Olmstead, Talcott, E. Goodman, B. Abbe, C. Bissell and W. S. Woods met and resolved: 'That we form ourselves into a club to meet Friday mornings at 10:30 o'clock."

- That the officers consist of president and secretary.
- That the object..." but here we are left to the mercy of our logic evolved from the scant reports of that first year.

We conclude that the club decided in the affirmative, as to meeting at the "blazing a trail" period of women's clubs. The topics recorded were literary or historical.

We have reason to believe during the first two years of its existence, the president was not the dictator as to subjects and their assignments.

English and American writers, and the two interspersed musicals and a spelling match seem to have made up the first year's program.

The roll for 1885-6 held fifteen active members, but no hint that membership was the "element of the club," and the club was the "ethical" element of the club.

The secretary speaks of "several new rules," and that "tardiness was held to be as culpable as absence," and that the "social" or the "scientific" was not to be confused with the "costume." Meetings began promptly at 10:30 and closed at 12, with a roll-call for both opening and closing. The title of the document is "Long and Honorable is the Friday Morning Club History."
Happily Situated.

Rappahannock. Is situated, for its size, in the middle of the county, on the way of transporta-

opportunity. By the way, there is one serious drawback to this tract of land, namely, the lack of

convenience to the main roads. The only way to get to the nearest town, about a mile away, is to

ride a horse or bicycle, or to walk. But, on the other hand, the town is conveniently close to

the railroad station, so that one can reach it easily by train. It is a pleasant, peaceful place, with

beautiful scenery and plenty of fresh air. The people are friendly and hospitable, and there is

always something to do. In short, it is a wonderful place to live and raise a family.

Tardiness was held to be twice as culpable as absence, as the fine for the former was two cents and one for the latter. Meetings began promptly at 10:30 and closed at 12, with a roll-call for both opening and closing. The title of the second years' study is obscure, though the weekly papers were doubtless as well-written and interesting as if there had been a more cohesion of topic. We find that on Friday morning held the following subjects:

"Cathedrals," "Roman Stations" "Legends," "Longfellow's "Golden Legend," "Congress of Aix la Cha..."

ALBERT T. PATRICK TO WED LADY, WHO WAS THREE TIMES SENTENCED TO DIE, WILL MARRY OIL OPERATOR’S DAUGHTER

Albert T. Patrick, wealthy oil man, who was sentenced three times to die in Sing Sing prison on a murder charge, announced at Tulsa, Okl., yesterday, his engagement to Miss Mildred West, daughter of a Tulsa oil operator. They will be married in June.

Patrick was pardoned by Gov. Dix November 28, 1912, after 10 years in prison following his conviction of the murder of William Marsh Rice, a Texas millionaire, in New York city. He was chief beneficiary under the will of Rice. The legal fight he made for freedom was one of the most remarkable in the criminal annals of the country.

When Patrick was convicted in March, 1912, Mrs. Addie M. Francis, to whom he was engaged, preserved her faith in him by marrying him in the Tombs prison. She worked tirelessly from that time until he was freed to interest prominent men in his behalf, and her brother, John T. Milliken of St Louis, spent a fortune to gain Patrick’s liberty.

For 3 years Mrs. Patrick lived within sight of the walls of Sing Sing that she might be near her husband and comfort him. The day after he was pardoned they began their long delayed honeymoon, going first to St. Louis and later to Tulsa. A year later the news came from Tulsa that Mrs. Patrick, worn out by years of nervous strain, was dying.

Buckingham Street Girl Becomes Bride of Mr. Purdon—Ceremony at St. Peter’s.

Miss Agnes T. McAdam of Buckingham street, and James Purdon of this city, were married at 9 o’clock, Monday morning at St. Peter’s church, the Rev. F. P. Nolan officiating with a nuptial mass. The bride wore a gown of pearl gray taffeta, trimmed with silver, and a picture hat of pink georgette crepe. She carried an arm bouquet of white roses and orchids. Her attendant was Miss Helen Hogan, who wore a gown of old French blue silk with a hat of metallic tulle, and carried an arm bouquet of pink roses. Michael C. Purdon, brother of the bridegroom, was best man. The bride’s gift to the bridegroom was a watch bracelet and the bridegroom gave the best man a scarf pin.

Following the ceremony a wedding breakfast and reception were held at the home of the bride’s sister, Mrs. William McGann, in Buckingham street. Guests from New York, Boston and Middletown were among those present. Mr. and Mrs. Purdon left afterward for New York and Atlantic City, the bride wearing a traveling suit of navy blue taffeta, and a gold hat, trimmed with blue. They will be at home, after September 1, in Steele road, West Hartford.

David Gaines's Wagon Used to Run From Office to Static Four Minutes.

David L. Gaines, a former employee of The Hartford Times, now residing at the Soldiers' Home in Noroton, is spending ten d a week driving the Times from the Main Street bus station to the warehouse at 320 Wethersfield Avenue. This is the same office he occupied as a boy in 1872, when he was a member of the Hartford Veteran Volunteers.

Mr. Gaines was born at 9 Capitol Avenue, Hartford, June 26, 1837. He went to the old school and the Brown School. Civil war days he enlisted in Company G, but was almost immediately made a private in the 7th Connecticut Infantry. He was a Quartermaster, and served as Quartermaster of the 14th Connecticut Infantry.

Mr. Gaines was one of the first bus drivers in Hartford. He drove the 'bus from Main Street to the State Street station, and the Colt's Dyke and Wyllys Street station. He worked for P. Jewell after the war and was on the Hartford police force about 1872. At times he was express delivery business, at times his horse and wagon carried Times from the mail room trains at the railroad station. Traffic policeman of the day would gasp could they have thought what this man and his horse and wagon could do. He carried Times from the mail room trains at the railroad station. THE SEC
GOVERNOR APPOINTS MALTRIE FOR JUNE

New York, Jan. 29.

Frank A. Vanderlip, financier, delivered a speech on "Foreign Affairs" a month ago at the Town Hall. He is a most interesting speaker and he knows his American history with a knowledge so fresh and so full of interesting surprises to himself that he is to tell you about it just as a man is to tell you about his new baby. I do not mean that Mr. Vanderlip has not read American history to the rest of us, profoundly, but has been re-reading it in the light of recent events, and though his speech had rather a long vestibule, the vestibule led into a big and impressive edifice. United States history is like Sinclair Lewis's novel, "Main Street," and "Main Street" is in every city and town and nation and repeats itself. Mr. Vanderlip told what the Senate did in Jefferson's time, in Jefferson's time, in Lincoln's time, in McKinley's time, in Roosevelt's time and he showed perhaps I ought to say, tried to show, how necessary it is to have a different sort of education if we want to rule intelligently on foreign affairs.

Wants Super-Senate.

He wants a "super-senate" composed of thirty men who shall always be elected to sit on the go, a suggestion sure to be received with rapture by the executive, and who shall spend six months in Europe every year listening to what takes place in other countries and six months traveling over the United States telling the public what they have found out and making foreign affairs the possession of the people instead of a matter of secret information for politicians.

Of course the plan is impracticable, because the Senate must vote for it, and the Senate would no more abdicate so much authority than a housekeeper would call in a neighbor to manage her affairs.

The Path of Safety.

Another theme that betrayed a certain guilelessness which is particularly attrACTIVE in a great man was Mr. Vanderlip's attitude toward the Japanese.

"If I wanted to keep my head about foreigners, I would do exactly what our statesmen have been doing since we were a country. I would stay at home and know nothing about it." 

"Turk," she complained. "You have to know everything. They tell you that when you come out into society you have to know banking and commerce and statistics and how to run a diet kitchen or a hospital or a shop and they keep you at it like galley slaves.

I have tried to get into--" and she named the only great school in the country where the good old term, "atmospheric influence" is still used with the golden one "general culture and refinement." "But it was full up and places engaged till 1940."

An instance of the truth of her remark I noted at a meeting of one of our patriotic societies. I suppose it is

FRANK A. VANDERLIP.

no harm to say that on this occasion Mrs. Finley J. Shepard spoke. Mrs. Shepard is known throughout the country for her charities. She has adopted three orphan children as her own, and has made her name beloved. At the patriotic meeting of which I just wrote she stood up and made a talk on the duty of all patriotic societies to combine--to combine the Bolshevik propaganda. No pamphlets but an overwhelming array of facts, of dates and figures, and all expressed with the utmost clearness and not a wasted word.

She had learned how at a fashionable

He was a successful practicing attorney, was then assistant state's attorney under State's Attorney Hugh M. Alcorn, and later executive secretary to Governor Marcus H. All of the judges who were then on the court were appointed to the supreme court.

East Hartford, June 23.—Warren L. Hale, of No. 58 Wells avenue, is registered, to-day, at the Massachusetts Institute of Technology, Boston, for special work in aeronautics. The institute is one of six universities in the country with equipment for the lines of instruction necessary selected by the government for the purpose, and Mr. Hale is one of twenty-five students in this group, other groups being due to arrive every week until the whole number is two hundred.

The course which Mr. Hale will take will include, for the first three weeks, an intensive military training followed by five weeks of study in specialties, which include management of engines, study of meteorology, the use of instruments and the work of signalling. At the completion of this work he will go to a flying school, and will be detailed in the U. S. Signal Corps in January.

Hale is on the Air Service in Italy. Formerly a member of the East Hartford high school, he was graduated from that school last June, and enlisted in the Aviation service in January. He was sent abroad on the S. S. Mongolia, which docked in Liverpool, England, Lieutenant Hale said last evening that the Mongolia was the first American ship to dock in that city.

He was welcomed by his many friends who called to see him last evening.

Lieutenant Hale was called to duty in the Air, having enlisted in the aviation service at the commencement of the war. There was a bright and cheerful reception of the guests to his return, given by the press and military officers who went the Harv distinguished guest from the Rev. de Reuver de Pont. Lieut. The bride, who entered the church, was her cousin, J. Harry Alexandre of New York, who gave her in marriage, was in a regal gown of white and silver lace. The gown was with a court train of tulle, which was attached to the hair by a Russian effect of silver lace. The only ornament the bride wore was a diamond and pearl bar pin, the bridal room's gift. Her bouquet of Easter lilies was combined with summer-smilax, forming a charming new combination.

Rev William F. Grace, pastor of the church, performed the marriage ceremony.

A notable reception followed the marriage. Spring Lawn, the home of Mrs. Alexandre, was gorgeously decorated with flowers for this function. On side-walls, on tables and in vases in the halls and throughout the house were garden flowers, poinsettias and roses predominating.

Mr. and Mrs. Schenck were received on the west terrace, which is covered, standing in front of a background of vines and banked by bay trees. It looked like a natural setting, befitting a summer wedding in the country. There was dancing, Miss Alice E. Byrnes and her Southampton (L. I.) orchestra playing for the reception and the dance.

Among valuable gifts was a chest of silver, the gift of Mrs. J. Frederick Schenck, the bridegroom's mother, and a loving cup from the Spee club of Harvard. The gifts were shown with cards and represented a glittering array of costly silver and china.

Two years ago Mrs J. Frederick Schenck transferred to her son, Valleyhead, the beautiful estate of the Schencks on Richmond mountain road, Lenox, where Mr. and Mrs. Schenck will live.

Among the guests at the church were Prof. and Mrs. Barrett Wendell, Miss Alice Gardiner Mulligan, daughter of Judge Henry C. Mulligan and Mrs. Mulligan of Boston, and Wilford Lawson Spencer, Yale 1915, who married Wednesday at the First Congregational Church in Natick, Mass., by Rev. Frederick W. Perkins of Lynn, assisted by the pastor of the church. Mr. Spencer, who is now a student at the Harvard Law School, will sail for France on July 7 to join the American Ambulance Field Service. The bride's father was a member of Governor S. W. McCall's council last year and the bride's mother was formerly president of the Massachusetts Federation of Women's Clubs.

Every high school class is remarkable for something and a high school class, which is remarkable for nothing is a remarkable class and so the class of 1892 which is remarkable for some things, and then some, is some class. This was admitted by members of the class who were talked with yesterday, as they were narrating preparations in progress for the quarter-century reunion, which is to be held in installations Thursday and Friday evenings, and were telling how they would celebrate the centennial reunion in 1992.

O Fortuna!

The class will line up in the senior room at the high school about 5 o’clock Thursday evening and marvel at the class history to be read by Laurence F. Price and will sing the class song and swap reminiscences. Those who are not too adios are to occupy the same seats in which they reposed when seniors and to see a complete set of graduation photographs and recent pictures of themselves and their wives and husbands and the children and the grandchildren. There will be a display of mementoes of the triumphant progress of this marvelous class through the school.

After this foregathering of the tribe of ’92, the tribe will march two by two to the gym, where the graduates not lucky enough to be of this class will have the general alumnus reception, paying deserved tribute to the members of this class.

Et Terque Beati!

At 5 o’clock Friday evening the class will assemble in the Hartford Golf Club and until 6:30 will reminisce and tell how much brighter their children and grandchildren are than any on this or any other earth. After a buffalo blow-mold call the tribesmen will envelope a dinner which will make Lucullus a piker. The Roman matrons and the Roman matrons and the Roman matrons and the Roman matrons and the Roman matrons and the Roman matrons and the Roman matrons and the Roman matrons and the Roman matrons and the Roman matrons and the Roman matrons and the Roman matrons and the Roman matrons will tell how they have treated the years and the men will narrate, how little they have left for any other products of talent to achieve.

Varium et Mutabile Semper Femina

Est.

The girls will disclose how attractive they are, even still more charming than in 1892, and informally will be the special order of the evening and the dignified are to prepare for the worst. Wives and husbands are post hoc, erga propter hoc honorary members of the class. Every clansman is to wear a tag giving his (or her) name in full face lower-case.

Gaudensam Igitur.

It is to be the jolliest grape juice dinner ever course in the Hartford Golf Club. All of the women, the matron and the maid, will pare twenty-five years from their ages, as it were a tale that is told. All of the men will pare enough to become eligible to the selective draft. An irreducible minimum of ten years will be clipped from each clansman’s age.

“Quod enim Munus Majus?”

The member coming the longest distance to reunite will receive a silver cup. It is a long way to go for a number, as one is in China, one in Manila, one in Baltimore and one in Pittsburgh. It is not chronicled as yet what is to be on the inside of the cup. The silver typifies the silver wedding of the class.

Vivent les Dames!

Here are the names of some of the women of the class who makes ’92 the despair in achievement of any other class—

Mr. Hanson has resigned from the machine gun board appointed by the Federal Government but he will continue to give the government the benefit of his services, as far as this can be extended consistently with his work at the Colt plant and as far as he is called upon by the government.

He had been appointed by President Wilson a member of the engineering section of the National Council of Defense and is chairman of the sub-committee on rapid fire and machine guns.

When Mr. Hanson went to the Pratt & Whitney plant about nineteen years ago about 1,600 hands were employed there. He leaves the factory with about 3,500 employees.

Mr. Hanson began yesterday his work in his new position.

Mr. Blood said yesterday that, aside from the changes inevitable because of the following of Mr. Hanson to Colt's by a number of Pratt & Whitney men, there were no changes under contemplation. He said that he had been appointed by President James K. Cullen and the directors of the Niles-Bement-Pond Company, of which the Pratt & Whitney Company is a subsidiary.

Mr. Blood was born in Bloomfield, O., and was graduated in 1889 from Sibley College of Cornell University, taking the course in mechanical and electrical studies. He has occupied an important and responsible position in the arsenal at Watervliet, N. Y. He comes to Hartford from the Newark position.

Governor Charles Whitman is a descendant of John Paul Jones, who commanded 12 years of the American navy. He is a descendant of Charles Buller, governor of New York from 1878 to 1881, and also at the head of the navy of the Empire State, serving his second term as governor of the Empire State.

The meeting voted to give to the United States government its moral support in the present crisis, passing a resolution to that effect.

Governor Charles Whitman is entitled to membership in the Cincinnati branch of the society. He was born in New York, August 28, 1860, serving his second term as governor of the Empire State.

Two other New Yorkers were taken in. They are Cortlandt Schuyler van Rensselaer and James H. Colyer, Jr.

The meeting voted to give to the United States government its moral support in the present crisis, passing a resolution to that effect.
shows him to have been singularly fine looking man and his autobiography years afterward. "My own troop was composed entirely of dapple grey horses, which with black straps and black bearskin holster covers, looked superb. I have no hesitation in acknowledging that I was very proud of the command."

Proud of Commander.

The men were probably proud of their commander; at least they had good reason to be for Colonel Benjamin Tallmadge was no ordinary man. Born on Long Island, a minister's son, he was graduated from Yale College in 1772 and upon his graduation, went to Wethersfield as a schoolteacher, doubtless thinking himself lucky to get the place. He liked the place and the people liked him and there he taught until he heard the news from Bunker Hill. He then went there as soon as a horse could carry him. He was interested, and admitted it in his autobiography years afterward, and shortly after, coming back to Wethersfield he got a commission as adjutant in Captain Chester's regiment in time to take an active part in the Battle of Long Island.

Impressed Washington.

Although he received no rank higher than that of Colonel, he attracted the favorable attention of Washington and was an eye witness of many of the great events of the war. He was sent to confer with Rochambeau and Major Andre was in his charge. He was deeply impressed by the Englishman and writes: "When I saw him swinging under the gibbet, it seemed for a time as if I could not support it. He adds "All the spectators seemed to be overwhelmed by the affecting spectacle, and many were suffused in tears. There did not appear to be one hardened or indifferent spectator in all the multitude."

Came of Connecticut Stock.

He was at Fraunces' Tavern when Washington took leave of his officers at the close of the war and then visited his parents at the home in Brookhaven, where an ox was roasted by the way of celebration. In 1784 he married the daughter of William Fitch of Mastic, Long Island, and with her went to Litchfield, which was his home thereafter. He was in Congress from 1799 to 1816, where he declined a re-election and died in 1835. A sketch of him made by Trumbull shows him to be a singularly good looking man and his autobiography, written in his old age, shows him to have been singularly modest. Connecticut may well lay claim to him for, though born on Long Island, he came of Connecticut stock, and, as has been indicated, spent the greater part of his life in this state.

Following the meeting those attending had luncheon at the Hartford Club.

70TH WEDDING ANNIVERSARY

He was born in 1852, in Plainfield, the son of Appolos and Sarah Barton, who came to Lebanon as a schoolteacher with his children. The pink flag is supposed to have belonged especially to Tallmadge's original troop of dragoons. Of these he wrote years afterward. "My own troop was composed entirely of dapple grey horses, which with black straps and black bearskin holster covers, looked superb. I have no hesitation in acknowledging that I was very proud of the command."

For a time he worked for an oil company at Oil City, Pa., where their first child, a son, was born. The second son was born here, in New York.

Hoyt of this city, to William J. Eldridge, a broker of Chicago, at the Methodist Episcopal Church in Roxbury. The ceremony was performed by the Rev. C. W. Barrett. The wedding was a quiet one, the couple being attended by Judge and Mrs. H. Stanley Finch. Dauntless to Be LAUNCHED TODAY

Christening of Scout Boat Given by R. T. H. Barnes to Government.

The town of Essex will be busy today over the launching of the scout boat, the Dauntless, built by vote of the Dauntless Club and given by Roy T. H. Barnes to the government. The exercises will begin at 8:30 with a parade starting at F. M. Rose's store, going to the flag pole on Broadway where the flag will be raised. There will be an inspection by members of the Naval and Military clubs, and also be a reception given by Mr. Barnes at his estate. The name of the boat was chosen from suggestions in Judge Duncanson's Weekly Journal.

Some Mesmerizing Facts

A battery powered race car is a battery-powered electric vehicle that can be driven at high speeds. These cars have become increasingly popular in recent years due to their efficiency and environmental friendliness. They are powered by rechargeable batteries and are capable of reaching speeds of over 200 miles per hour. These cars are often used in endurance races and are featured in various motorsport events. The design and construction of these cars involve advanced engineering and technology, making them a fascinating example of modern automotive innovation.
It was a historic day in the little Connecticut-River town of Essex today, when the Dauntless, the first war vessel built on the river in a century, was launched with elaborate and impressive ceremonies in which some of the state's most prominent citizens took part, including Governor Marcus H. Holcomb, Rear Admiral William Sheflord Cowles, U. S. N., retired, Charles Hopkins Clark, Judge Walter H. Clark, Professor William Leroy Burdick of Essex, and former Governor Frank B. Weeks of Middletown. Former United States Senator Morgan G. Bulkeley was to deliver an address, but was not present. Among other well-known men at the launching were Commodore Francis R. Coddy of the River Patrol Division of the Connecticut Home Guard, Commodore Frank Eldridge, U. S. N., retired, ensigns in the River Patrol, Charles A. Goodwin, Albertus E. Jones, F. Spencer Goodwin, all of Hartford, and others. Former Mayor Louis R. Cheney attended. Numerous prominent business men of the state, members of the Dauntless Club of Essex, which voted to build the boat, were there with their families. Roy H. Barnes of Hartford, who paid for the construction of the boat after the club had voted to build it, was present. The boat will be presented to the federal government for use as a dispatch boat.

It was certainly a gala day in the little, old river town. From the last peep of dawn until the lengthening shadows shut out the scene the stores and houses of the village were decked with flags, both Americans and of the allied nations. The streets were crowded with pedestrians in holiday attire, also automobiles and teams from all over the state. There was a detachment of Home Guardsmen then, in uniform with its band. "Middies" from the River Patrol added to the picturesque beauty of the scene by their natty uniforms of blue, in contrast to khaki of the Guardsmen. A parade lent its festive air to the occasion starting at 9:30 o'clock in the morning from F. M. Rose's store in town and wound its way from there to the flagpole on Baptist Hill, where the flag was raised amid cheers and popular music by the band. An address was given by Professor Burdick. The parade was featured by a number of attractive floats, decorated private automobiles, the motor trucks of the fire department, and soldiers. It was the biggest display Essex has seen in some time.

At 10:30 the members of the Dauntless Club and their guests and the speakers on the program assembled at the club. At 11 o'clock the crowd gathered at the shipyard, and it was considerable of a crowd considering the size of the town and the distance most of the spectators came to attend the ceremony. They squatted into the little shipyard in automobiles that must have surprised the yard which has been hitherto accustomed to overall size. Besides the guardsmen and "tars" there was a number of Red Cross girls, one of whom rendered substantial service when a sea of the seas, which were arranged in a circle around the speakers' platform near the bow of the boat, where the bottle was broken by Mr. Barnes' daughter, Miss Barbara.

Addresses.

"Jim" Pratt of Essex, as he is known to the many members of the Dauntless Club, otherwise James Lord Pratt, was manager of ceremonies and introduced the speakers. First, however, Mr. Pratt took a little turn at speech making himself. He said that a lot of hard work had been put into the building of the boat, and pointed out that it was the first war vessel to be built and launched on the Connecticut River in a century, although the old river towns once counted ship building as one of the most substantial industries. Mr. Pratt praised the arrangement committee for its fiscal sense. It was certainly a gala day in the little, old river town. From the last peep of dawn until the lengthening shadows shut out the scene the stores and houses of the village were decked with flags, both Americans and of the allied nations. The streets were crowded with pedestrians in holiday attire, also automobiles and teams from all over the state. There was a detachment of Home Guardsmen then, in uniform with its band. "Middies" from the River Patrol added to the picturesque beauty of the scene by their natty uniforms of blue, in contrast to khaki of the Guardsmen. A parade lent its festive air to the occasion starting at 9:30 o'clock in the morning from F. M. Rose's store in town and wound its way from there to the flagpole on Baptist Hill, where the flag was raised amid cheers and popular music by the band. An address was given by Professor Burdick. The parade was featured by a number of attractive floats, decorated private automobiles, the motor trucks of the fire department, and soldiers. It was the biggest display Essex has seen in some time.

At 10:30 the members of the Dauntless Club and their guests and the speakers on the program assembled at the club. At 11 o'clock the crowd gathered at the shipyard, and it was considerable of a crowd considering the size of the town and the distance most of the spectators came to attend the ceremony. They squatted into the little shipyard in automobiles that must have surprised the yard which has been hitherto accustomed to overall size. Besides the guardsmen and "tars" there was a number of Red Cross girls, one of whom rendered substantial service when a sea of the seas, which were arranged in a circle around the speakers' platform near the bow of the boat, where the bottle was broken by Mr. Barnes' daughter, Miss Barbara.

did much work on her himself, through a patriotic desire to help, and through a love of speed boats. Mr. Clark concluded his address by referring to "Jim" Pratt's anchors, forged for the boat by "Jim," the descendant of eight generations of boat-builders.

After Mr. Clark finished, Judge Walter H. Clark of Hartford received the boat, which he built for the Dauntless Club. He expressed the satisfaction of the members of the club at the conclusion of the task, and said that, although the financial burden had been generously taken by Mr. Barnes, the club was glad to be associated in any enterprise of such merit. He spoke of the building of the boat, the first war vessel, to be constructed on the river for a century, as a reminder of the old days, the glad days when the hammers of the shipbuilders ran through the Connecticut Valley. The boat, he said, was a thing of beauty on the little island, summer sea, at East Haddam, rising like a thing of foam, but in times of danger its exhaust would roar like the thunder of 1,000 guns, summoning to war a mighty nation. He said that by virtue of such gifts as that of the boat the country was to strike the first blow to free mankind in

Former Governor Frank B. Weeks was called on in this absence of former Senator Bulkeley, and, though being totally unprepared, made a graceful speech, starting with a story about a dog being called governor because he was only good to fight and bark. This he explained as related to himself and to Governor Holcomb. He then went on in a serious vein to speak of the patriotic occasion and to urge every one to stand back of the governor, the state and the country.

**Governor Plays Slackers.**

Governor Holcomb was enthusiastically cheered when he said that he hoped that there was no mother in the crowd whose present son or grandson had raised her boy to be other than a soldier at this time. He hoped that there had not raised their boys to be slackers and cowards. The governor began his address with an allusion to the historic occasion, and said that it was the first built for war here and the first of many. Other events of the same caliber, the governor continued, include the over-subscription of the "Liberty Loan" by the state. He said the United States government needs for scout work. The boat, though small, is considered significant because it is the first built for war here and the elaborate ceremonies showed that Connecticut considers the building but the first of many.

Two trial trips were made by the boat. When she was going at her highest speed, six feet of the keel was out of the water and she was making thirty miles an hour. If she is capable of making thirty-five miles an hour, but being a new craft this speed was not attempted. The engine made 1,200 revolutions a minute and is capable of making 1,400 revolutions a minute. On the second trip the governor and other members of the party were aboard and took a ten-mile sail.

The specifications of the boat are as follows:

*The Dauntless is forty-five feet in length, eight feet, ten inches in beam, and has a draft of three feet. Her cabin is forward under a high crown deck. The entrance to the cabin is through the pilot house. The scheme of the pilot house is the idea of Charles A. Goodwin. Its design gives the maximum convenience for steering, together with great strength and minimum wind resistance, the last being an important factor in the planning. The choice of the vessel was selecting accommodations for five persons. There is also a cook's galley.*

**Abaft the pilot house is the engine room, fifteen feet long with a complete starting and lighting outfit.** This compartment is the most spacious in the boat, designed for the comfort of the engineers, and the engine the maximum of convenience. The engine is a 400 horsepower, eight-cylinder Deutzengen patrol engine. The engine room is covered by a removable mahogany house, with two entrances and is well lighted and ventilated. The finish of the superstructures is mahogany, made bright for the purposes of launching, but which will be painted over in battleship gray when the ship is accepted by the government.

Abaft the pilot house is the engine room, open watertight cockpit extending to the stern, draining into the sea. The exhaust pipe is a copper tube, twenty feet long and six inches in diameter. The screw shaft is of bronze, two inches in diameter, and requires three men to lift it. The engine is ten feet, six inches long and the cylinders are six and three-quarters by seven and three-quarters, with two six-cylinder engines. The fittings are entirely of bronze.

The vessel is capable of making thirty miles an hour and has a gasoline capacity of 210 gallons. Its stern is of bronze casting and the rudder is a solid bronze casting. The propeller is a Columbian Allen-Craig, twenty-four inches, and was especially made for the Columbian Foundry of Freeport, L. I.

**Mahogany finish is used because it is the best wood and does not shrink or swell. Other woods used in the construction are: Frame, native white oak; planking, white cedar; engine bed, long leaf yellow pine, white spruce, Douglas fir and Port Oxford cedar. The fastenings are brass screws.**

**H. C. GREEN MAY LEAVE SMYRNA FOR THREE YEARS.**

IN THE NEAR EAST.

Dispatches from Washington to the effect that the Standard Oil Company is calling its agents back from Turkey have particular interest in Hartford because a Hartford man in the company's employ, Harold C. Green, is believed to be either in Constantinople or Smyrna. Mr. Green is a son of Major Alfred W. Green, is a graduate of the South School, the Hartford Public High School and Trinity College.

The Washington news was confirmed by Vice-President Herbert L. Pratt of the company in New York yesterday. Mr. Pratt asserted that the company had been unable to do much business in Turkey since the war got well under way. Mr. Pratt had returned late from his parents and said he had returned the postal card which was sent. This had the date of December 18 and told about writing two letters from Constantinople, where the card was posted. It told also about an arrangement to remain in the Turkish capital until after Christmas and then to journey "my beloved Smyrna." Mr. Green has arrived in Constantinople from Smyrna three days before the posting of the card. He was assistant manager in Smyrna for the company.

Mr. Green gave on the card his address as in care of the Standard Oil Company of New York, Constantinople, Turkey. Major Green posted a letter last night to Vice-President Pratt, desiring the latest information concerning his son.

Mr. Green is 27 years old. After attending the South School he was graduated from the high school of Trinity College in the class of 1910 and from Trinity College in the class of 1910. Then he accepted a place with the Rice & Green Electric Company and became assistant secretary and a director. Later he was for two years with the Western Electric Company of New York.

In March, 1914, Mr. Green sailed from New York on the Baltic of the White Star Line for Smyrna. He remained in Smyrna three days and then went on to Constantinople, thence to travel to Constantinople and receive instructions as to his work for the Standard Oil Company. After the sneeze of which his son entered. After a few days in England he went to Paris and thence to Berlin, Gienna and Belgrade, spending three days in April, 1914, just a few months before the European war began.

When he arrived in Constantinople, Mr. Green reported to the company's manager there. In time he was sent to Smyrna, on the eastern coast of the Mediterranean. Mr. Green later became assistant manager of the company's office there. He lived in a

**BANK STATEMENT'S NEW FORM**

New York Reserve Lowest Since Establish-

ment of Federal Reserve System

The weekly bank statement issued by the New York Clearing House Saturday showed excess reserves of $83,000,000 and total reserves of $538,000,000, the lowest since the establishment of the Federal Re-serve system. The decrease in "excess" reserves for the week was $242,000,000, the unusually heavy falling off 

being due in part to the fact that the 

Closing House adopted a new form of ac-

ounting in compiling the statement, the 

change consisting of the elimination of re-

serve money held by members of the Federa-

ral Reserve Bank in their own vaults. This 

difference amounted to about $110,000,000, and the statement had been compiled in 

form used the previous week, the decrease 

in surplus reserves would have been only 

$132,000,000. The other reason for the de-

crease consists in the withdrawal 

of about $103,000,000 in Government de-

posits, against which, however, the banks 

are not required to maintain a reserve. The 

decrease in aggregate reserves for the week 

was $242,000,000, and Saturday’s total of 

$538,000,000 is smaller by $274,000,000 than 

the figures for the week ending April 7, the 

day after war was declared against Ger-

many. The expansion in loans since that 

date amounts to $224,000,000.

Upon January 1, 1918, a law was passed in California that the Stockholder Mining and Smelting Company was to have been accomplished by water concentrate, being one of the largest of the smelters in the state. The Sullivan mine ships 3000 tons of ore per month; for the first time since the amendment went into effect, on June 30, 1917, the company reported a profit of $120,000, in contrast to a loss of $62,000 in the same period.

According to the Federal Reserve Act, the reserve is held in gold and silver certificates, and there is a reserve to cover 15 per cent of the deposits. The reserve amount is $2,000,000, or $100,000 per $1,000,000 of deposits. Underwood.
GOES TO BELGRADE FROM SMYRNA, A. M.

This bi-weekly cablegram, received by Alfred W. Green yesterday morning from his son, Harold C. Green, at Smyrna, Asia Minor, where he has been since April 3, 1914, having left here the latter part of the previous month. Soon after his arrival in Smyrna he became acting manager of the Standard Oil Company's extensive oil station there which he has remained until now, for the past three or four years as manager. He now goes to Belgrade, where he will have a much larger territory to look after and the change is recognized as a promotion in appreciation of good service rendered.

In writing here recently and telling of his contemplated removal to the land of the doughty Serbs, Mr. Green said that in leaving the beautiful climate and scenery of Smyrna, and told of the delightful times he had recently been privileged to entertain Admiral Bristol of the American fleet stationed at Smyrna. He has also enjoyed the hospitality of the officers of the fleet and of the admiral and officers of the British fleet stationed in the Bay of Smyrna. Both fleets having been there for several months as precautionary measure of the allies.

This is not Mr. Green's first visit to Belgrade, for he was stationed there several days in 1914 on his way to Constantinople, through a war zone on the railroad. As to his returning home, he has been expected since 1916 but the war has delayed his return.

Mr. Green is a graduate of Trinity College, Hartford, Conn., recently advised by the Foreign Minister of Constantinople to entertain Admiral Bristol in his interest. He has been in the foreign oil service in New York for three years, handling and in charge of the Standard Oil of New Jersey, later of the Standard Oil of New York, and his present position is as manager of the entire foreign business of the Standard Oil Company, among the largest in the United States.

FORMER HARTFORD BOY MADE HEAD OF NEW YORK BANK

H. K. Twitchell Succeeds Late J. I. Presid

Herbert K. Twitchell, president of the Chemical National Bank of New York, was elected at the annual meeting of the board of directors held at the Chemical National Bank on Monday, March 21, 1920, to succeed the late Joseph B. Martindale, president of the bank for many years.

Mr. Twitchell is a trustee of Adelphi College, a member of the board of control of the Brooklyn Y. M. C. A., and a director of the Bankers’ Trust company.

He has been a member of the fusion committee and chairman of the Brooklyn executive committee of the Democratic party. Last year he was one of ten Republican signers to the demand on the state comptroller for an accounting of the expenses of Governor Whitman’s party at the Panama-Pacific exposition in San Francisco.

The Chemical Bank was established in 1834. It has a capital of $1,000,000, a surplus of about $9,000,000, and its stock is quoted around 400, and it has paid 10 per cent. dividends for several years.

Mr. Twitchell is a member of Phi Delta Kappa, and a member of the Phi Gamma Delta fraternity.

What is said will be one of the most costly chimes of bells in America and one of rare musical sweetness is being made at the foundry of the Meneely Bell Company in Troy, N. Y., for the tower of Cadet Chapel at the United States Military Academy at West Point. The bells are the gift of Mrs. James M. Lawton in memory of her father, the late General Robert Anderson, who was graduated from West Point in 1828 and was in command of Fort Sumter when the first shots of the Civil War were fired.

A former Hartford man was placed Thursday in charge of $300,000,000 of funds, when he was made chairman of the board of directors of the merged banks uniting in New York to form the amplified Chemical National Bank created by the marriage of the well-known ancient institutions of that name.

Former Springfield Bank Success

Many people in this vicinity will be interested to learn of the success at the university of Texas of Parker Davis Trask, son of Mr. Frederick P. Trask of Corpus Christi, Tex., and grandson of the late Rev. Dr. J. L. R. Trask, former pastor of Memorial Congregational church in Holyoke. Young Mr. Trask has the subject of an illustrated “write-up” in the department of “Who’s Who in Texas and Why,” in the Austin (Tex.) American, in part as follows:—

A former Hartford man has just been appointed a sheepskin on his young graduate Parker Davis Trask, graduate of the University of Texas and last summer working as assistant geologist under F. L. Whitney, who was making a geological survey for the state of Texas. He is a member of the Sigma Delta Psi, a fraternity for students showing all-around excellence in athletics. Mr. Trask has the distinction of being the first man in the university to make the senior requirements without the aid of substituting a letter. He was the university handball champion for 1917. He is a member of the Chi Phi fraternity.

Mr. Trask will go to the university of California next fall to work for his master’s degree and take subjects preliminary to the study of medicine. He is now six feet one inch tall and weighs 170 pounds.

The Kid has gone to the Colors.

(W. M. Herschell, in the Indianapolis News.)

The Kid has gone to the Colors, and we don't know what to say; The Kid we have loved and cuddled Stepped out for the Flag to-day. We thought him a child, a baby With never a care at all, But his country called him, man-size. And the Kid has heard the call.

He paused in what the recruiting guards were, fired by the fife and drum, He bowed his head to Old Glory, and thought that it whispered: "Come!"

The Kid, not being a slacker, Stood forth with patriot-Joy To add his name to the roster— And God, we're proud of the boy!

The Kid has gone to the Colors; It seems but a little while Since he drilled a schoolboy army In a truly martial style. But now he's a man, a soldier, Shouldered a rifle, and we lend him listening ear, For his heart is a heart all loyal, Unconquered by the curse of fear.

The Kid has gone to the Colors; It seems but a little while Since he drilled a schoolboy army In a truly martial style. But now he's a man, a soldier, Shouldered a rifle, and we lend him listening ear, For his heart is a heart all loyal, Unconquered by the curse of fear.

Hi dad, when he told him, shivered, Father—God bless her—cried Yet, blessed with a mother-nature, She wept with a mother-pride.

But when I stood by shoulders straightened

Was Granddad—for memory ran To years when he, too, was younger.

And was changed by the Flag to a man.

DATED 1862.

Late Judge Ebenezer Rockwood Hoar Counseled Soldier Son.

Paternal affection and solid counsel is contained in a letter recently unearthed, from a brave father of Civil War days to a brave soldier son. Although written at Concord Dec. 15, 1862, the letter reads as if it were written but yesterday and referred to the present war rather than to the great rebellion, more than half a century ago. The author of the communication was the late Judge Ebenezer Rockwood Hoar, who passed away in 1895. It was sent to his son, Corp. Samuel Hoar, who served in the 48th Regt. Mass. Volunteers. It reads as follows:

"My Dear Boy: I did not have the opportunity I had hoped to talk with you last evening—and therefore take this opportunity, when we are sending you your mittens, and the envelopes which you forgot, to give you a few last words of affectionate counsel from home.

"One of your first duties as a soldier will be to take all the care you can of your health. The fitter that is, the better you will be able to do any service, or undergo any fatigue, required of you. To preserve your health, you must try to lead as regular and temperate life as possible. I hope you will not try to avoid your full share of labor, nor to procure where either is necessary.

"Try to preserve a cheerful and contented spirit, and conduct yourself in others Bear hardships without grumbling, and always try to do more, rather than less, than your duty. You will have occasion to be patient, much oftener than to be brave.

"The duty of a soldier is unquestioning obedience—but beyond this, I hope you will cultivate a kind respectful and considerate temper toward your officers.

"I hope you are going with a love for your country, and your cause, and with a determination to be faithful to every duty you have undertaken. My boy, you bear the name of one, to whom the end of his honored life never shrunk from danger, however painful, nor from a danger to which duty called him. Be sure that you do no discredit to it! Neither by cowardice, by falsehood, by impurity, by levity, nor by selfishness. Remember always your home and your friends—which who will welcome your return with pride and joy if you shall come back in virtue and honor; who will cherish your memory if, faithful and true, you have given up your life; but to whom your disgrace would cause a pang sharper than death. Remember your obligations to duty and to God. And may these thoughts keep you from temptation, and courage and strengthen you in danger or sickness.

"And now, my dear boy, I commend you to God—and to the grace of His grace. May God bless and keep you. Think of your Heavenly Father in health and in sickness, in joy and in sorrow, in strength and guidance. You are very dear to our hearts—and your absence leaves a great place vacant in our home. If it be according to His will, you may come back to us in safety and honor—but whatever is before us, may His mercy be ever with you, and Y
The Hartford Theatre is being moved to another location by the department store of Wise, Smith & Co., as has already been announced in the Courant." and the work has begun.

Sunday night was spent in the last performance of Roberts's Opera House, which has been known to old residents of Hartford as the old opera house. Possession of the theatre is now in the hands of John and Phoebe H. Smith, proprietors of the department store of Wise, Smith & Co.

The theatre, which has been known by leaps and bounds to obtain immediately a new home, was bought by these enterprising people.

Their business is to be continued in a nearby building which was the old music hall of the state. Its prime was in 1868, when it was the home of the famous stars of the English opera company, with William Crane in the cast, drew $368.

During the opening season of 1868, the gross receipts were $56,512.25, with the highest nightly receipts of $1,428, which was $1,087. A cooperative bill, "Hamlet," drew $1,087, the largest dramatic receipt. He drew $52.20 for two performances in 1868 at Allan hall. Grand opera drew well. The mixed French opera company drew $1,725, with "Genevieve" and "Little Barefoot." The fact of having some of the most celebrated opera companies of the day there, and the fact that they were succeeded by others of equal repute, greatly helped the Hartford for its successes.

The season of 1870 was a brilliant one for the theatre, which was the most popular of its kind in the state. Its patrons were the famous stars of the English opera company, with William Crane in the cast, drew $368.

MRS. BEACH, LEADING HARTFORD SUFFRAGE PARADE IN 1913, WHEN SHE WAS MISS ETHEL ESTHER MURRAY.

And Mr. Beach of West Hartford Occurs in July; Just Announced.

The celebration of a golden wedding anniversary of unusual interest will occur this evening when Mr. and Mrs. James Brown of Gilbert avenue, will welcome 187 relatives to help them bring back memories of fifty years ago. On July 31, 1867, Miss Nancy Ann Larkin and Brown, both of Richford, were married in that town. The occasion was especially noteworthy because Brown was one of the heroes of Petersburg.

The romance started when the two went to school together and when the call came for volunteers in the year of 1864 Mr. Brown was one of the first to enlist with the sixteenth Vermont regiment. Left in March of that year, they were in the Wilderness, Spotsylvania, Cold Harbor; at Petersburg, and many other battles. Mrs. Brown is sixty-six years old and Mr. Brown is sixty-five. Both of them are hale and hearty.

Twelve children have been born to the couple, all of whom are living with the exception of one daughter who is living in Canada. Mrs. Brown has twenty-six great-grandchildren. The names of the grandchildren are Gustav and Gustine of Canada, Thomas, Edward B. Hooker, William P. Dape, and others.

The celebration will be held in the home of Mr. and Mrs. Brown on Howard Street. The house is decorated with wild and cultivated flowers and the guests are expected to arrive by 5:00 o'clock. Harry New York will be best man for Mr. Brown and Miss Blair will have her thirtieth child as an attendant.

Dr. Edward B. Hooker, Farmington avenue was called to attend the medical conference. Physicians from all states in the Union will be present and the festivities will continue until a late hour. The house has a doorway as good as one recently sent to the Metropolitan Museum of Art in New York.

Y.W.C.A. SUMMER HOME

JUNE 1918

Imagery for the new summer home was provided by Mayor Hagarty.

In accepting the house for the young women of Hartford, Mayor Frank A. Hagarty expressed his surprise at the size of the building, turning it a palatial mansion set on a hill. He spoke of the many gifts of Mr. Avery and said, 'Happy is the city which counts among its citizens one who can give such a gift as young women.'
Samuel P. Avery, Whose Generosity is Responsible for the Handsome House at Griswoldville, One of the Best Known Art Collectors of America.

Eight miles from Hartford, in the town of Griswoldville, is situated Wangum Lodge, the new Hartford Y. W. C. A. vacation house. It was officially opened to the public yesterday, and the consecration services will be held this afternoon. A subscription of $500,000 on the building and the land was the gift of Samuel P. Avery of No. 61 Woodland Street, a man well-known locally as an art authority. Mr. Avery was originally interested in the project by his niece, Miss Amy Ogden Welch, who has been very active in Y. W. C. A. matters. Miss Emily Bronson, house secretary, is in charge of all activities within the house. Miss Carolyn Mashburn has charge of all the recreation, both inside the house and outside. Guests are welcomed at the edge for short visits, week end trips, and for periods not exceeding more than two weeks. The rates are so low for board and room that many girls, whose circumstances would not otherwise permit them to go out of the city for their vacations are enabled to have two weeks' time and comfort and recreations.

In describing Samuel P. Avery's splendid gift of a vacation house at Griswoldville to the Hartford Y. W. C. A., "The Courant" last Sunday printed a picture, or rather, tried to, of Mr. Avery. But something went wrong and a blur resulted. Unless another accident intervenes, the above picture is an excellent likeness of the generous gentleman.

About three years ago he was given a medal by his many friends in the art world around New York, in appreciation of what he had done for that city. It was presented at the graduation exercises of the university, and Mr. Avery's retiring nature was shown at that time through his refusal to attend the exercises and receive the medal. His niece did it for him.

Mr. Avery has collected no old masters. All his paintings, bought when he was in business, were in the modern schools. He has given a few pieces of cloisonne to the Wadsworth Atheneum of which he is second vice-president. He recently gave an old Chinese bell to the Atheneum. It was 3,000 years old and a masterpiece of the art of those days.

Mr. Avery holds several prominent offices in this city. He is vice-president of the Wadsworth Atheneum, a director of the Colonial National Bank and of the Society for Savings.

In addition to this, he is a trustee of the Lincoln Memorial University in Tennessee, a trustee of the Brooklyn Institute of Arts and Sciences and of the Brooklyn Museum.

Mr. Avery has a deep interest in Y. M. C. A. work, in New York state conducting a large camp on Lake Champlain. He has recently given the camp a splendid house.

of the Chou dynasty, dating back about 1000 B.C., presented to the Wadsworth Atheneum by Samuel P. Avery, of this city, is perhaps one of the most valuable acquisitions to the collection. The bell is about nineteen inches in height and nine and a half inches in width, of elliptical shape. It is beautifully decorated with Archaic dragons and other designs. One of the peculiar features of its ornamental type is thirty-six spiral prongs in groups of three, which groupings are assembled in series of nine, suggestive of the mystical Orient.

The coloring is very beautiful, showing a rich patina. The bell is provided with a teakwood stand, carved in design appropriate to those on the bell. The bell never possessed a gong or clapper, but was rung by being struck a glancing blow with a felted or covered hammer. The bell was formerly of the celebrated Marsh collection in London and had, before its arrival in this country, been exhibited in many museums throughout the world.

Elected Assistant Secretary.

In April, 1913, he was elected by the directors as assistant secretary to take charge of the new business department of the company. In that position Mr. Thurman has had a successful career. He has built over the department, introduced many new methods of handling the applications for new insurance with a resulting service to the members of the field force that has won well merited approbation.

The call of active field work has never left Mr. Thurman and even as assistant secretary he did considerable traveling among the agencies of the company. It is this desire for field work that has prompted his resignation and the company has recognized his ability by placing him in charge of one of its most important agencies.

Mr. Thurman is a native of Tennessee, born in 1877, and received his early education there. He was graduated from the North Texas Normal college at Denton, Texas, and soon afterward became connected with the work of that college. He organized the John B. Denton college at Denton, Texas, and was made first president. He remained in that position until 1901, when he entered the life insurance business at Baltimore.

During the past few years the company's business has been experiencing a remarkable growth. Already in seven months of 1917 more new business has been issued than in the entire year of 1916. To meet the growing needs of the company.

the directors at their meeting today elected two assistant secretaries.

For the accounting and auditing department Russell Lee Jones was elected assistant secretary. He will assist Secretary Silas H. Cornwell and Assistant Secretary Harry E. Johnson in this department. Mr.

Ingraham, assistant secretary of war, and approved by Adjutant-General H. P. McCain, and later will be signed by the president. Major Broderick, who is an efficiency expert in the conduct of machine plants, has had considerable experience in supervising the manufacture of munitions and is an expert on big gun work. He was recently in charge of a large munitions plant, doing work for the Canadian government, near Detroit. He will probably receive an assignment in a few days to one of the large ordnance plants, where he will represent the government in supervising the manufacture of ordnance.

Major Broderick is the inventor of the Broderick plating machine which is used by many progressive manufacturing plants.

The major is a native of Bloomfield, and on leaving school entered the employ of Pratt & Whitney, where he learned the trade of a machinist. He has held important positions with the Winchester Arms company and with many of the large ordnance companies of this country and of Europe. Mr. Brainerd said the property was for years ago to Professor Merrifield, of Wesleyan university, later buying it back and occupying it until going to his summer home in East Orange in the early summer. Dr. Taft will take up his residence here at once, going by automobile daily to his office in Hartford.

Washington, D. C., August 31.

Lieutenant-Colonel Earl D. Church, of No. 883 Asylum avenue, Hartford, has received a notice of an official citation from General John J. Pershing, chief of staff of the United States army. The citation was published Friday by the war department and reads as follows:

To Earl D. Church, Lieutenant-Col. U. S. A.

"For exceptional services and distinguished service as ordnance officer of the 9th division, not only were ordnance and ammunition supplied at all times to the members of this division, but also to thousands of men of other divisions at various times when their own ammunition supplies failed. His organization of the ordnance supply system shows the results of exhaustive study and determined effort to overcome adverse conditions."

"Later, as chief ordnance officer of the 8th corps, he displayed high quality of zeal, loyalty and efficiency."

Former National Guardsman.

Lieutenant Colonel Church has been interested in military affairs for a number of years. He joined the First Infantry, C. N. G., in the old First Infantry, C. N. sent out of the country before the
troops are mobilized. It is said
that these chassis will be kept in
reserve for shipment to France
should it be found that for some un-
foreseen reason the French govern-
ment is unable to furnish the
equipment desired.

McIntyre Sisters Cited for Bravery.

Boston, May 17.—Three veterans of the American expeditionary forces were decorated on the Common today. Lieutenant Colonel Joseph M. Flint of the medical corps, a professor at Yale, was given a distinguished service medal and Captain Conrad Wesselhoeft of the medical corps, of this city, and Corporal Edward D. Murphy of Pittsburg, received distinguished service crosses.

Martell of Somerville, mother of Lieutenant Judson G. Martell, who was awarded the cross after his death. A. J. Middlebrook of No. 167 Steele road has two sons in service, Louis Shelton Middlebrook, who recently received the commission of Second lieutenant, Field artillery, American Expeditionary forces, and Harry T. Middlebrook, a member of the aeronautical mechanical engineers, a branch of the signal corps, stationed at Dayton, O.

Louis Middlebrook joined the Yale Mobile hospital unit, and left with it when it sailed for France the latter part of August. Not long after the unit arrived in Paris, the young man wrote home that he had applied for a commission. He received it in December and is now training at a French artillery school where he will be for three months. He said the instructors were all Frenchmen of the highest type and men who could speak English.

Both the young men were graduated from Yale in the class of 1917, Harry, from Sheffield Scientific school and Louis who was captain of the Yale baseball team, 1915, from the academic department.
Yale university has formed the first mobile hospital unit that will represent the United States in the great war. It is modeled after the French mobile base hospitals, of which there are said to be about 140, that have proved satisfactory behind the firing lines.

The hospital is a series of movable buildings that can be loaded upon trucks and carried quickly to a spot near the front. It is set up usually about three miles from the firing line. In this way the wounded are brought in about forty minutes after they are shot, whereas if they are sent to a base hospital they do not receive attention for at least three hours after they are wounded.

The mobile hospital will be completely equipped that it can give to the wounded just the same treatment as would a base hospital far to the rear of the firing line.

To transport the hospital holding the apparatus, supplies and staff as the battle line moves forward, the Yale organization has bought several army trucks and has given them to the hospital.

WANTED BY YALE MEN.

Three-ton Riker trucks, built in Bridgeport by the Locomobile company of America, and a Locomobile touring car. These trucks will be used for and driven by young Yale graduates who are members of the unit. Fifteen of these men spent two weeks in the Bridgeport plant, learning how the trucks that they will drive are built and assembled, and driving them over the roads of Fairfield county.

Orders for More Trucks.

Bridgeport, August 11.—Orders for 1,250 additional trucks have been received by the Locomobile company. The amount of money that this order will involve will be approximately $5,000,000. These figures are not official, but are based on the usual price of $4,000 per truck.

This last order, which was given by the government a few days ago, follows a previous order for 400 trucks. This makes a total of 1,650 trucks that the Locomobile is now building for the United States. They will be used by the United States government and not by the Allies.

The battle front, as close to the trenches as possible, and to care for the "cavity" cases, which include deep wounds in the head, abdomen, or chest. Only the automobile trucks and equipment are to be taken to France, the hospital awaiting the unit there. It is believed that the staff will live on the trucks, which will hold small portal houses, immediately behind the line trenches, keeping where fighting is most active, and endeavoring to save the lives of soldiers who would usually die before reaching other hospitals.

AMSTERDAM TALK
REASON FOR ACT

German Said to Have Vis-
ted Oyster Bay States-
man in 1916.

New York, August 11.—Colonel
Theodore Roosevelt declared, in a
statement, yesterday, that he had
seen misquoted by Dr. Kuno Meyer,
Berlin professor, in dispatches from
amsterdam. He said Professor Meyer
was guilty of “gross impropriety” in
quoting him concerning compen-
sation and indemnities Germany might
collect.

“Mr. Meyer’s statement is substan-
tially correct, with this exception,”
Said Roosevelt. “I did not say the
Austro-German victory would entitle
them to compensation or indemnities
or to form a mid-European federa-
tion under Germany’s agency.

“What I said was that if Germany
was victorious, she would undoub-
tedly exact the utmost limits of com-
pensation and indemnity she could
wring from all her adversaries, in-
cluding the United States, and I
added she would take them from
the United States, whether we went
to war or not. Mr. Meyer and his
wife called on me in May, 1916. What
I said to him was what I said in
speeches, so far as Germany and the
futility of this government are con-
cerned.

“We are fighting for our nearest
and dearest interests, to make the
world safe for America. Until Amer-
ica shows her ability to do that she
should not talk about making the
world safe for democracy. Now let
every man, woman and child in this
country strain every nerve, so that
at the earliest possible moment our
plant strength may be used to win
the victory.

“Let us remember that pacifists
and pro-Germans stand with the
Amerheads in the Civil War. This
applies to some senators and
congressmen and newspaper editors.
Thus it is not a question of
whether the war lasts.

for further proceedings by or-

Spellacy of Hartford.

Dermody formerly lived here, but
three or four years ago went to An-
derson, Indiana. He returned a few
days ago to attend the funeral of his
foster father. He claims to be 34
years old, but the authorities say
the records show he is 29. He has ad-

and one month in prison. A confi-
mental at Thor also is said to have
sentenced Dr. Liebknecht to four
and a half years at hard labor,
charging that he had attempted to
incite the soldiers of the Thorn gar-
ison to disobedience and rebellion.
The hospital, which was planned by the French government, is designed to move along the battle front as close to the trenches as possible, and to care for the "cavity" cases, which include deep wounds in the head, abdomen, or chest. Only the automobile trucks and equipment are to be taken to France, the hospital remaining there. It is believed that the staff will live on the trucks which will hold small portal houses, immediately behind the line trenches, keeping where the fighting is most active, and endeavoring to save the lives of soldiers who would usually die before reaching other hospitals.

Most of these young men have been undergoing a course of training at the Locomobile works in Bridgeport. The hospital, which is to be moved along the battle front, is an officer of the unit.

MRS. JOHN WANAMAKER,
Formerly Miss Pauline Diston of Philadelphia. From a Recent Portrait by Nikol Schattenstein.

Mrs. Devereaux, as Miss Louise Drew, was well known to audiences throughout the country. She is perhaps best remembered professionally as the linguistic French countess during the long run of “It Pays To Advertise,” a character which Miss Drew was peculiarly fitted to play because of her own exceptional knowledge of French, German and Italian.

Like almost all the members of the noted Drew-Barrymore family, Mrs. Devereaux early went on the stage after leaving school. She was born and educated in this city and also studied for some time in France. Her first appearance on the stage was as a maid in her father’s company in “The Tyranny of Tears” at the Empire Theater a few years ago. Later she went on tour with Mr. Drew in “The Second in Command” and has since appeared in plays headed by Virginia Harned, Fay Davis, Robert Edeson, William Collier, Billie Burke and in a number of plays with her cousin, Miss Ethel Barrymore.

Mr. Devereaux’s most recent appearance in the “spoken drama” was in “Bunker Bean.” He was educated at Georgetown University and is a member of the Lambs Club.

SENATE WILL RESIGN AND COUNTRY LEFT WITHOUT GOVERNMENT—UPPER CHAMBER OPPOSED TO INDEPENDENCE

Helsingfors, Finland, July 16 (Delayed)—If the Bolsheviki, the majority faction of the Social-Democrats, succeeds in rushing through the Landtag on third reading tomorrow the bill for the independence of Finland the Senate, which is Finland's Cabinet, will resign and the country will be left without a Government, in a state bordering on anarchy. This conclusion is inevitable if one accepts the statements of Finland's most prominent public men.

Senator Settaels, minister of education, told the Associated Press that all twelve members of the Senate, which includes six Socialists, would be compelled to resign in the event of passage of the independence bill, since the Soviet, as the exclusive guardian of the law, could not promulgate a revolutionary enactment in violation of the laws of the country. The constitution requires the Senate to promulgate the law only after they have been sanctioned by Russia, so that if the Landtag succeeds in establishing Finland's independence without the consent of Petrograd the Senate must resign. Thereafter the Social-Democrats will form their own revolutionary senate, on which would rest the responsibility for a conflict with Russia.

TIGHTENS CENSORSHIP ON ATLANTIC CABLES

ALL MESSAGES TO BE MOST STRICTLY SCRUTINIZED—CREEL SUGGESTED STRicter RULES

Washington, July 18—Extension of the cable censorship to all transatlantic messages was formally considered today by Secretary Daniels under the authority of President Wilson's executive order of April 28.

Censorship of cable messages to South and Central America, Mexico, and the Orient has been in force since May 4, when transatlantic cables were temporarily suspended, until the workings of the French and British censorships were suspended, in order that effective cooperation without duplication could be secured.

Thompsonville, August 28.

When Lincoln W. Morrison, for years prominent in this section as an attorney and for two terms judge of the Enfield town court, left Thompsonville a week ago Saturday his friends supposed that the judge was off for his usual vacation. Upon his return yesterday, however, Judge Morrison had a surprise in store for his wide circle of acquaintances, as he was accompanied by Mrs. Morris- son, to whom he had been married in Portland, Me., on Monday of last week.

The bride before her marriage was Miss Jessie Strickland of Brooklyn, N. Y. She has recently been visiting friends in Portland, and it was there that she was joined by Judge Morrison and the ceremony performed. They spent last week on a wedding trip to the various shore resorts in Maine, including Old Orchard, Rockport and Bar Harbor.

Judge Morrison has for years been a prominent figure in political circles of Enfield, besides being widely known in legal circles throughout the state, having law offices both in this village and Hartford. He was for several terms chairman of the

Charles A. Carroll is a government employee in the division of the department that handles contracts. Mr. Carroll has dedicated his career to public service, particularly in the Leather division, where he has made significant contributions. His role as an arm of the service has been pivotal in ensuring that contracts are carried out efficiently. He has also managed and supervised several key projects, furthering the advancement of the government's efforts.

In connection with this work, Mr. Rogers's thoughts naturally turned to Mr. Carroll, who, while still a young man, has had many years of experience in the leather goods business. He was formerly manager of the Smith, Loom & Co., local retail store, and he later took over this business and organized the Charles A. Carroll Company. His knowledge of leathers and of the way in which articles made of leather should be manufactured is thorough. Mr. Rogers knew he was just the sort of man that the war department wanted and early this week he sent word for Mr. Carroll to go to Washington to consult with him.

Mr. Carroll was in Washington on Wednesday, and the officials in the equipment division of the department, after a few minutes' conservation with him, wanted to swear him in and put him to work at once. Mr. Carroll pleaded for time to arrange his business affairs, so that he could leave Hartford, asking, at first, until the first of next month. Finally the officer in charge of the division granted him a week, and Mr. Carroll is to report in Washington on next Monday. Mr. Carroll is energetic, able and honest and he will make a valuable man for the government in the line of work in which he is to engage. For a number of years he was a member of Company K, First Regiment, C. N. G. He is a brother of Deputy Clerk Richard F. Carroll of the United States court.

Mr. Wilcox is a native of Meriden. His father, Horace Wilcox, started a silverware industry in East Meriden, which grew in the Meriden Britannia company and has finally become the International Silver company, controlling many factories.

Mr. Wilcox has three sons, two of whom are serving their country.

**Bartlett's Relief Trip.**

The relief of MacMillan and Small by Captain Robert Bartlett in the staunch sealing steamer Neptune enhances the reputation Bartlett has earned as one of the foremost Arctic navigators.

He left St. Johns, N. F., four days after Edmund O. Hovey of the American Museum of Natural History had started in the steamer Danmark from Disco Island, off the southern coast of Greenland, on an unsuccessful attempt to relieve the MacMillan expedition, for which considerable anxiety had been felt. The Danmark stuck fast in the ice, however.

"People said I would meet the fate of the Danmark," Captain Bartlett said tonight, "but I had too much reliance in the Neptune, the queen of the sealing fleet, to believe them. At the same time, in all my trips with Peary I have never seen such heavy ice. I did not spare the ship however. We smashed through the heavy ice of Melville Bay and passed the Danmark stuck fast in an ice field in North Star Bay. At Disco we made a three-hour stop and effected some repairs. Finally we reached Etah after a hard passage."

When MacMillan left this port for Greenland he had with him W. Elmer Ekblaw of the University of Illinois, as geologist and botanist; Prof. Maurice C. Tanquary, of the University of Illinois, zoologist; Dr. Fitzhugh Green, U. S. N., a native of Missouri, engineer and physicist of the expedition; Jerome Lee, U. S. Navy, wireless operator; Dr. Harrison J. Hunt, of Bangor, Me., surgeon; and Jonathan C. Small, of Provincetown, Mass., mechanic and general aide.

Small was the only man who remained with MacMillan during the whole period. Tanquary and Allen left in January, 1916, and got home safely, although Tanquary had two toes frozen. In December of the same year Ekblaw and Ekblaw started by dog team across Melville Bay to Upernialk, reaching Disco whence Hunt got home safely. Ekblaw, however, had both feet frozen and had to remain at Disco with Dr. Rorsild, the eminent scientist and was picked up by the Neptune on her homeward passage.

Captain Bartlett's relief expedition was the third one sent out. Dr. George H. Price, missionary, schooner, the George B. Chute, was fitted out in July, 1915, to go to Etah. The ship was fitted up expressly for rough work in the ice but was unable to get through the heavy floes. Then Dr. Hovey fitted out the Danmark which met with no better success. The last news MacMillan had of the Danmark she had been badly nipped by the ice and the search party had no success in finding the explorers some worry as to her fate.

Captain Bartlett, who was selected to head the relief expedition, is well known wherever Arctic exploration is discussed. He was with Peary on several of his polar voyages and was in command of the Roosevelt on Peary's last successful dash for the Pole. Peary himself, when the captain the last dash the captain reaching him with the final dash for the Pole, giving Bartlett the distinction of being the only white man besides Peary to get so near the top of the world. Captain Bartlett will go direct to New York on Tuesday, with Dr. J. C. Knowlton of New York, who was physician of the Neptune.

ORTHOPEDIC EXPERT FOUND EXCITEMENT IN ARMY SERVICE

Taking Charge of Relief Train During Cyclone, One of Dr. Cook’s Experiences.

Dr. Ansel G. Cook, who has been away from his practice for two years while serving as an orthopedic specialist in the army, has been busy during the past week furnishing his office at No. 64 Pratt street. He will have everything in readiness to resume his practice on Monday.

Major Cook was discharged at Fort Sam Houston, San Antonio, Tex., and Camp Wheeler at Macon, Ga., after living in Kinsella, Ala., for the past three months. He has been giving lectures on the care of the feet and setting and caring for bones injured.

At one time when there was a cyclone along the coast he was called out at 2 o’clock in the morning and told to take charge of a relief train. He went with him eight doctors, twenty nurses and forty orderlies, with provisions enough for the staff and as many people as he would be able to take care of. This is only one of a number of interesting experiences he had while in the service.

While at Fort Sam Houston he had a staff of from four to twelve doctors, and in addition to the lecture work for the soldiers he taught school for fourteen months and trained many other doctors and nurses. He was also connected with the distribution of shoes for the quartermaster’s department and at one time had 200,000 pairs of shoes at his disposal.

Dr. Cook desires to express his appreciation of the people of Texas. He says that he enjoyed his work among them and found them a generous and friendly people.

He lectured in orthopedic work in Fort Oglethorpe, Chattanooga, and in the West in company with Dr. Ellis Jones. Major Cook has been in the base hospital at Fort Sam Houston, Texas, since last May, and has spent the time visiting hospitals and clinics in the West in company with Dr. Ellis Jones. Major Cook has been in Hartford about three weeks. He was one of the first members of the Hartford Medical Association to enter the service, and was commissioned captain on July 5, 1917. He was sent to Fort Adams, Newport, R. I., on special duty in orthopedic work and gave lectures.

His chief work was as supervising surgeon of the South American hospitals at the U. S. Army Base Hospital at Fort Sam Houston, Tex. He will return to New York soon.
Dr. Ansel G. Cook of this city, the well-known orthopedic surgeon, who recently entered government service and became Captain Cook, is now at San Antonio, Tex., where the "Express" says he is to have charge of a reclamation hospital for men wounded in the limbs, which is soon to be established in connection with the base hospital at Fort Sam Houston. The "Express" of March 12 says:—

Captain Cook arrived at Fort Sam Houston yesterday and assumed his duties at once. As there are no shell-torn bodies to mend yet, and as there will be none until the wounded are brought back from France, Captain Cook will start on an undertaking almost as great in its importance to the army as repairing damaged soldiers. That first work will be correcting the feet of Uncle Sam's fighting men in the Southern Department.

It was announced at Southern Department headquarters yesterday that "flat-foot" would be one of the first things tackled by the noted surgeon. Hereafter flat feet will be no bar to enlistment or induction into the army as they will be corrected or shoes will be built for them that will make them comfortable and enable the soldier suffering with them to be useful in the line.

Until the plan for orthopedic treatment of soldiers has been thoroughly worked out. Captain Cook will spend part of his time at the base hospital and part in connection with the shoe repair shop which recently was transferred from under the direct supervision of the quartermaster general to the supervision of the quartermaster of the Southern Department, Colonel Daniel McCarthy. Hereafter when a man wants a pair of shoes he will be fitted scientifically and when he wants a pair of shoes mended they will be repaired to fit his feet. In that way his feet will be better fitted for service and the shoes will last longer. When it is considered that thousands of men each month have foot trouble or need shoes repaired a great saving will be made.

Under Captain Cook's supervision the feet of twenty-six post officers were measured for shoes yesterday and orders taken for others. The surgeon was sent to San Antonio by Colonel Brockett, director of the Department of Military Orthopedics at Washington. The work of mending shell-torn bodies will be done not so much with the idea of fitting the men for service again, although that will be accomplished, but with a view to returning the men to civil life again after the war is over as good as they were when they enlisted.

The Litchfield Enquirer says: "Mr. and Mrs. Joseph Merriman, only 82 years young, celebrated their sixty-first wedding anniversary by visiting Mr. and Mrs. Frank G. Hart in West Avon last week. They attended the state fair at Charter Oak park, taking in the midway and all the exhibits, and "Uncle Joe" especially the horse racing. Former State Treasurer Roberts Celebrate Event in Church and Temple

Canaan, September 5—Mrs. Edward S. Roberts and their golden wedding Tuesday, in the old East Canaan, which was at the beginning of housekeeping after his return from War, where he served Mr. Roberts married Briggs. The ceremony took place in the few homes of East Canaan.

Mr. and Mrs. Innis G. Osborn, son of Colonel Norris G. Osborn, editor of the New Haven Journal-Courier, has entered the New York theatrical field. Gilbert of No. 99 Cleveland avenue, this city.

A marriage which came as a surprise to many people and was unexpected by immediate relatives of the bride and bridegroom, was that of Miss Regina E. Gilbert of this city, daughter of Mrs. Lydia M. Gilbert of No. 39 Cleveland avenue, this city, and the late John Gilbert, and Innis G. Osborn of New Haven, son of Colonel Norris G. Osborn, editor of the New Haven Journal-Courier, and Mrs. Osborn, whose home in that city is at No. 238 Bradley street which took place Sunday evening at the home of the Rev. Dr. Arthur H. Goodenough, a Methodist minister, in New Haven. The ceremony was witnessed only by Mr. and Mrs. Tyler H. Bliss of this city who acted as attendants.

The bride is a Roman Catholic, and has been engaged as bookkeeper at the office of the Plimpton Manufacturing company.

The bridgegroom, who is Andromachus, is the eldest son of Colonel Osborn, widely known as a newspaper man. Young Mr. Osborn attended Yale university, and afterward went into newspaper work being connected with the New York Herald, the New Haven Journal-Courier, and the New Haven Register. He was at one time in the employ of the Southern New England Telephone company, and edited the Telephone Bulletin. His family is one of the most prominent, socially, in New Haven, and he is one of five children of Colonel Innis G. Osborn, who was formerly Miss Minott A. Gardner and Katherine Osborn, and Mrs. E. M. Bristol, of New York, who was formerly Miss Irene Osborn.

The marriage of his brother, Gardner Osborn, and Miss Margaret Robinson, daughter of Mrs. Leon W. Robinson of New Haven, which took place last October, was one of the most important society events of the season in that city. Colonel Osborn is a member of the Sons of the American Revolution and of the Founders and Patriots of America. He is president of the board of directors of the Connecticut state prison and a member of the board of parole in the state prison.

The family are friends in Hartford.

Ralph C. Bulkley, Formerly of Hartford, Writes to Friend.

A basket letter has been received by a friend in this city from a well known former Hartford man, Ralph C. Bulkley, son of Mr. and Mrs. Clarendon C. Bulkley, of No. 72 Deerfield avenue. Mr. Bulkley, who was formerly in the automobile business in this city and in Detroit, enlisted August 14 in Troop B, First Michigan Cavalry, now in camp at Grayling, Mich.

"Rather than get caught in the draft, I beat them to it," he writes. "The whole command left Detroit the following night. I really didn't want to pass the physical test."

Although Springfield and the Connecticut valley knew it not, last week they witnessed the passing of a national celebrity. When the government inspectors for the duration of the war, if not forever, sealed up the century old Agawan distillery, they witnessed the passing of a national celebrity.

"This Pepper had advertised that the discovery of good old pioneers and m.n's water-colored "sperits" at his plant was dated sometime in the spring of 1781. Atkinson saw it, and in oneurning monosyllable vowed he would teach one citizen of the crude new west his place."

He knew what he was after, and he past twenty-five years when the profits on it began to fade.

New Pilot for Club Rarely Keeps
Team Personnel Unchanged

Getting results with what a retiring manager has left behind is far from an easy task. For this reason the average manager who steps into the boots of a retiring pilot sets about finding his own man and there are two instances of this kind in the National league to-day—the Cubs and the Reds.

When Fred Mitchell took hold of the reins at Chicago he said he believed he had the nucleus for a winner. He took a squad of some 40 players to the coast this spring and weeded out the ones who looked best, but for all of that the nucleus has not been prac-
tically all lined up before he became manager. That Mitchell will make a better showing with the Cubs than did his predecessor, Timmer, is the general belief, yet within a season or two the club he inherited this year will have passed, and none of the players will be holding down most of the regular positions. Mitchell had to take the Cubs on the road to the coast and remodel the team.

Jacobs Is Put Out Then Cincinnati

Cincinnati won a heavy hitting contest from Pittsburg at Cincinnati yesterday, 7 to 6. The score went into an early lead with Jacobs apparently holding Cincinnati well in hand, but after the first man up in the third inning, Jacobs passed the next batter and kicked himself out of the game. For this reason, the Sox take him out.

The White Sox had the opportunity to put the ball in the game, but they did not, and the Giants will wind up October 30th with New York and the American league season...
The whole command left Detroit the following night. I really didn't suppose we were going to have any physical examination because of my ankle, which was far from strong, when I was in Hartford last June. However, the M.D. after going over me pronounced me a perfect specimen and I am now learning to catch German bullets in my teeth. They sure have dragged us around out here, but it is great training and I can honestly say I never felt better in my life.

"Since arriving here I have appointed myself trooper commander and so am getting along first rate. One thing is certain I never knew what work was before. I think if I ever get out of here I ought to be a valuable man for someone. I can do a week's work in about two days. Graying is a small place and I have been into the village only once. We stay here another week I am going into Detroit and hear a few jazz bands. There are three Michigan regiments in the camp. Another rumor is that this troop will be sent to some remote station in the case, when I might have a chance to get to Mayor Haggarty's town.

"The past few days we have had a good practice and so far the Germans have nothing to fear on my account. Keep this secret, though. In my short time in the army I have learned that there are only three interesting calls—mess call, recall from drill and pay call. So far I haven't heard the last but it is due within a day or two. I am getting the large sum of thirty beans a month. I ought not to have enjoyed that expression 'beans' because I get about 1,000 of them a day. It seems to be their favorite food up here. But I am thriving, so why worry about it? I have got a job from which they can't fire me and am sure of three squares a day and I have a chance to show the enclosed snapshot to anybody in Hartford who doubts my being a regular major. Regards to all my friends in Hartford."

Pitche d by Schick and the H. P. Porter company of Agawam, had a manager at that time—and has him still, for that matter—one E. P. Atkinson, who knew a little bit about antiques himself. His services were sought by the old plant, which is known now in the liquor jobbing houses from Quebec to San Francisco.

About this "oldest in active service legend," there was some few years back a bitter controversy. Waged for the most part in the trade papers and conventions, it never attracted local notice, but it did not lack "pep" for this reason. The whole thing started as the result of the unestablished actions of H. Porter of Kentucky.

This Pepper, who by the way, lived in the famous blue grass region near Daniel Boone's old stamping ground of Lexington, and who derived of a family as old, as Kentucky antiquities go, as the Boones themselves, took it upon himself to advertise his own thriving whisky mill in the trade papers as "the oldest distillery in the United States."

Unfortunately for Pepper, the H. Porter company of Agawam had a manager at that time—and has him still, for that matter—without knowing it.

Westminster School will open Wednesday, September 24. There are to be several changes in the policy and management which will be announced later with the changes in faculty.

Miss Walker’s School for girls will open October 1, although the new pupils are not expected until October 3. It is hoped to have the Emily Cluett House, formerly “The Grange,” the property of Walter Phelps-Todd, recently presented to the school in memory of Emily Cluett of Troy, N. Y., who was a pupil at the school, ready for the seniors at the opening of school. As there are ninety-two pupils enrolled for the coming year, the school will need all available rooms. Dr. and Mrs. Joseph Bridge of this place are both to be members of the faculty this year. Dr. Bridge has been connected with the Westminster School for many years, but has done much tutoring in the Walker School ever since it was established. Another addition to the faculty will be Miss Leontine Dickenson of Wentworth, daughter of Mr. and Mrs. E. M. Dickenson of that place, who was recently graduated from the Boston School of Electricity.

\textbf{THE SEPTEMBER FROST.}

It will be forgotten within a few years but, notwithstanding that, the first frost of last week was in its way almost as surprising as the September gale of a little more than a century ago. For that matter it may have caused as much damage. There have been frosts in Connecticut before as clearly as that of last Tuesday, but it is doubtful if any one now living can recall one of equal severity as literally in the month. So it was a shabby trick on the part of nature to send the frost this year well in view of the lateness of the spring for it caught most farm crops before they had reached maturity and the damage was therefore much greater than it would have been in a normal season, if there is such a thing as a normal season. It was as mysterious in its work as a hail storm and,ytut again, it is generally assumed that its actions are not damnable. Eraged by frost when those inland are hard hit, but in this case the shore towns from New Haven east suffered more than those between Saybrook and Hartford.

Washington, Sept. 11.—The present cold snap, extending from the Mississippi River eastward to the Atlantic coast and south as far as Virginia, is expected to moderate by Wednesday when the weather bureau predicts a general rise in temperatures will be felt.

There were general frosts this morning from the upper Mississippi Valley eastward to the New England states and as far south as the District of Columbia and northern Virginia.

\textbf{Killing Frosts in North New England.}

Boston, Sept. 11.—A killing frost at Concord, N. H., was reported by the weather bureau here today along with advice which showed that the cold weather last night extended throughout New England. Lowest temperatures were recorded in sections remote from the coast. The mercury dropped to 30 degrees at Concord, the minimum was 26 at Northfield, Ind., where frost was heavy, and while points in western Massachusetts make no official reports to the local bureau, the forecaster said that unusual frosts for the first half of September probably were reached.

\textbf{Connecticut Valley Suffers.}

Springfield, Mass., Sept. 11.—Uncut tobacco in the Connecticut Valley suffered severely by this morning's frost, though detailed figures are still lacking. Though the bulk of the unprotected leaf has been cut, considerable remains in the fields. The Cuba-Connecticut Tobacco Company said to be the largest growers in this state, with 300 acres under cultivation, lost nothing, as all but thirteen acres which had been cut had made grown and therefore protected.

Heavy losses are reported from the Westfield-Southwick district and as far north as Sunderland. Temperatures as low as 32 degrees were reported here. Ice in Poughkeepsie, N. Y.

LANDS IN POORHOUSE

Father of Invention in Which Mark Twain Lost Large Amount.

$200,000 in Good Hartford Gold Expended for One Typesetting Machine, a Commercial Failure.

Mark Twain Put $100,000 Into Venture—Samuel E. Elmore Only Living Director of Company Which Spent a Quarter Million 40 Years Ago.

About $200,000 in Hartford money was sunk in a typesetting machine back in the early seventies and probably the heaviest loser in this venture was "Mark Twain," the late Samuel L. Clemens, who saw great possibilities in the Paige machine which was promoted in this city by the Farnham Typesetting company. Samuel E. Elmore of No. 98 Farmington avenue, formerly president of the Connecticut River Banking company, says he believes he is the only director of the defunct company now living.

According to Mr. Elmore, interest in Hartford in the manufacture of a typesetting machine was stimulated by an invention of J. H. Most, a piano manufacturer who had a shop on Main street, "below the little bridge." Most contrived a machine which sought out type and disposed of it down to their proper place in channels, somewhat similar to the way in which the Mergenthaler of today releases its matrices. The invention of Most worked well, very well. It is said, and the Farnham Typesetter company was organized with a capital of about $100,000. Mr. Elmore was one of the original stockholders, and has his stock certificates yet.

The principal managers of the company, 1872 to 1874, were Dr. George B. Hawley, one of the founders of the Hartford hospital, and Stiles E. Sperry, then treasurer of the State Savings bank. After testing out the possibilities of the Most machine these gentlemen got in touch with Inventor Paige who already had a machine, which at the present day is on exhibition at Columbia institute, New York. They wanted Paige to combine the elements of the two machines, and he came to Hartford and worked up a combination machine. It was a wonderful invention, Mr. Elmore says, and worked nicely. Mark Twain became interested in it and invested all the money he could spare.

Two or three times it seemed as though the inventor had the machine on, a commercial basis, but each time some new device would appear necessary and improvements were continually added. Finally, one machine was completed at the on exhibition on the new piece of equipment. It could have been sold at a big profit to the Farnham company.

Among the Farnham company's men was the former Willard of the Paige company, who was sunk in a typesetting machine late Samuel L. Clemens, who saw the wonderful piece of equipment. It was said to have been lost in a fire.

Mark Twain, who at that time was president of the Connecticut River Fire Insurance company, had an interest in the Farnham Typesetter company, which had been increased to about $150,000. In fact Clemens was so sanguine of the success of the machine that he invested all the money he could spare.

An early attempt to make a machine for setting up ordinary foundry type was patented in England by Dr. William Church, in 1822. Then came one machine after another up to 1871, including the Fraser, the Hattersley and the Empire, the latter also known as the Mergenthaler. The Thorne did not come in until 1875. One of the Empire machines, which was the type by a system of niches and distributed to the ordinary type case, was in use in a job printing shop in Raleigh, N. C., as late as 1901.

Speaking of the Paige machines the Encyclopedia Britannica says:

"The Paige composing, justifying and distributing machine—an American invention—is one of the most remarkable pieces of mechanism ever put together. It contains 18,000 parts, but the patent specifications form an imposing volume. It is operated by keys in the ordinary way, but automatic mechanisms advance the ejector bars and spaces them and inserts the lines in the galley with leads if desired; at the same time other mechanism is automatic to substitute the dead matter and refills the tubes which contain the supplies of type.

"Two machines were made and are said to have done good work, but the cost of construction and the complicated nature of the mechanism made the apparatus impracticable commercially, and the two that were made are now on view as mechanical curiosities, that is to say, in the Columbia institution and another in Cornell university. The Paige machine dispensed with the guide plate of the Delambre, the letters being ejected on a plane along which a driver passed at intervals, and swept the type into a receiving case on the left of the machine. The Dow machine, a later American invention, adopts this characteristic of the Paige."
Dr. Sydney Vernon Kibby of West Hartford, a physician and neurologist, was senior in the medical service and one of the leaders of the insular group. He was psychiatrist and neurologist in the department hospital, corner of the Calle Areceros and Calle Conceptacion. He was appointed as chief of that service.

While in Manila Lieutenant Kibby met Miss Gertrude Hoffman, the Red Cross nurse from Hartford and of Russian birth. During his work there in the island the city had the most serious epidemic of cholera it had experienced in ten years. It also had the most extraordinary rainfall in a number of seasons. In five days almost as much rain fell as Hartford sees in a year. In the year 2261 inches of rain fell and at times the Pasig River flowed up into the Escolta.

Lieutenant Kibby attended the reception given by Governor-General Burton Harrison and his 19-year-old bride, who was Miss Elizabeth Westmoreland from Professor W. L. Westmoreland of the University of the Philippines. He met Manuel Quezon, speaker of the House of Representatives, and President Manuel Ponce of the Senate. Lieutenant Kibby says that the question of independence is a live matter among Filipinos and that he is of the opinion that the people are not yet ready for it.

September 8 Lieutenant Kibby sailed from Manila on the army transport Thomas and on the way to San Francisco the ship touched at Guam and Honolulu. The officer saw in Guam a place little visited even by world travelers in search of out of the way nooks. He tells that the island
