# COL. J. H. PARKER COMMANDS 102D

## Machine Gun Expert and Officer of Distinction in

That Colonel John Henry Parker of the United States regulars has been put in command of the 102d Regiment, Major George J. Rau is acting lieutenant colonel, and Captains Clarence M. Thompson, Harry Bissell and Captain Freeland, formerly of New Haven, are acting battalion commanders in the regiment. The story told in letters from France. From another source it is learned that Colonel Parker assumed command on January 17, and that Colonel Ernest L. Isbell has been transferred to one of the base hospitals in an administrative capacity; Lieutenant Colonel Edwin E. Lamb is divisional provost marshal; and Major William F. Alcorn is on detached duty.

Colonel Parker has been a conspicuous figure in the United States army, and is regarded as an expert in machine gun organization and work. He is a native of Tipton, Mo., and was graduated from West Point in 1892, being commissioned second lieutenant. On April 29, 1898, he was promoted to first lieutenant, and was a major in the Fortieth and Thirty-ninth volunteer infantry from 1899 to 1901. He then rejoined the regular army with the rank of captain, and in 1914 became major of the Twenty-fourth Infantry. The latest army register states his rank as colonel in the national army, and lieutenant colonel in the regulars.

He distinguished himself in the Spanish war by organizing and commanding the first machine gun company in the United States army, and had a part in the machine gun fighting around Santiago. In 1903 he organized the first machine gun battalion of the army, which was made permanent by an order from the war department. He is the author of several standard works on machine gun work, including "Gatlings at Santiago," "Tactical Uses and Organization of Machine Guns in the Field," and "Trained Citizen Soldiers." He was the author of a plan for promotion by selection from a distinguished service list, instead of the old plan of lineal promotions.

Letters received indicate that the men of the 102d are well pleased with their new commander, and one of them said:—

"It was an inspiring and solemn moment when he took his oath before the entire regiment. He said, 'No life shall be lost from my failure to do my duty, and all I ask of you is that you men do your best.'"

Colonel Parker was spoken of as general Pershing's right-hand man during the Mexican campaign of 1916.

At the adjutant general's office yesterday it was stated that Colonel Parker is not known here, as his gains have never brought him to part of the country.

### THE NEW COLONEL.

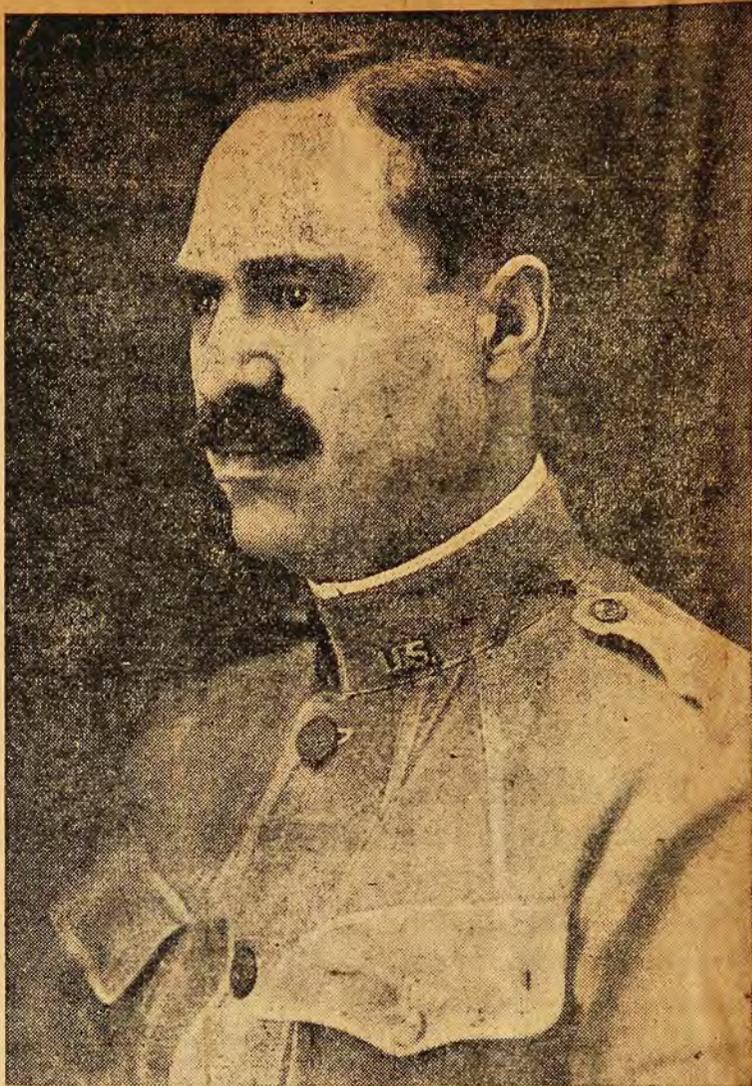

The news that Colonel J. H. Parker has succeeded Colonel Ernest L. Isbell in command of the 102nd Regiment is not as yet so full as to leave no room for further detail. The public has been told, what some of it has known for two weeks or so, that Colonel Isbell has been assigned to administrative work in a base hospital which employment is as lacking in thrills and danger as knitting a sweater. Why the order was given has not been told.

There are two possibilities, one being that the change was made by way of punishing Colonel Isbell for sending the message to Governor Holcomb last fall announcing the arrival of the regiment in Europe. At that time officials of the war department regarded this act with horror and, for aught Connecticut knows, they have not recovered from the shock. Another reason which may be suggested is that a commanding officer from the regular army was appointed to put an end to any vestige of friction which may have existed between the officers and men of what was once the First and the Second regiments of the Connecticut National Guard. This would have disappeared in any event, as soon as the men went into action, but if it ever existed, the change now announced should put an end to it.

*March 9.*

When Hartford folk now-a-days ask one another where, when and how Colonel John M. Parker, commanding the 102d United States infantry in France, got his sobriquet of "Machine Gun," the usual reply is "Oh, he got it at Santiago." This much the newspapers have told, but that to describe the history of that nickname is to describe some of the most thrilling phases of the battle of San Juan hill and of the whole siege of Santiago is not generally realized. It isn't realized either by those old enough to have been students of the movements of General Shafter's army just twenty years ago the coming spring and summer or by the young soldiers who are daily expectant of orders to join their Connecticut comrades already facing the breath of war under Colonel Parker's command in France — soldiers many of whom were, in 1898, were chubby youngsters just

## COLONEL PARKER RETIRES

"Gatling Gun Parker" Was First Machine Gun Officer in U. S. Army—Won D. S. C. and D. S. M.—Commanded 102d Infantry of 26th Division

MARCH 5, 1924

"Gatling Gun Parker," the first machine-gun officer in the United States Army, veteran of thirty-five years' service, former commander of the 102d (Connecticut) Infantry of the Yankee Division, and the winner of the D. S. C. and the D. S. M., has been retired from the United States Army at his own request. Colonel Parker has purchased a ranch up in the mountains in northern California and intends to live there.

Colonel John H. Parker was born in Missouri in 1866, was graduated from West Point in 1892, and went to the Spanish War with the gatling gun detachment of the 5th Army corps. During the Spanish campaign he acquired the name which has stuck to him. He is sometimes called "Machine Gun Parker" although "Gatling Gun Parker" is the original and more popular name. He later organized the first provisional machine gun company in the U. S. M. A., with instructions to write the drill. He was awarded the gold medal of the Military Service Institution of the United States, 1911, was in command of the train guards of the punitive expedition into Mexico, 1916, and in 1917 was assigned to the staff of General Pershing and went with him to England to obtain information regarding English and French machine guns. Colonel Parker was in command of the 362d Infantry in the Argonne offensive and was severely wounded. He was awarded three wound chevrons for gas injuries, for machine gun wound in left arm and for shrapnel wounds in both legs. Colonel Parker was made an officer of the Legion of Honor (French) for gallantry in battle and was also awarded the Croix de Guerre for bravery.

Colonel Parker was cited for bravery at Selcheprey, was awarded a bronze oak leaf for bravery at Trugny, a second for heroism at La Fere Wood between Beuvarde and Le Charmel and a third for extraordinary heroism at Gesnes, where he led his men in person and continued in command five hours after being seriously wounded. The Distinguished Service Cross was awarded Colonel Parker by General Pershing on Oct. 24, 1918, and the D. S. M. was later awarded him for his services at the machine gun school at Langres, France.

Washington, March 26.

The men of the 102nd Regiment adore "Machine Gun" Parker, as they proudly call Colonel John H. Parker, colonel of the Connecticut regiment now somewhere "Over There." He keeps in close touch with them; he talks to them right down on the level; he heartens them or holds them in check, as needs be. "Believe me, our new colonel is some Colonel!" says the sergeant, and the "Colonel's Lady," who, during his absence is living in Washington, has just had a letter from the Colonel in which he plainly shows that he thinks he's got "some regiment" as well. Colonel Parker's letter was dated March 2 and in it he speaks with the highest praise of the splendid work and spirit of the regiment. He tells how one of the officers has been commended for citation in orders of "Corps d'Armes" and another has been commended by the French commander, and adds that all was well with the regiment on that date, but reveals no names nor forbidden details.

It's not a new thing for the Parker family to have its men at the battle front or in camp. Three of them are now on the other side and a fourth is at Camp Meade. Col. Parker is in command of the 102nd; his

Hartford people to whom the name of "Machine Gun" Parker has become familiar through his being the commanding officer of the 102nd infantry last winter and spring, will be interested in the follow item in the current issue of the Army and Navy Journal:

Colonel John H. Parker, awarded the Distinguished Service Cross for acts of extraordinary heroism, in a letter to Mrs. Parker, who resides in Washington, written in a hospital at Bordeaux, says he is making a good recovery from a shattered left elbow, a shell wound in the thigh and a deep incision in the calf of the leg. From the letters I have come from it I can judge that his wishes will be gratified and the men are those of satisfaction. # 'Machine Gun' Parker Retires From U.S. Army

March 1924

Notorious Former Commander of 102nd Saw Noteworthy Service With Connecticut Men.

Colonel ("Machine Gun") John H. Parker, familiar to thousands of Connecticut men who served in the Twenty-first Division and especially so to the men of the 102d United States Infantry Regiment which he commanded while in France, has been in active service in the army for more than five years. At the request of Colonel Parker is stationed at Jefferson Barracks, Missouri and since the war he has been stationed at Jefferson Barracks, St. Louis, with the exception of a few months present at the local observatory at Seicheprey day. He has been in service in the army for more than five years. "Machine Gun" Parker commanded the Connecticut's Own regiment, from July 7, 1918, to August, 1918, and consequently he was in the regiment during the hot-tempered days it saw in France. Col. Parker received the D. S. C. three times at Seicheprey and twice at Chateau Thierry, and was cited for gallantry by General Pershing and General McDonaugh, commander of the Twenty-first division. He was the Croix de Guerre three times from the French government and an officer of the Legion of Honor on leaving the 102d he was D. S. M. by congress.

Colonel Douglas Potts first succeeded Parker at the head of the 102d, and Colonel Hiram Bearss later took command.

### Machine Gun Enthusiast.

The nickname "Machine Gun" has stuck to Colonel Parker since he was so dubbed by fellow officers in the Spanish-American war. He was sent to Cuba in charge of some machine guns, new and strange weapons in those days, and he became enthusiastic about them, talking and writing about their immense possibilities at every opportunity. Some officers who did not wholly agree with his views named him "Machine Gun" Parker. He experimented exhaustively with the new gun and wrote the first manual of machine gun organization, from which England, Germany, France, Japan and other countries have adopted their manuals.

Colonel Parker saw the 102d through its earliest training in France, through the stay in the trenches at Chemin des Dames, its fighting in the Toul sector, the terrific battle of Seicheprey, in which Connecticut men turned back Germany's best shock troops, and the Chateau Thierry campaign.

He was the guest at a dinner given by ex-service men in Hartford on the second anniversary of the Seicheprey fray and was principal speaker at the mass meeting which followed it at the state armory. In his writings and his speeches the colonel has always referred to the 102d regiment in terms of heartiest approval, speaking of it as "the cleanest bunch of men" he had ever commanded.

In 1922 Colonel Parker was a candidate for United States senator from Missouri, but he was defeated.

Colonel Isbell.

Colonel Isbell first enlisted as a private in Company F, Second Infantry, May 13, 1859. After his re-enlistment three years later he was commissioned second lieutenant in Company D, and became first lieutenant October 19, 1859. He was commissioned captain in 1901, became major in 1905, and colonel October 25, 1916. He was called into the federal service June 20, 1916, and saw service at the Mexican border. He was mustered out of the federal service on the return of the Connecticut troops in November, 1916. Again entering the federal service with his regiment in 1917, he has been in active command since the issuance of the president's call. He was born in Bridgewater, October 6, 1866. He makes his home in New Haven, at No. 399 Whaley avenue.

# ISBELL CHIEF OF AMERICAN POLICE IN SOUTHAMPTON?

Where is Colonel Ernest L. Isbell of New Haven, who recently retired from the command of the 102d Infantry—the old First and Second Connecticut National Guard regiments? "The Courant" recently published a report that he was in London on his way home, which was not credited by his family in New Haven. The "New Haven Register" now hears that the colonel is in England, being at the head of the American police of Southampton. As to the whereabouts of Colonel Isbell, the "Register" says:—

"Word has been received in New Haven, and it is believed to be authoritative, that Colonel Ernest L. Isbell, who commanded the 102d U. S. Infantry regiment, when it left this country for France, is now head of the American police in Southampton, England. There was much speculation concerning Colonel Isbell's duties when it was announced that he had been relieved of the command of the 102d and 'The Register' stated a few days ago that he was doing some special hospital duty in France, just what sort of work he was assigned to, 'The Register' being unable to find out.

"A letter received in New Haven a few days ago stated that Colonel Isbell had left France and has the important post of chief of the American police in Southampton. He doubtless has full charge of a large group of United States soldiers doing police duty.

"Captain Clarence Guinan, the letter also stated, is with Colonel Isbell, as he has been since the encampment of the old First and Second regiments started at Yale field. These two regiments were merged into the 102d U. S. Infantry regiment and Colonel Isbell was put in command."

## One Report Has New Haven Man at London, on Way Home from France.

Reports were in circulation yesterday that Colonel Ernest L. Isbell of the 102d Regiment, now in France, has reached London on his way home. The report was more definite than other reports that have circulated of his relation or lack of relation to his regiment. It is impossible to learn the exact situation regarding the command of the 102d Regiment of the national army, which was made up of the First and Second Regiments, Connecticut National Guard. It is certain that Colonel Isbell has not for some time been in command of the regiment, but who his successor is is a mystery.

Mrs. Isbell was asked last night if she had any information, and she said that Colonel Isbell had not been with his regiment as commander for some time, and has been engaged in a very different kind of work, but of more than this she said she was ignorant.

She received a letter yesterday without date or postmark, but it was of personal and family matters. When told of the report that Colonel Isbell was on his way home, she expressed incredulity and laughed. She said it seemed absurd to her. She did not believe there was any truth in the story and, while she was not prepared to say where Colonel Isbell is, she said emphatically that she believed he was engaged in the work to which he was assigned when he left his command.

From another source, which is believed to be authentic, comes the statement that the present commander of the 102d Regiment, who succeeded Colonel Isbell, is a regular army officer and that Major George J. Kau of this city is acting as lieutenant colonel of the regiment, in place of Lieutenant Colonel E. E. Lamb of Hartford who, as told recently in "The Courant," has been made an assistant provost marshal. It is understood that the promotion of Major Rau to lieutenant colonel will soon come.

FEBRUARY 20, 1918.**

Miss Ida F. Butler, who, as chair- man of the local Red Cross commit- tee on enrolling nurses for Red Cross work, has been achieving a complete success, bade goodby to nurses and other friends at a meeting held in the chapel of the Old People's Home last evening. Nurses from the Hartford Hospital and St. Francis's Hospital and others were present to the number of nearly 175, and with friends, occupied all the seats and overflowed into the hall.

Miss Butler reviewed the work of the committee and spoke with feel- ing and devotion of the value of this and of the experience before her in France, for which she is to sail in a not distant future. She was sum- moned by wire a short time ago for such duty and accepted by wire.

Mrs. George Keller told of the be- ginnings of the work by the Hart- ford Chapter of the American Red Cross, telling of the time when only a bolt of gauze was drawn a month and of the spread into the present magnitude and the location in the Garvan house on Farmington ave- nue.

Rev. John G. Murray, chancellor of the Roman Catholic Diocese, laid emphasis on the value and place of the work to be done here at home, before a start for France. He lik- ened a cantonment to a city of 25,000 or 30,000 inhabitants and told of the homesickness of the boys and their liability to disease and sickness and dwelt on the fact that there was a great deal of work to be done for the soldiers before they started for lines abroad.

Mrs. Burnet Smith of Hertford, Eng., gave a talk in line with her discourse on "The Mobilization of Women" given in the Center Church House in the late afternoon. She told about women as munition work- ers and in rialroad stations and on motor busses and trams in Eng- lish cities.

# Miss Madeline Grace King Bride of Winfred Lock- row of Meriden.

Thompsonville, February 23.

One of the largest weddings of the season in this vicinity took place this afternoon at 3 o'clock in the First Presbyterian church, when Miss Madeline Grace King, daughter of Mr. and Mrs. Lewis W. King, became the bride of Winfred Hall Lockrow, son of Mr. and Mrs. George Lockrow of Hanover street, Meriden. The ceremony was performed by the pastor, the Rev. Francis W. Dell, and was witnessed by a large gathering of relatives and friends of the young couple, more than one hundred invitations having been issued.

The bride was attended by Miss Grace Guyett of Springfield, Mass., as maid of honor, and the best man was Floyd Hunt of Meriden. The only other attendant was the flower girl, Miss Elizabeth Brooks Venter, little daughter of Mrs. Earle Venter of Meriden, and a cousin of the bridegroom. The ushers were Irving H. Schlessinger and Ralph Booth of Hartford and Herbert Taylor of Springfield.

The ceremony was marked by simplicity. The bridal party entered the church as the march from "Lohengrin" was played by the organist, Denslow King, the procession being led by Miss Guyett, followed by the flower girl who strewed petals from a basket of roses in the path of the bride, who leaned on the arm of her father.

At the pulpit, on which was a large vase of daffodils, the bridal party was met by the bridegroom and his attendant. During the ceremony, the double ring service was used. "The Evening Star" from "Tannhauser" was played by Mr. King, during the ceremony and immediately following "Oh Perfect Love," the music for which was composed by Mr. King was sung by Miss Ruth Kingsbury of Enfield street. For the recessional the Mendelssohn march was used.

The bride wore a gown of ivory satin, with trimmings of silver lace, cut en train. Her full-length tulle veil was caught up with lilies of the valley, and was attached to the end of the train with a large bow, entwined with the same flowers. She carried a shower bouquet of lilies of the valley, white orchids and roses.

The maid of honor wore lemon chiffon over satin, and had a picture hat of robin's-egg-blue crepe de chine. Her bouquet was of delicately tinted roses. The flower girl was dressed in white embroidered voile.

Following the church service, a reception was held at the home of

the bride. The bride and groom were seated at the head of the table. The bride's father, Mr. Lewis W. King, gave the toast. The bride and groom were the guests of honor. The bride's father, Mr. Lewis W. King, gave the toast. The bride and groom were the guests of honor.

# CAPT. HENKES GETS 25 YEARS IN PRISON

New York, Feb. 24.—Captain David A. Henkes, Sixteenth Infantry U. S. A., has been sentenced to dismissal from the service and confinement at hard labor for twenty-five years by a general courtmartial held at Governors Island. Evidence was produced showing that he had been in communication with Count von Bernstorff and had been an active German propagandist.

Henkes, who is of German descent, endeavor to resign his commission saying he did not care to fight against relatives and friends. He was brought back from France for trial and the evidence against him was uncovered on his return here.

Captain Henkes, who was stationed at San Antonio, Tex., last May, wrote the secretary of war, urging him to accept the resignation, which he had already submitted and giving reasons which, he declared, would no longer allow him to serve as an officer of the American army.

"Further service as a commissioned officer must sooner or later take me to Europe, and there bring me in conflict with my relatives and friends, although for the time being my legal enemies," Capt. Henkes wrote. "My father came from Germany. My mother was born here shortly after the arrival of her parents. We have many other relatives and friends there.

"I cannot force myself to the conviction that I am capable of making war on my kindred upon their soil in a manner that would become my duty and station. I earnestly request that I may not be required to undergo this ordeal. I seriously doubt my ability to withstand it, and would avoid, in the interest of my country, family and friends, what at least appears the probable consequences."

The captain suggested as an alternate that he be given service in some other field, although he expressed the belief that the best course would be the immediate acceptance of his resignation.

Soon after he had submitted his resignation Capt. Henkes was ordered to France with the American expeditionary forces, and from his quarters there, on June 29, 1917, wrote to the adjutant general in Washington, calling attention to the fact that he had resigned, and declaring that his battalion commander, the department quartermaster and the commanding officer of the southern department, had approved his action. In this letter he repeated the reason given to the secretary of war for desiring to quit the service.

Again on October 10, while still on duty in France, Capt. Henkes wrote another letter to the adjutant general in which he urged acceptance of his resignation, and said he did not find occasion to add to or alter the views he had already expressed. "The underlying facts are unalterable," he declared.

The government, which is co-relating the construction of fitting-out piers to the launching program, has a progress plan just as definite for co-relating yard construction to the steel arrivals. They were married in 1920.  
 Anastasia was Miss Nannie Edw. Leeds, daughter of a wealthy manufacturer, and first married George H. Leeds, of Cleveland, whom she married three days after the death of her first husband. He died in 1900. Eight years later she married Leeds, Jr., who in 1921 married Grand Duchess Marie of Russia, the niece of King Constantine. Anastasia was seriously ill as a result of an intestinal disorder, and underwent two major operations. She learned of her son's death three days after hearing the news, which she said broke her heart, and she died three days upon hearing the news. The negotiations for the match were based on the wealth and inexperience of the princess. However, she finally yielded to the persuasion and conceded to marry him, at the same time arranging for a large allowance from her own fortune to be paid to her son.

 An arrangement frequently was made that young Leeds was to receive the bulk of the estate in the world. Princess Anastasia declared these conjectures were unfounded and that his father's will provided that he receive only \$500,000 at the age of 35. The princess provided for her own will, which provided that her death her son was to receive the bulk of the trust fund created for her by her father, Mr. Leeds, but he would not touch the principal. If her wife should die, she declared the entire Leeds fortune would be placed in a trust fund for the benefit of her offspring as a trust fund, which would cease with the third generation. She said, however, that if she should die, the trust fund would pass to the children of New York.

The Greco-Turkish struggle of the past has been understood that Mrs. Leeds has more than a million dollars of fortune to finance the Greek relief work. She gave large sums to the various relief agencies for the Greek soldiers, and for the support of several hospital beds to the Greek soldiers.

## Will Little Boylston Girls Remain with Mother or Go Elsewhere?

## LONG LEGAL BATTLE ENDS AS DAY FADES

## Mother's Charges Against Father—Boylston's Alleged Vile Stories.

Taking of testimony in the probate court yesterday afternoon, Mrs. Boylston had neglected the children, that her father and she had outfitted them and that her father had advanced money. She swore that Mrs. Boylston was able physically, mentally and financially to care for the girls. She corroborated Mrs. Moore's testimony as to Boylston's vile stories. Cross examined, Mrs. Watts evaded an alleged trap when Mr. Hyde tried to induce her to say that she had objected to the marriage. She countered by saying that it was only lately that she had considered Boylston unfit.

### Grandfather on Stand.

In earlier testimony Rev. Charles W. Boylston of Riverside, father of the petitioner and grandfather of the children, white-haired and benevolent looking, told about the first appearance of Jean in the family, about their befriending the visitor and treating her as a member of the family. The girl was despondent, he said, and would remain for hours in her room. She was then, and always has been, extremely nervous. Since her marriage to Charles, she has frequently visited the place, has been nervous and has used violent language in addressing his son. At one time, before the removal to his wife's house in South Glastonbury, he had attacked her mother-in-law, had accused her husband and had come hysterical. She became weak and hysterical exhaustion. She had lost all self-control and would tell her husband: "You damn boob" and "you damn fool."

Mr. Boylston narrated the story of the mother's appearance in the use in Riverside, in November, and her declaration then that, by advice of her counsel, she had come to remain in the children. She arrived at home and little Catherine had not returned from the private school which she was attending. She had contrived to get the children away, taking Catherine without the leggings which the little girl needed. Shirley, the

# Mrs. Boylston Keeps Children; Husband's Petition Is Denied By Probate Court Judge Marvin.

## Father of Little Folks Had Insisted That Mother Was Not Fit Guardian for Them—Aged Grandfather Stricken by Apoplexy.

Mrs. Jean Boylston, wife of Clarence A. Boylston, piano salesman, may retain custody of her children, Shirley and Katherine. A decision to this effect was given by Judge L. P. Waldo Marvin in the probate court to-day. The court denied the petition of the husband to have his wife removed as guardian. The decision followed closely hearings held on two days before Judge Marvin last week, when domestic incidences which indicated strained relations between husband and wife were dwelt upon by witnesses on both sides.

Mr. Katherine, the youngest child, was in court, and Shirley, the older, it deal was explained, was in school, where she had been placed by the grandfather, the Rev. Charles W. Boylston, rector of a church at Riverside, this Mrs. did not like children in the rooming house.

### Two Physicians Testify.

Dr. Harry B. Rising of Glastonbury testified that in November he attended little Shirley, who had tonsillitis and laryngitis. The conditions in the house were bad. Dr. Harry C. Clifton said that he had treated Mrs. Boylston. He had not seen any great exhibition of nervousness. Mrs. Boylston had seemed confused at times. She had lapse of memory, would "gaze off into space" and find it hard to return to the subject of conversation.

Mr. Hyde completed his examination with the testimony of the doctors. Then Mr. Broder began his defense by calling to the stand Mrs. Elizabeth McLaughlin, of No. 104 Webster street, first in a string of neighbors of the Boylstons at a period when they were living at No. 108. Mrs. McLaughlin deposed that she never saw anything "out" about Mrs. Boylston, whom she considered to be a good housekeeper.

In like manner Sherman E. Pike of No. 110 was sure that Mrs. Boylston was good about the house. He had heard "small arguments," but no real screams. Both Boylstons were good tenants. Mr. Pike felt that Mrs. Boylston would be a good guardian for the children. He was formerly general watch at the Hartford Retreat and is now in a moving picture house.

state. He was formerly rector of St. James's church in South Glastonbury.

The Boylstons were married in 1904, and lived until October 7 of last year in Glastonbury.

It was described how the mother, accompanied by a friend, Mrs. Thomas P. Davis, of No. 381 Prospect avenue, this city, visited the grandfather's home last November and took away the children over the protest of the older folk. Mrs. Boylston is now stopping with friends on Evergreen street.

Alvan Waldo Hyde was counsel for the petitioner and Senator Edward W. Broder for the defendant.

The Rev. Mr. Boylston was stricken with apoplexy on his return to the rectory at Riverside, Saturday night, and his condition was to-day regarded as critical.

Mrs. Gilman, Mrs. Smith and Mr. Hills Joined South Church in 1858

Portraits of Former Pastors  
*March 3, 1918*

Members of the South Congregational church who attended morning services, Sunday were informed from the pulpit by the pastor, the Rev. Warren S. Archibald, that the day was the sixtieth anniversary of admission into the membership of the South Church of Mrs. Ellen H. Gilman of No. 149 Lafayette street, George F. Hills of No. 50 Gillett street and Mrs. Charles H. Smith of No. 593 Farmington avenue. Mr. Archibald said that in recognition of the anniversary Mrs. Gilman, Mr. Hills and Mrs. Smith had given to the church large framed portraits of the Rev. Dr. Edward Pond Parker, pastor Emeritus, and the Rev. Dr. Edward Clark Dr. Parker's predecessor who was pastor from 1845 to 1859.

In accordance with the wishes of the donors there was no formal presentation of the portraits. They were hung in the chapel and many of the congregation viewed them after service.

Miss Elinor Clark, daughter of Judge and Mrs. Walter H. Clark of

No. 60 Washington street and granddaughter of Mrs. Gilman, became a member of the church on her grandmother's sixtieth anniversary of membership. Others who united with the church on confession of faith were George Brown, No. 37 Preston street; Lena J. Fuller and Ada L. Fuller, No. 163 Franklin avenue; Dorothy E. Griswold, No. 53 Shultas place; Francis L. Griswold, No. 53 Charter Oak avenue; Flora M. Harris and George Harris, No. 229 Main street; Chandler B. Johnson, No. 44 Preston street; Allen R. Nielsen, Helen M. Nielsen and Henry Nielsen, No. 29 Preston street; Helen M. Peterson, No. 130 Brown street; Dorothy M. Southland, No. 343 Wethersfield avenue; Clarence E. Wilson, No. 114 Adelaide street.

By letter: Miss Sarah Ball, No. 288 Washington street; Mr. and Mrs. George Harris, No. 229 Main street; Charles D. Fowler, No. 274 Wethersfield avenue; Miss Euphemia Davidson.

After the communion service last Sunday morning, many of the congregation viewed these likenesses with approbation. Few remain who remember Dr. Clarke, but the other picture is of one who is known to everybody in Hartford and in Connecticut and is still happily a part of the daily life of the city.

Yale men will be interested in the news that Julian Day of the class of 1901, who as captain of the 9th company, imperial camel corps, British Egyptian expeditionary forces, recently took part in the capture of Jerusalem, has been awarded the British military cross. He has also been promoted to major. His brother is George Farnly Day, the Yale treasurer. Maj Day's ancestors occupied the old Day house in West Springfield.

## SAYS U. S. WILL BRING VICTORY

### Archbishop York, in New Haven Address, Praises America's Purpose.

New Haven, March 13.—"Your men will bring us victory," said the Right Rev. Cosmo Gordon Lang, archbishop of York and primate of England in Woolsey Hall tonight in a speech before clergymen, city officials and war bodies. He said, in part:—

"Your immense resources and your tenacity of purpose are what we of the Old World need to give us the right as free men to live in peace and contentment and strengthen the brotherhood of man. England welcomes you into this war of freedom."

The archbishop is visiting this country as the guest of the war commission of the Protestant Episcopal Church and his visit is of a civic character rather than of an ecclesiastical nature.

Dr. Lang was met at the station by President Arthur T. Hadley of Yale and a committee. He visited the university and later dined with President and Mrs. Hadley. At the evening meeting many of the best known clergymen in the state, headed by Rt. Rev. Bishop Brewster, pastors of the city churches, Mayor Fitzgerald and city officials and many citizens were seated upon the platform.

Dr. Lang, who comes here from Boston, is accompanied by his chaplain, Dr. Iremonger.

Lieut. Earle Stanley Bidwell.

Clyde C. Bidwell.

Clyde C. Bidwell, son of Mr. and Mrs. Frank W. Bidwell of No. 175 Beacon street has enrolled in the aviation section of the United States Naval Reserves, having passed the physical examinations at New Haven. He is the third son of Mr. and Mrs. Bidwell to enter the service of the country, his two brothers holding commissions in the army. Clyde Bidwell was born in Hartford October 27, 1907, and after completing his studies at the Noah Webster School attended the Hartford Public High School and was

graduated in 1916, entering Dartmouth University that fall. His brother, Harold F. Bidwell attended the Plattsburg, N. Y., training school for officers and was commissioned first lieutenant last August. He is now in France and is attached to the United States Marine Corps.

Earle S. Bidwell also received a commission last August, being rated second lieutenant at Fort Oglethorpe, Georgia, at the officers' training school and is now in the field artillery at Camp Sevier, Greenville, S. C. He also was graduated from the Hartford Public High School and from Dartmouth, following which he

was identified with the Aetna Life Insurance Company as auditor, and was with that company at the Nashville office when he entered the training camp in 1916. While in Hartford he was a member of Troop B, Cavalry. Lieutenant Bidwell was married to Miss Hallie Twombly, daughter of Mr. and Mrs. Frederick Beetson of New York, at Cincinnati, O., shortly after he received his commission.

Lieutenant Harold F. Bidwell was graduated from the Hartford Public High School in the class of 1913, and after completing his four-year course at Dartmouth went to Plattsburg.

He was shot through the thigh and his machine disabled in a fight with three German planes on March 6, last, and was forced to descend within the enemy lines.

**Bridge County.**

Bugler Joe Bidwell of the U. S. S. Bridge returned to his home in East Hartford yesterday, having received an honorable discharge from the navy, which he entered February 24, 1918.

Joe was 15 years old at the time he enlisted, an age which seemed premature to his mother, Mrs. Daniel Bidwell, and which was under the government age limit. He is believed to be the youngest war sailor from Hartford county.

When Joe enlisted he was in the employ of the Travelers Ins. Co. and when President Louis F. Butler learned of his enlistment he wrote an approbatory letter to the lad's father. Before entering the navy Joe was an orderly of General L. F. Burpee and later of Commander Francis R. Cooley of the river patrol.

Miss Marie Converse to Become the Bride of Lieutenant George Anson McCook, U. S. A., at Ceremony at Emmanuel Church.

A notable wedding in the Lenten season, and of widespread interest, is that of Miss Marie Converse and Lieutenant George Anson McCook, U. S. A., who are to be married on Thursday, at noon, in the chancel of Emmanuel Church in Newbury street. Although it signalizes the union of two families who are prominent socially, the number present to witness the ceremony will be comparatively small and will be confined to the members of the families, relatives and a few intimate friends. The bridegroom's father, General Anson J. McCook, U. S. A., died about two months ago and because of this bereavement the wedding has been planned on simple lines.

Miss Converse, who is a member of the 1916 Sewing Circle, and of the Vincent Club, is one of several daughters of Mr. and Mrs. Frederick S. Converse, who make their home the major part of the year at their country place in Westwood, having also a town house in Lime street. There are two married daughters, Mrs. Morgan and Mrs. McElwain, and other daughters are the Misses Virginia and Elizabeth Converse. A young brother is Master Edmund Converse, 2d. Mrs. Converse was formerly Miss Emma Tudor.

Lieutenant McCook is the only son of Mrs. Anson McCook and the late General McCook of New York city. He was graduated from Harvard in 1916 and afterward Lieutenant McCook, who is an American Border. Last the son of Mrs. Anson G. McCook, his commission as and the late General McCook. He has since been nephew of Rev. Dr. John J. McCook, Yaphank, L. I. of Trinity College. He was graduated from Harvard University in 1916 and served with the National Guard at the Mexican border the same year. He is stationed at Camp Upton, Yaphank, Long Island. Mrs. McCook is the sister of Mrs. Junius Spencer Morgan, jr., of New York. Only the immediate relatives and a few friends attended the ceremony.

Because so many of the bridegroom's friends are in active service and unable to be away from duty even for a brief absence, and also because the number at the wedding will be so small, there will be no ushers. Following the ceremony at the church, a small reception will be held at the Boston home of the bride's parents, in Lime street, where a wedding breakfast will be served.

Lieutenant McCook will take his bride to New York, where he will be able to join her, from time to time, as Camp Upton is so readily reached. In New York Mrs. McCook will be temporarily with her sister, Mrs. Morgan, who was formerly Miss Louise Converse, before her marriage to Junius Spencer Morgan, "Jr.," as he always is known, although he is a son of Mr. and Mrs. J. Pierpont Morgan.

John S. Garvan of Woodland street and Edward T. Canfield of

North Oxford street will be among the Hartford men who will attend the bachelor dinner for Ezekiel S. Bronson of New Haven this evening at Hotel Taft. Others attending the dinner are: John Brock of Philadelphia, a classmate of Mr. Bronson at Yale, class of 1900; Leslie Johnstone of Pittsburgh; George E. Elliott of Clinton; Walter Carter of New York and George Croney Kiefer, Henry B. H. Hurd, J. Frederick Baker, Dr. Leonard C. Sanford, Hayes Q. Trowbridge, Gourdin Y. Gaillard, Burnside Winslow, J. B. New Haven, August 31. The wedding of the youngest daughter of John Bennett Carrington, owner and publisher of the New Haven Journal-Courier, and Mrs. of friends Carrington will be married late this afternoon to Captain John McFerran Barr of Louisville, Ky. The ceremony is to be in Madison, the country home of the bride's family and will be attended by several hundred guests, many from New York and the south.

The ceremony is to be performed at the Madison Congregational church by the Rev. H. M. Miller, pastor of the church, the bride being given in marriage by her father. Following the church service there will be a reception at the Madison Country club.

The church is very attractively decorated with golden rod and barberry and the church organist, Mr. Crutten, will play the wedding music. The bride will be attended by her sister, Mrs. Ezekiel Stoddard Bronson of this city, as matrons of honor and four bridesmaids who included Mrs. Lawrence Newbold Murray of this city, Miss Dorothy Sargent, Miss Hilda Sargent of this city and Mrs. Robert Randolph of Baltimore, who is spending the summer in Madison. The best man is Harold Harvey of Princeton and the ushers include beside the bride's brother several brother officers of the bridegroom who came up with him for the wedding. A number of entertainments have been given for both the bride and bridegroom during the past week. On Saturday evening about forty friends of the bridegroom gave him a dinner at the Hotel Taft and on Monday evening a dinner was given at the New Haven Country club by Mrs. Burnside Winslow for the wedding party with a dance afterwards by Attorney William Brewster Ely. On Tuesday evening an informal dinner was given at the home of the bride's family.

## BRIDE OF A SOLDIER.

Miss Wohlforth's Journey to Eagle Pass, Texas, Crowned by Marriage to Lieutenant Haslam *March 7*

Word has been received in this city of the marriage of Miss Kathryn Wohlforth, of No. 55 Windsor avenue, and Lieutenant George Dwight Haslam, Third infantry, U. S. A., stationed at Eagle Pass, Texas, which occurred Thursday at San Antonio, that state.

Miss Wohlforth, who left Hartford Saturday, was the second Hartford young woman to go to Texas to be married. The bride was attended by Mrs. Frank West as matron of honor and Miss Norma Young as bridesmaid. Captain Frank West was best man, and the ushers were Lieutenant Hale, Jones, Smith and Wallace. The bride wore a gown of champagne colored Georgette crepe over silk of the same color, trimmed with beads and hand embroidery; a picture hat, the crown of leghorn and the brim made of Georgette crepe. She carried a shower bouquet of lilies of the valley and bridal roses.

The maid of honor wore a Nile green crepe de chine dress with a picture hat. The crown was made of green velvet leaves and the brim of pink chiffon. She carried pink roses. The bridesmaid wore a pink crepe de chine frock and a picture hat. The crown was of pink silk roses and the brim of Nile green chiffon. She carried pink roses. Following the ceremony a reception was held, after which a wedding breakfast was served.

Lieutenant Haslam has been in the regular army for the past fifteen years. Mrs. Haslam was an employee of G. H. & Co., previous to her marriage. The couple will live in Eagle Pass.

To the Editor of The Times:

Do any of your readers over Berlin way happen to know anything about the history of the fine old brick, gambrel-roofed house of the colonial period, which is located in the town of Kensington, a short distance from the Berlin railroad station on the east side of the tracks? The house can be seen quite plainly from the train just after passing the station when traveling towards New Haven.

It is a large, impressive-looking homestead and must have been built at least one hundred and seventy-five years ago at a time when brick houses were rarely built in Connecticut and then only by people of some means for only the wealthy could afford the luxury of brick in those days. The house resembles in general the old Robbins house at Rocky Hill, although its proportions differ. It appears to be one of the finest old brick houses in Connecticut of its period and looks as if it might have an interesting history. Can any of your readers enlighten me?

Perhaps some of your readers can also tell me something about a similar brick, gambrel-roofed house in Wethersfield, located at the corner of High street and the road that runs down to the steamboat landing. In colonial days, the place where it stands was on the edge of the town common. Henry Sherman Adams refers to this fine old brick mansion in his pamphlet on "Some Old Wethersfield Houses and Gardens," saying that it is known as the Samuel Woodhouse place and was built in 1785. This named given to it by Mr. Sherman evidently belonged to one of its later occupants and not to the builder. This house, too, must have an interesting history. Don't some of your readers know who built this house and what its history is?

The collections of records of old Connecticut homesteads, compiled by the Society of Colonial Dames, on file in the state library, have nothing about either of these houses. Such other sources as I have been able to consult have failed to disclose their past history. No doubt, through the courtesy of your columns, this deficiency can be supplied.

ANTIQUARIAN.

Hartford, March 7.

**That Old House in Berlin.**

To the Editor of The Times:

If Antiquarian will look on page 71 of the booklet entitled "Two Hundredth Anniversary Kensington Congregational Church," which he can probably find in the library of the Connecticut Historical society, he will find that the brick house below the Berlin station was built by the Rev. Samuel Clark, second pastor of the First church, Berlin. I quote from the book: "His house, still standing, a model of colonial elegance, with its wide hall through the middle and its spacious stairways, shows that he was a man of means, not dependent on pints and quarts of corn for his support. The bricks and hardware were imported from England, and it is said to have 'out-ranked in size and cost most country houses of the period.' It was built in 1759."

Insurance.

Silas H. Cornwell, vice-president of the Phoenix Mutual Life Insurance Company, celebrated yesterday his fiftieth anniversary with the Phoenix Mutual Life Insurance Company. He received many gifts and flowers. The flowers covered his desk and overflowed to shelves and other desks. There were telegrams and letters, but one of the things that made it look like a real old home week to Mr. Cornwell was a bunch of new business—more than \$1,500,000 of it, that was presented to Mr. Cornwell by Manager Clayton W. Welles of the Connecticut department. This was new business that managers of the several sections of Mr. Welles's territory had scraped together for a "golden wedding" gift to Mr. Cornwell.

Other gifts included a gold fountain pen from district managers; a basket of flowers three feet high from the employees of the home office; a basket of fifty pinks from Vice President Winslow Russell; a basket of deep red carnations from the St. Lou's office, fifty roses each from W. F. Hilton, formerly of the Phoenix Mutual, and Howard H. Keep, who had been associated with Mr. Cornwell nearly four years, and a silver vase filled with sweet peas from the auditing department.

Mr. Cornwell was born in Canaan Four Corners, N. Y., where he lived until he was a young man.

Madame Taufflieb's chateau was the first hospital for the Allies' wounded opened in France by an American so near the front. The then Mrs. Chauncey M. The "Star-Spangled Banner" was played just preceding the wedding march and all remained standing during the ceremony. The knot was tied by the Rev. Hugh MacCallum, pastor of the church. The maid of honor was Miss Catherine Forbes, a sister of the bride. The groom was attended by his brother, William McCollum, who is a member of the band at Camp Devens, and by Charles Rust of this place.

The bride was gowned in a dress of white net over china silk, she carried a bouquet of white bridal roses and wore a veil caught with orange blossoms. # CAPT. TED NAEDELE BACK ON PRESIDENT WILSON

### Was in the Only American Tank Unit to See Action —Well Known Athlete.

(Special to The Courant, 1919  
New York, March 14.

Among the score of wearers of the distinguished British Military Cross who arrived from France today on the President Wilson was Captain Ted C. Naedele of Hartford, of the 305th Brigade Tank Corps. He was attached to the 301st Battalion, the only American Tank Unit to see action. The 9th and 330th Battalions, which served as part of the brigade, were operators of light tanks, and their machines had not reached the front when the armistice was declared. The 301st Battalion of heavy tanks, however, saw plenty of fighting. Nearly half of the original personnel was killed in action. The battalion, with twenty-eight tanks, preceded the infantrymen of the Twenty-seventh Division in co-operation with British tanks in the Hindenburg line drive, when General O'Ryan's troops stopped rest after the La Selle river smash. The tanks pressed on and won added glory at the second battle of Le Trans, October 23, and Mormal Forest, November 4.

Of the original forty-eight tanks, only fourteen were in fighting condition when the war ended, others having been put out of action in the arduous work of smashing the Hindenburg line and in the succeeding weeks to take Cambrai and St. Quentin. Most of the casualties were caused by German mines, which destroyed tanks completely. The battalion met its last attempt of the enemy to use gas against the "Treat 'Em Rough" tanks.

The President Wilson, which was merely the liner Franz Joseph, was the first ship to arrive in this port of the interallied flag, three red, white and blue.

Captain Naedele, who returned to his country from France, is well known in athletic circles in this section. His home is at No. 13 Colum-

bia street, this city. He was commissioned a second lieutenant at Camp Devens in March, 1919. He was transferred from the Sanitary Corps at the camp and entered the Officers' Training School.

He played football for four years with the Hartford High School and was captain of the team in his graduating year. He also played right end for the Yale football team and was a member of "Ted" Coy's championship eleven. He later coached the Hartford High School team.

Captain Naedele is a graduate of the Hartford High School of the class of 1907. He took a course in the Yale Scientific School and was graduated in '10. He took a post graduate course in civil and mining engineering at the same school following his graduation. He was a mining engineer for a time in Chili, and was later employed by the Travelers Insurance Company, in the engineering department. He then went to Canada and later came back to this city and was employed by the Franklin Electric Manufacturing Company, where he was at the time he entered the service.

# BAY OF BISCAY HOLDS HARTFORD BOY AT BREST

## Stormy Seas Drive Francis Goodwin, 2d's, Ship Back to Port.

The Bay of Biscay lived up to its reputation as the stormiest little bit of sea in the world when Francis Goodwin, 2d, of this city, now on the U. S. S. McNeal, left Brest in that ship to sail for this country. Mr. Goodwin, who is the son of the late Rev. Dr.

**Three Ships Sink.**

"By that time, about three o'clock in the afternoon, the convoy was all separated and some of them out of sight, each trying to get along the best he could. The Courtney and the Douglas both sank and were lost, though the crews were gotten off in time on the Teresa, the largest ship with us, (she was really small, an old 4,000-ton cargo steamer.) The James, another fish-boat, was abandoned, and taken in tow, but the tow-line parted and she was not seen again, and has not been since, so she probably went down, too. The Teresa then proceeded to have her back broken by the straining of the seas, but got in all right yesterday. The fish boats, Anderton, Hinton, and City of Lewes were the sole remaining ships intact, or at least able to move and keep afloat by themselves. The Marietta, an old gunboat, and senior ship of the convoy, behaved very well, and got in all right, but was terribly battered and leaking badly.

"As for the good old McNeal, she went from bad to worse. We couldn't move with our condenser smashed, and the Hinton took us in tow. Fortunately, they had a good heavy 10-inch hawser, otherwise we would never have made it at all. We had the sea on the beam by this time and were yawing pretty badly. The Hinton could make but two knots an hour with us, at the very best. Meanwhile we started a bucket line with all hands and the cooks turning to on it, in a last effort to keep her up until we got in. Just as it got dark, the water reached the fires, and put them out. With them went all steam, all lights, all means of signaling. The Hinton kept on towing us and we kept fighting the water, and we made it about 8 o'clock yesterday morning, just as we were about to go under.

"The crew behaved very well in the end, and the captain has recommended five of them for the navy cross of honor. You see, we had no pumps save of his immediately after the fires went out, and she only hand pump was broken. Even had to pass buckets a good part of the time, though I had to keep going other places all the time. The men in the fire room and engine room had a bad time. They were in water up to their arm pits, so hot that it all but scalded them, and the wickedest atmosphere of escaping steam I've ever seen. Every time the vessel rolled, she'd roll down about 50 degrees

hang there and the water would go over the heads of the men in the fire and engine rooms and they would have to hold their breaths until she righted herself again.

### Ready to Scuttle.

"The wind by that time was blowing close on to a 100 miles an hour with a Bay of Biscay sea to correspond. There wasn't a bit of color on the water other than snow white. Only once before I saw the sea like that, up in the Irish Sea during the war, when it blew 100 miles an hour; everything looks just like soap-suds, with the crests and tops whipped off flat. I don't know how in the world we ever made it. We had everything ready to abandon her, safe ready to heave overboard with the confidential books and papers, life belts, and the captain had the crew's pay accounts strapped around his waist. The other ships were abandoned before dark. If we had had to leave the McNeal, there wouldn't have been a chance. The sea and wind were so much worse, and the night so black, that our small boat couldn't possibly have lived a minute, probably could not have been launched at all, much less been picked up by anyone else.

### Picked Up.

"They got the S. O. S. radios from the Marietta back here in Brest, and sent out destroyers, wreckers, and one large ship, the Egyptian Queen. She was lost looking for us, and we don't know yet whether any of the crew were saved or not. The destroyers did not find us. A large sea-going tug picked up right at the harbor entrance, when our deck was just awash, and any little extra list would have been the last. The tug got her own pumps going immediately and towed us in alongside her, pumping all the time. As soon as we were tied up with tugs alongside keeping us afloat, all hands, including the skipper and I, got some coffee as soon as they could get a fire in the galley stove, and turned in.

"In spite of the fact that I was absolutely soaked, with salt water for 24 hours, practically living in it, I didn't even get a cold. This storm was the coldest, though, for this time of year that I've known before. Our pilot-house windows, weather rails and decks were covered with ice and slush on the way in and all the harder squalls during the storm were full of hail and snow. You probably won't believe that, considering it was the 27th of April, but it was a fact. It was just like a night in December.

"Of course, when you read this, you won't think it was very much of an escape, but as a matter of fact, we did have. We were pretty lucky. I slept from about 9 yesterday morning till 1, got up and had lunch, and went ashore a little later in the afternoon. Then I felt so tired that I couldn't get up enough energy to wait for a boat and take a long wet ride in a boat out to the ship from the landing (it takes 40 minutes) so I went down to Subchaser 322, sponged a supper, bed and breakfast, going to bed at 8 o'clock and not getting up till 8:30 this morning. I feel fine now, and only wish I had some idea of what is going to become of us who man the fish-boats. It's certain they won't try to send us back in them again. The moral effect of losing a man and the loss of three of them, and the narrow shave of the McNeal, etc., will prevent the admiral from sending them across again I think. But it may mean that we'll spend the summer in Brest, and maybe even longer.

"No more for the present, I'll write you again soon. My address now is of course, U. S. S. McNeal, Brest, France, from now on indefinitely, and you can forward any mail that comes for me here."

The marriage of Miss Beula A. Bonnette, of Penn Yan, N. Y., formerly of Hartford, and Archie S. Knowles, of this city, took place March 15 in Aiken, S. C. at the home of the Rev. Henry M. Thompson, pastor of the Memorial Baptist church, who is spending the winter in the south, and who officiated.

The bride was graduated from the Hartford School of Religious Pedagogy in the class of 1917. Mr. KKnowles' for a time attended the same school, and has lived in this city since his early boyhood. For a number of years he was connected with the boys' department of the Y. M. C. A. He is a member of the Memorial Baptist church and an active worker in its Sabbath school having been assistant superintendent and superintendent. Mr. Knowles enlisted in the early summer of 1917 and is now at Camp Hancock, Ga., where he is a first class private in the Base hospital.

Following the ceremony Mr. and Mrs. Knowles were the guests of Dr. and Mrs. Thompson, after which they left for a brief wedding trip to Charleston. Mrs. Knowles will live in Augusta, Ga., while her husband is in camp.

Fears are now being held that Mrs. Copperthite's great ambition of attaining the age of 105 will not be attained. Up to this time she had been able to walk about the house, help a little in the housework and even to do some sewing.

Special to The Times.

Meriden, March 15. 1921

Mrs. Julia Copperthite of No. 140 Hanover street, who is 103 years old to-day, is happy, she says, in seeing the fulfillment of two great ambitions—to live to see the freedom of slaves in this country and prohibition. Mrs. Copperthite well recalls when Lincoln spoke in this town in a presidential campaign. When the troops were passing through on trains in the Civil war she helped to serve refreshments to the boys. "I have always done my bit for prohibition," Mrs. Copperthite says, "but it never seemed that I would live to see it a reality."

Her rules for long life are hard work, plain food, cheerfulness and sensible dress. She does not believe in girls wearing low shoes and thin stockings in cold weather.

## EASY TO LYNCH THEIR EMPEROR

Professor, Lately Prisoner in Russia and Germany, Tells of It.

Professor Henry C. Emery, formerly major in the National army, an probably the first American to arrive here from Germany since the ascendency of the civilian over the military authorities in the central empires, relates his experiences after being captured on the Aland Island by the Germans last March. He has just reached New York way of a neutral country.

Professor Emery said that as early as last July he observed the mutterings of discontent in Berlin that culminated in the recent revolt. Although he had no personal contact with the present socialist heads of Germany and was unable to tell how far Germany was infected by Bolshevism, Professor Emery gave it as his opinion that if industry in Germany could be restored promptly and the manufacturers could obtain raw materials and if a strong central government could be maintained, there would be no Bolshevik menace in Germany.

That the Germans allowed the Bolshevik ambassador to remain in Berlin as long as they did was surprising to Professor Emery. When the Bolshevik representatives were taxed with spreading their propaganda, he said, they replied without any embarrassment, "that's what we are here for, to spread the doctrine of Bolshevism."

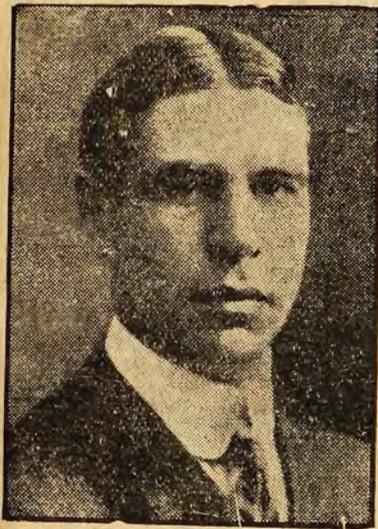

Professor Emery was returning from Petrograd, where he had gone on a mission for the Guaranty Trust company in New York, when he was seized on the Aland Islands and interned at a camp. His wife was not taken prisoner and owing to her efforts he was released from the prison camp after several weeks and sent to a small town in Finland, where he was allowed to move freely about the town limits.

It was all done as a matter of military routine and we accepted it as such. A few of the women fussed, but of course gained nothing by it. fact to go from one vessel to the other people walked on the ice and the ships could get out and in the harbor only by use of great ice breakers. On the transport to which we had been assigned on our arrival we found the beds were bunks filled with sea-weed in bags. Not very soft, but clean and sweet smelling. I was so tired out from the long sledge trip that I rolled myself up in a big coat, threw myself on the bunk and slept like a baby all night. It was the fine to have even a bunk and some seaweed to sleep on after that long, hard sledge ride with only a few stopovers now and then which marked the trip from Russia to the Finland coast.

## PROFESSOR EMERY PRISONER.

### Among British and Americans Taken on Leaving Finland.

Washington, March 16.—Henry Crosby Emery, who was among the British and Americans taken prisoner by Germans as they were leaving Finland on a neutral ship, is a former Yale professor of economics, and was chairman of the tariff board during President Taft's administration.

Officials here to-day were awaiting further word of the protests of General Mannerheim, commander of the White Guard, the Finnish government forces, against the arrest of the British and Americans.

Recent dispatches from Stockholm telling of the arrest of the civilians said the Americans and British of military age would be taken to a German internment camp. Professor Emery is within military age.

### Mrs. Emery Reaches Stockholm.

Boston, March 16.—A cable message announcing her arrival at Stockholm was received here to-day from Mrs. Henry Crosby Emery, whose husband has been detained by Germans on the Aland islands. The message came to former Chief Justice Lucilius A. Emery, of the Maine supreme court, who is visiting in Boston.

"My son went to Petrograd nearly two years ago as the representative of the Guaranty Trust company, of New York," Judge Emery said. "With his wife he was leaving Petrograd on a neutral ship, and while nothing was said in the cablegram regarding the causes of his detention, I feel that he will be permitted to proceed to Stockholm."

Mr. Emery was married in Petrograd to a daughter of Professor F. G. Allinson, of Brown university.

## MAJ EMERY RELEASED Reached New York Nov 16/1918 American Ambassador Arrives in Copenhagen From Germany

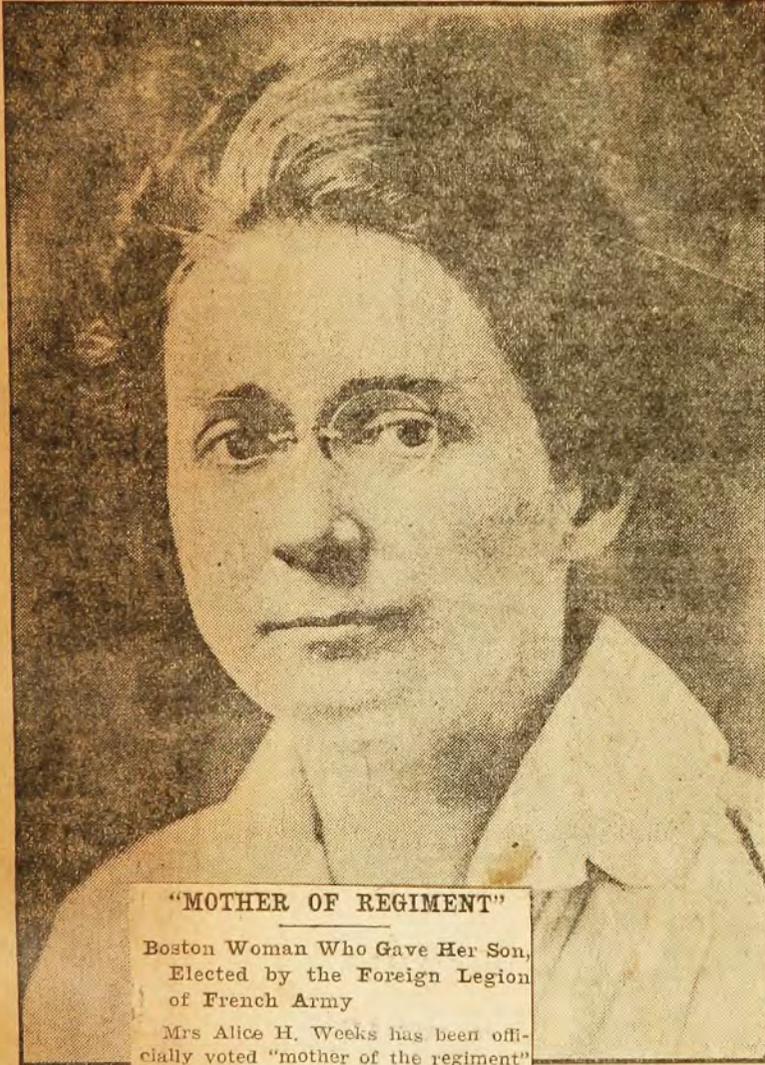

Maj Henry Crosby Emery, Russian representative of the Guaranty trust company of New York, who was made a prisoner by the Germans on the Aland islands last March, has been released from imprisonment in Germany and arrived in Copenhagen last week Tuesday night.

Maj Emery was formally a professor at Yale and a member of the tariff commission appointed by President Taft. He went to Petrograd in September, 1916, to represent the Guaranty trust company and was married there in July, 1917. With Mrs Emery and a number of other neutrals, he was traveling from Russia to Sweden by way of the Aland islands last March when arrested by the Germans, being the only member of the party to be molested. The Finnish government tried in vain to obtain his release. He was taken to Dantzic and later to several other prison camps in Germany.

**Boston Woman Who Gave Her Son, Elected by the Foreign Legion of French Army**

Mrs Alice H. Weeks has been officially voted "mother of the regiment" by the foreign legion of the French army after more than two years of devotion to the interests of American boys in that famous fighting organization, it was announced yesterday at the Boston headquarters of the home service for American soldiers abroad. Mrs Weeks began her mothering of the Americans fighting on French soil after the death of her son, Kenneth Weeks, who joined the foreign legion early in the war. In 1915 she followed him to Paris, but he was killed before he could obtain a furlough to visit her.

At her Paris home, Mrs Weeks welcomed many of her son's friends in the legion, the aviation corps and the ambulance service. The number who looked to her for sympathy and care grew until it was necessary to form the society known as the home service for American soldiers abroad, with Col Theodore Roosevelt, Dr Morton Prince and Maj Henry L. Higginson among its directors.

**GEN SCOTT CHANGED**

**NOW COMMANDS CAMP DIX**

**WILL BE BLOW TO GENERAL**

Given for Transfer of Chief of Staff From 78th Division

*th 16, 1918*  
 Hugh L. Scott, formerly chief of staff, yesterday was ordered to relinquish his command of the 78th Army division at Camp Dix. He is to be placed in command of the 1st Division, which is to be made an Army camp. Brig-Gen James H. Doolittle has been appointed to temporarily command the 78th division. The reason for the order was that Gen Scott came to Washington last week for examination by a board appointed to determine the fitness of officers to hold command on the fighting front in France. He understood that he had failed the test. Five other divisional commanders had been relieved of their commands earlier in the week because they failed to pass the physical ex-

amination. The general policy in the war demands that officers who have reached the retirement age in the battlefield when an officer has passed the test he is not qualified for the duties which a command on the front entails. Gen Scott reached the retirement age last September on which date he relinquished his post of chief of staff but he is to be sent back into active service. Gen Scott believed that the orders of the department would come as a severe blow, as the United States entered the war Gen Scott had been hoping for an opportunity to command an action in the great struggle. He felt his relief as chief of staff had opened the way for his return to active service, and was to command a division. During his absence in France, which was his return from Russia where he had been in the last offensive undertaken by the Russian army launched. Gen Scott means to prepare for a command on the Ameri-

commander at Camp Dix. Gen Scott will head a supplemental encampment. The quarter-master's corps has found it necessary to have additional quarters available for the handling of troops on the way to the front as the process of sending divisions forward is speeded up. All divisions are re-equipped completely with clothing and every other necessity at these embarkation cantonments before they go aboard ship. It has been understood that Camp Dix would be used for this

#### INSURANCE BUSINESS

*March 20, 1918*  
An event of importance to the insurance business of Hartford was the amalgamation of the W. E. Baker & Son agency with the agency of F. F. Small & Co., which took place yesterday. The Baker agency was established in 1862 and is the oldest firm doing an insurance business in the city. Since the death, in 1909, of W. E. Baker, the business has been conducted by his son, George W. Baker, who now joins forces with F. F. Small & Co., and he will be at their office, No. 95 Pearl street.

F. F. Small & Co. will continue to represent all of the companies that have been in Mr. Baker's office, which include the Connecticut Fire Insurance Company, the Liverpool & London & Globe Insurance Company and the North British & Mercantile Insurance Company, which bring three Hartford companies under one management, as F. F. Small & Co. now represent the National Fire Insurance Company and the Hartford County Mutual Fire Insurance Company of this city. This will give strength to the Small insurance agency, as it will put the resources and services of these well known Hartford companies at the disposal of the customers of the combined agencies.

*March 27 1918*  
The army and the navy of the United States and the Grand lodges of Connecticut, F. and A. M., were joined together, Wednesday evening, by St. John's lodge, F. and A. M., in an occasion of unusual interest. The Rev. Dr. William F. English of Hartford, grand master of the Grand lodge, presided during the major portion of the work, which was the master Mason degree, and raised his youngest son, John Fairfield English, a member of the Fifth regiment, Pioneer infantry. First-Class Yeoman William Warren Cooper Ball, a son of Past Master William E. Ball of Siloam lodge of Westboro, Mass., now a resident of this city, was the other candidate. Both young men were in uniform.

Adding to the interest of the meeting was the presence of the three other sons of Dr. English, all previously raised by him in the lodges in which they still retain membership.

The elder son, the Rev. William F. English, Jr., pastor of the Kirk Street Congregational church, Lowell, Mass., was acting chaplain for the evening. He and a brother, John English now of Harrisburgh, Penn., are members of Oriental lodge of Broad Brook, of which Dr. English is a past master. The fourth son, Dr. Chester F. English, is a resident of New Hartford and a member of Amos Beecher lodge of that place.

A pretty home wedding took place at the home of Commissioner and Mrs. Charles Barnes, No. 71 Wells avenue, yesterday afternoon at 3 o'clock, when their daughter, Miss Gertrude Barnes, was married to Dr. Herbert Hartley Guest of No. 4 Sumner street, Hartford. The ceremony was performed by Rev. Dr. P. Miles Snyder, pastor of the First Congregational Church, in the presence of the immediate family. The couple were unattended. The bridegroom is a graduate of Yale University and is a doctor of philosophy. Following a short wedding trip to New York, Dr. and Mrs. Guest will live at No. 4 Sumner street, Hartford.

The home of Mr. and Mrs. Walter G. Newberry of North Main street was also the scene of a wedding yesterday afternoon at 4 o'clock, when their daughter, Miss Edith Newberry, was married to James G. Harvey of No. 416 South Main street by Rev. Francis Fate of Glastonbury. The rooms were prettily decorated with palms and cut flowers. Only the immediate relatives of the couple were present at the ceremony. They were unattended and after a short wedding trip they will live at No. 416 South Main street.

 News has come to the city that a

 alry in New England, having ten  
 cavalry troops under his charge, and  
 who for a time lived in this city, is  
 in command of the 165th Field Ar-  
 tillery at Camp Travis, near San  
 Antonio, Tex. He is Brigadier Gen-  
 eral Francis C. Marshall, a graduate  
 of West Point and the holder of the  
 honorary degree of M. A., conferred  
 by Trinity in 1916. General Mar-  
 shall went from Fort Bliss, El Paso,  
 Tex., to Camp Travis last month.

He was graduated from West Point  
 in 1890, nineteenth in a class of  
 fifty-four cadets. He was assigned  
 then to the Eighth Cavalry and  
 served through the Pine Ridge cam-  
 paign in command of a detachment  
 of enlisted Sioux scouts. Later he  
 commanded Cheyenne Indians.

He was made first lieutenant,  
 Sixth Cavalry, January 6, 1897, and  
 three years later he was active in  
 the Chinese relief expedition. In  
 an action near Tien Tsin, under ad-  
 verse conditions, he led a successful  
 cavalry charge, heading Americans  
 and a troop of Bengal Lancers,  
 which was commanded by a Lieuten-  
 ant Gausin of the British Imperial  
 Army. Casualties among the  
 Chinese were larger than the entire  
 force attacking. The force also  
 captured 300 Chinese un wounded.  
 Lieutenant Marshall was recom-  
 mended for the brevet of captain by  
 General Wint, commanding the  
 American expeditionary force.

It was from 1911 to 1914 that he  
 was instructor for militia cavalry in  
 New England, both before and  
 after he saw service in the Philip-  
 pine Islands. His tours of duty there  
 were in 1900-1, 1902-3 and 1915-7.  
 When Uncle Sam organized the  
 Philippine militia he was named as  
 its commander. He had completed  
 the formation of a division of 25,-  
 000 when the country entered the  
 world war and he was called home  
 to help direct the training of the  
 national army.

Stevens Henry, in 1897. He was graduated from West Point in 1901 and has been stationed at several important posts since his graduation. He was at one time in command at Fort Mansfield, Rhode Island, and was later sent to the Philippines. ## FAST DAY PROCLAMATION.

State of Connecticut.  
By His Excellency  
**MARCUS H. HOLCOMB,**  
Governor.

### A PROCLAMATION.

In compliance with custom, the governors of Connecticut have designated the Friday before Easter as a day of fasting and prayer, in commemoration of the day when the Savior of mankind made the supreme sacrifice. On that day for the three years last past we have prayed that this nation be spared from an active participation in this wreat world war. It was a selfish and unanswered prayer. It was decreed that this country, founded upon the divine principle of the equal rights of man, should do its part in defeating a foe which by force of arms seeks to subjugate the world. We should be willing to make whatever sacrifice is necessary to ensure the preservation of human liberty. I, therefore, appoint Friday, the twenty-ninth day of March next,

as a day of fasting and prayer and request that on that day all of the people of this state bend the knee to Almighty God, and fervently and devoutly pray for the success of our cause, the preservation of our young men who are fighting on the side of righteousness, an early and conclusive victory, and that a permanent peace be established.

Given under my hand and seal of the State at the Capitol, in Hartford, this sixteenth day of March, in the year of our Lord one thousand nine hundred and eighteen, and of the independence of the United States the one hundred and forty-second.

Former Hartford Instructor Holds Secure Place in Esteem of French Critics of Painting and Sculpture.

American artists under the direction of Cameron Butler and Henri Rivers, director of the "Beau Arts Review," is a success in Paris and a cabinet in the sculptors' division. F. Logan is gaining a substantial reputation. Mr. Logan was formerly the resident instructor of the Society of Hartford and was art editor of "The Connecticut" in Hartford. Logan studied art in Winnipeg and Chicago before coming to Hartford. Early in 1918, he was instructor in the school he had listed in the navy. The government finally appointed him assistant in the art school at France for the American school. For the past year Mr. Logan devoted most of his time to noted French cathedrals and drawings of industrial subjects. His paintings, "Les Moulins," "Le Pont Marie," and "The Revue Moderne" of Paris, while the national exhibition was in progress, printed an article about Amer-

There are courses in architecture, drawing and painting, sculpture, interior decoration, landscape architecture and city planning. Prominent educators allied with the fine arts departments are: Lorado Taft of Chicago, lecturer on sculpture; Mr. Lloyd-Warren of New York, lecturer on architecture; Mr. Hellman, general director. Among the instructors are prominent French and British artists.

Mr. Logan will remain abroad for a time after his term of service with the A. E. Y. M. C. A. has expired, making a special study of French art, and especially the systems of industrial art education in France and England. For the past six years, until he went into the U. S. Navy last spring, Mr. Logan has been the resident instructor of the Art Society of Hartford. His own work as an artist and his ability as an instructor have made him widely and favorably known. He has been a frequent contributor on art subjects to "The Courant." Mr. Logan enlisted in the navy last May. He received his discharge a little over a month ago.

"Mention might be made of the contribution which Mr. Logan has given to the interesting album published by Adolph le Goupy. This album, which was to be sold for the benefit of the devastated portions of France, contains the signatures of the principal members of the peace conference. To break the monotony of these signatures, designs made by prominent French and American artists are interspersed. That of Mr. Robert F. Although he does not rank as an etcher with Louis Orr, Mr. Logan is making rapid progress in this field and his numerous friends in this city will be proud of his success. Mr. Logan contributed numerous articles on art subjects for "The Courant" while he was instructor at the Art Society of Hartford.

### ART MUSEUM BUYS HARTFORD ETCHING

The Metropolitan Museum of Art has announced the purchase of a print of Robert F. Logan's etching of the old Bulfinch Statehouse which Mr. Logan etched under the auspices of the Connecticut Chapter of the Colonial Dames of America. It was published in January, at which time "The Courant" reproduced the etching in its Sunday rotogravure section. Mr. Logan was the head of the Hartford Art School before he went to France during the war. The etching becomes a part of the Metropolitan Museum's permanent collection of prints.

The etching of the Old State House has been widely praised. Copies have been acquired for the Morgan Memorial, the Old State House and the State Library. The edition was limited to 75 copies and more than two-thirds of these have already been subscribed for. Mr. Logan is at the present time showing a number of his etchings at the exhibition held by the International Association of Print Makers at the Anderson Galleries in New York.

agree that in the neighborhood of 1,500 direct hits were made on the cathedral. One large shell destroyed the vault at the crossing. Others entered the nave and choir and tore away many of the columns supporting and adorning the towers. Naturally all of the pinnacles crowning the outer terminals of the flying buttresses on each side of the nave are completely ruined and of the hundreds of beautiful sculptures that once adorned the portals and the nave hardly a single one is left entire. The buildings surrounding the cathedral were of softer stone and they succumbed more easily to gun fire, but that even the shell of the cathedral remains standing today is not due to any leniency on the part of the German gunners or of the German high command, but to the splendid integrity of the Gothic builders. Otherwise it is conceivable that Rheims Cathedral would be today as is the castle at Coucy-le-Chateau, a heap of ruins.

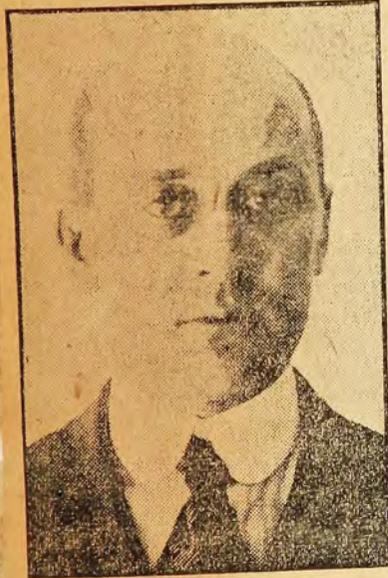

In his "History of the Great War" John Buchan calls the shelling of the Rheims Cathedral one of the acts

## CLOCKS TURNED BACK ONE HOUR TODAY

### First Period of "Daylight Saving" Completed.

Washington, Oct. 26.—The American public tonight completed its first period of "daylight saving," satisfied with its results. Although officially clocks were not to be turned back an hour, until 2 o'clock tomorrow (Sunday) morning, for the average citizen the change was made tonight by turning back the hands of timepieces or stopping them before going to bed.

At the naval observatory all preparations had been made tonight for the change in time. The clocks at the observatory, by which the nation measures time, were not to be turned back. Tomorrow at noon the observatory merely will send out seventy-fifth instead of sixtieth meridian time.

By order of Director-General McAdoo, all railroad trains enroute at 2 o'clock tomorrow morning will proceed to the nearest station for a wait of one hour, and then resume their schedule.

Beyond the physical turning back of clocks and watches, the change scarcely will be noticed by the average American.

It saved \$2,000,000 in gas bills for the people. The fuel administration estimated that on the seven-month basis 1,125,000 tons of coal had been saved, to relieve possible winter shortage. Definite reports from St. Louis said consumption of coal had dropped 17.5 tons per thousand population. These estimates were worked out by comparing the coal consumption of central stations with previous years, to determine how much less electrical energy and gas for lighting had been utilized.

These were the demonstrable features, and enthusiasts for the daylight saving plan placed no limit on the extra health and enjoyment of life secured by the masses of people who found themselves free to use the outdoors under the sun for an extra hour after concluding work. Charles Lathrop Pack, head of the national war garden commission, asserts that the crop from the home plots this year is worth \$525,000,000, an increase of 51 per cent. over the 1917 results, and gives much credit to the evening daylight hour for the result.

Benedict M. Holden.

MISS ELEANOR MASON, Under Government.

Miss Catherine Kelly is the third Travelers girl to go to Washington as stenographer in government offices. She leaves for Washington tomorrow. The exact nature of her work is not yet known but it is officially announced that she will be a stenographer in the employ of the United States government.

Miss Madelyn I. Murphy, daughter of Mr. and Mrs. Francis T. Murphy, of No. 88 Atwood street, who left the employ of the Travelers February 26, to engage in the same work, has written to her mother that she is enjoying her work immensely. She is employed in the agricultural department. Miss Murphy is a graduate of St. Peter's School and of Miss Olmstead's Business College. She has been a Travelers stenographer for nine years.

Miss Emma Smith, who left last Monday for similar work, is a resident of Broad Brook. She has been with the Travelers for five years.

The announcement of the marriage of Miss Francis Pierpont Whitney of New Haven to Lieutenant Earl W. Knight of North Carolina, which took place in Paris, March 21, has been announced by the bride's parents, Mr. and Mrs. Eli Whitney. Miss Whitney started in January to do canteen work under the direction of the Y. M. C. A., and shortly after her arrival in France became acquainted with Lieutenant Knight, who is in the aviation service. The wedding took place at the American church in Paris, Easter Sunday.

Brigadier General Holden was appointed by General Goethals to take charge of the Philadelphia depot on April 11, 1918. At that time he was a member of the military emergency board of the state and a lieutenant colonel in the State Guard. He went out with the First Connecticut Volunteer Infantry in the Spanish war. Later, he enlisted in the Twenty-Seventh United States Infantry, served in the Philippines and was made battalion sergeant-major before leaving that command. It was with this record of previous military service in mind, besides other considerations, that Governor Holcomb appointed him a member of the Military Emergency Board early in 1917. Mr. Holden is 46 years old and has practiced law in Hartford about twenty years. He studied in the law offices of Newell & Jennings in Bristol and was graduated from the law department of Yale University in 1895. He has practiced law in Bristol, his native town, New York and Hartford.

### CLARK TELLS OF SELF.

Editor of Courant Writes Interesting Autobiography—Some History of Paper Included.

An extremely interesting autobiography by Charles Hopkins Clark, who will be 70 years old April 1, appears in the current issue of the Editor and Publisher. As editor of "the oldest newspaper in America published daily," a paper of which we are told, George Washington was a subscriber and from which undoubtedly the father of his country obtained his traditional fondness for truth, Mr. Clark, of necessity, includes in his autobiography a little of the history of the Courant itself. It has been a remarkable history in many ways.

As the head of the newspaper, Mr. Clark is necessarily out of touch, to some extent, with the details of its daily management and, immersed in matters of more consequence, not entirely sure of some purely minor facts concerning it. One or two errors, mostly on the side of unintentional exaggeration—the article, in general, is couched in moderate terms—mar an otherwise enjoyable account.

Mr. Clark says, for instance, that the Courant's circulation equals that of any two other morning publications in the state. Circulation figures are, of course, jangorous things in more senses than one, unless they are audited, but several combinations are possible where the total circulation of two Connecticut morning papers

### CLARK 70 YEARS OLD.

Courant Staff Presents Testimonial to Editor on Birthday Anniversary—Forty-Seven Years With Paper.

April 1, 1918  
Charles Hopkins Clark, editor of the Courant, became 70 years of age, Monday. As a token of their esteem for him, members of the editorial, business and mechanical departments of that newspaper presented him with an engrossed testimonial. Managing Editor Clifton L. Sherman bespeaking for the workers and friends of Mr. Clark the hope that he would continue his labors many more years.

The presentation of the testimonial was at a meeting in Mr. Clark's office at 3 o'clock in the afternoon. Mr. Sherman spoke of the forty-seven years of service which Mr. Clark had given to the Courant and expressed the belief of those connected with it that their chief "was the Courant." The activities of Mr. Clark in other fields were touched upon, his connection with the Hartford Courant, who to-day attains, with the seventieth year of his life, the forty-seventh of his connection in one or another capacity with that oldest of Connecticut newspapers—the newspapers that is the oldest in the country in the sense that none other has been as long published in the same place without even temporary suspension or change of name.

"In a recent sketch of his own life, written with characteristic modesty and something of humor, also characteristically prepared by him for the Editor and Publisher, Mr. Clark told how, soon after his graduation from Yale, in 1871, and after a single attempt, fortunately unsuccessful, to get a place as teacher in Chicago, he applied for, and obtained, employment as a reporter on the Courant, then edited by Charles Dudley Warner and General Joseph R. Hawley. There he has since remained, assuming the responsibilities of full management on the death of Mr. Warner, in 1900.

"To-day, still vigorous and as alertly interested and concerned as ever in the events and policies of the passing hour, it can be said of Mr. Clark that between him and the Courant it is hard to distinguish, for he is the paper and the paper is he to a degree more than uncommon now that journalism has become so much less personal than it used to be. Perhaps it would be more nearly correct to say, now that the personality that is and must be behind every newspaper of any influence and importance tends to withdrawal from public knowledge and notice.

To this tendency Mr. Clark has yielded less than most editors, but he has remained in the older school of editors without allowing either himself or his paper to be less than thoroughly responsive to the spirit of the new age. Nor is all his attention confined to the conduct of the Courant. In listing these other activities Mr. Clark himself significantly placed first his membership in the board of directors and the executive committee of the Associated Press, but he is also a member of the Yale corporation, and a director in many insurance, industrial, and other corporations, several of them of a public character, philanthropic, and artistic."

### NEW MISSIONARY CHOSEN

Rev Archibald S. Winslow to Have Charge of Eastern Half of Western Massachusetts Diocese

Rev Archibald Spiers Winslow, rector of St John's Episcopal church of Bayonne, N. J., has been appointed rector of St Andrew's church in Ludlow and St Mary's mission in Palmer and also diocesan missionary in charge of all the rural districts in the Western Massachusetts diocese east of the Connecticut river.

Since the death of Archdeacon Charles J. Sniffen Bishop Davies and the board of diocesan mission have been considering a plan of dividing up the supervision of the rural missionary work. It was decided to have two clergymen instead of one and station one on each side of the Connecticut river. St Andrew's church in Ludlow, which has been without a rector since January 1, when Rev Edmund R. Laine, Jr., resigned to become associate minister of Christ church, Springfield, was selected as the headquarters of the eastern field.

Rev Mr Winslow was born in New York city and graduated at Columbia university in 1902 and at the General theological seminary in 1905. He was ordained deacon in 1905 and priest in 1906 by Bishop David H. Greer of New York. He was on the staff of the New York Episcopal City mission, 1905 to 1908, was a curate of Trinity parish at the chapel of the Intercession in New York city, 1908 to 1910 became rector of the church of the Holy Spirit at Gambier, O., in 1910 and remained there until 1917, when he became rector of St John's church in Bayonne. He will probably assume charge of Ludlow and the rural work May 1. He will receive a salary of \$2000 and be provided by the diocese with an automobile and a lay assistant. He will live in Ludlow. He is married and has four children. Until Rev Mr Winslow takes charge Bishop Davies has asked Rev E. R. Laine, Jr., of Christ church, Springfield, to administer Ludlow and Palmer.

## Medical Examiner For Hartford to Enter Medical Reserve Corps.

*April 5 1918*  
 Medical Examiner Dr. Philip D. Bunce, for four years medical examiner of Hartford, has received notice that he had been appointed a captain in the Medical Reserve Corps and was notified to be ready to enter the service by April 15 if necessary. He will, however, probably be called May 1, and expects to leave Hartford at that time. He will enter the orthopedic department. When he was asked if he could be ready to enter the service by April 15, he immediately answered "Yes," although he has a big private practice which he would have to turn over to some other doctor.

The new medical officer started practicing in Hartford, his native city, in 1895, four years after his graduation from the College of Physicians and Surgeons New York. For a time he was on the medical staff at St. Luke's hospital, New York. Coroner J. Gilbert Calhoun appointed him medical examiner in 1913.

Dr. Bunce is the son of Jonathan B. Bunce, for many years a well known citizen of the city. The son prepared for college at the Hartford High school. He has been visiting orthopedic surgeon at the Hartford hospital for several years, and it was his ability in this department that led to his selection for the service. Reports from medical officers at the front show fully 3 per cent. of the casualties to be in need of orthopedic treatment.

In addition to being treasurer of the Hartford Medical society Dr. Bunce is a member of the Hartford County Medical society and of the state medical organization. His home is at No. 51 Gillette street.

### *May* Captain Bunce To Ontario.

In an order from the war department at Washington, dated Saturday, Captain Philip D. Bunce was assigned to duty at Fort Ontario, N. Captain Bunce was graduated from the high school in 1884 and from Yale College in 1888 and from the College of Physicians and Surgeons in 1890. His specialty is orthopedic surgery.

# SOUTHERN PEOPLE UPHOLD THE WAR.

APRIL 8, 1918.

Rev. Henry M. Thompson,  
Memorial Baptist Pastor,  
Arrives Home.

## MEN OF HARTFORD AT CAMP HANCOCK

Members of Hospital Units  
Desirous of Seeing Service  
Abroad.

Two things particularly impressed the Rev. Dr. Henry M. Thompson pastor of the Memorial Baptist church, during his three months stay in South Carolina and Georgia which terminated last week. These were the intense personal interest of the Confederate veterans in the troops at Camp Hancock, most of whom are from the north, and which include many from Hartford; and the solidarity with which the whole southern people are behind the war.

Dr. Thompson, with Mrs. Thompson, left Hartford, January 7, spent a few days at Camp Greene, Charlotte, N. C., where the First Regiment, Connecticut Infantry, was encamped, and then went to Aiken, S. C., where he remained three months. Dr. and Mrs. Thompson stopped in Washington on their way north for a short visit with their daughter-in-law, Mrs. Clarence M. Thompson, whose husband is a captain in the 102d United States infantry in France. Dr. Thompson went south to recuperate after a serious illness and says he is much better.

He resumed preaching Sunday morning. Because of his health he has resigned his pastorate, which he has held thirty years. No action has been taken on the resignation, and Dr. Thompson said it would not go into effect until such time as might be most convenient to the parish.

### At Camp Hancock.

Aiken is only twenty miles from Camp Hancock, Augusta, Ga., where the Hartford men include part of the hospital unit raised here early last summer by Dr. Otto G. Wiedeman, Irving Smith of No. 142 Seymour street; Archer S. Knowles, former assistant boys' secretary at the Hartford Y. M. C. A.; Edgar E. Heyer of No. 63 Freeman street and George Bremser of No. 48 Whitmore street, all privates, were some of the Hartford soldiers whom Dr. Thompson met. He officiated at

Camp Hancock at the marriage of Mr. Knowles and Miss Beulah Bonnett of Penn Yan, N. Y.

"There were no traces of bitterness against northerners, either soldiers or civilians," Dr. Thompson said, "and the Confederate veterans were heartily behind the war and keenly interested personally in the soldiers at Camp Hancock. I talked with one veteran who served three years in the Confederate army and another year in a northern prison. One day a section of artillery passed up the street. They were

## REV. DR. THOMPSON RESIGNS PASTORATE AFTER THIRTY YEARS *April 7, 1918* To Retire from Memorial Baptist Church Pulpit.

Rev. Dr. Henry M. Thompson has resigned as pastor of the Memorial Baptist Church because of poor health, after thirty years of service as its minister. His resignation has not been acted upon yet and it is understood that Dr. Thompson does not intend to have it take effect until the church is fully prepared to release him. He has recently returned to the church after a leave of absence following a season's illness. He took charge of the midweek meeting last Thursday and will preach today. A reception will be given for Rev. Dr. Thompson, Mrs. Thompson and Rev. Raymond Maplesden of Suffield, who has been the preacher for the last year, at the annual roll call of the church on Thursday evening.

Five years ago Rev. Dr. Thompson celebrated his twenty-fifth anniversary as pastor of the church. He came to this city from Iowa Falls, Ia., where he was a pastor for several years. Prior to his pastorate at Iowa Falls, he was pastor at Iowa City from 1881 to 1895. He is a graduate of the Newton, (Mass.) Theological Seminary in the class of 1880. He has long been prominent in Baptist organizations and was formerly a president of the Connecticut Prison Association.

Purse for Retiring Pastor of  
Memorial Baptist  
Church.

The Memorial Baptist Church was crowded to the doors last evening on the occasion of the farewell reception for the pastor, Rev. Dr. H. M. Thompson and Mrs. Thompson. The exercises opened with an organ prelude, after which the congregation sang the hymn, "The Church is One Foundation." W. J. Reid, chairman of the committee, on behalf of the committee, on behalf of the church welcomed those present and spoke in glowing terms of the work accomplished by the church under the pastorate of Dr. Thompson.

Deacon Henry H. Dickinson, whose connection with the church antedates that of the retiring pastor, spoke of the many difficulties in the early years of the church and the marked improvements under the guidance of Dr. Thompson, and he was sure that he voiced the sentiment of the members and friends of the church in his remarks which was evidenced by the large gathering present on this farewell occasion. The following pastors were present, and were called upon to speak, each one telling of the pleasant associations with Dr. Thompson, during his pastorate and they said that not only did the church lose a good pastor, but the city of Hartford lost a loyal citizen, as well:—Rev. Dr. P. C. Wright, Rev. Dr. Herbert Judson White, Rev. Dr. A. B. Todd, Rev. Dr. John Newton Lackey, Rev. Dr. A. D. Kendrick and Rev. F. F. Voorhees. Major Clarence M. Thompson, son of Dr. Thompson, came from New York, to be present.

W. J. Reid, on behalf of the church gave Dr. Thompson a purse of about \$250. Dr. Thompson expressed the thanks of Mrs. Thompson and himself. Senior Deacon George E. Moses, presented a set of resolutions from the church to Dr. Thompson and Mrs. Thompson. A hymn composed by Leonard W. Robbins was sung.

Howard H. Keep, who has been fifty years with the Phoenix Mutual Life Insurance Company, was pleasantly surprised yesterday when, upon his arrival at the office, he found his desk heaped up with flowers and many cards and letters of congratulation from friends. On the front of his desk was a red, white and blue design made of flowers and in the center of the desk stood a large basket containing fifty roses, representing the number of years he had been with the company. There was also a mahogany tray upon which stood a thermos tankard from the young women of the office. The basket of flowers was from Vice-President Cornwall and William F. Hilton, who was connected with the company for over forty years, but retired recently.

The officers of the company gave Mr. Keep a Liberty Bond of goodly

size with the following inscription attached: "Phoenix Mutual Life Insurance Company, in appreciation of a half-century of loyal service." Vice-President Cornwall gave Mr. Keep a gold pencil inscribed with his name and the date. Mr. Keep started to work for the company as office boy in 1868. At that time the clerical force of the office consisted of eight persons. He is now in charge of the renewal writing and record card section of the company. He was born in Longmeadow, Mass., but attended the South District School in this city.

## HOW HARRY KNAPP GOT HIS START

Present Admiral Was  
"Afraid to Tell a  
Lie."

APPOINTMENT BY  
SENATOR HAWLEY

Annual Entertainment of  
Good Will Club.

Admiral Harry S. Knapp.

"Send a boy who is afraid to tell a lie and afraid of nothing else"—these were the words in a letter from United States Senator J. R. Hawley to Principal Joseph Hall of the Hartford Public High School, asking him to nominate a candidate for Annapolis, and, on the advice of Professor A. R. Merriam, now of the Hartford Theological Seminary but then a teacher at the high school, Harry Knapp received the appointment, the same Harry Knapp who is now Admiral Knapp, recently appointed to succeed Admiral Sims as commander of the greatest war fleet the United States has ever had.

This was the inspiring story told last evening to the members of the Good Will Club, gathered together in the clubhouse for the annual entertainment, by Professor John W. Wetzel, with an addition by Professor Merriam, himself, who was seated upon the platform, and it proved a fitting climax to a perfect evening.

One of the largest attendances ever drawn to a Good Will Club entertainment, including a number of former members who have recently returned from the war service, heard the opening remarks of Miss Mary Hall, for many years in charge of the club, and her introduction of Dr. C. W. Page, president of the board of trustees, who recalled the first meeting thirty-nine years ago, when nine boys gathered for the great event. Now, he said, there are 1,200 members in all parts of Hartford, while thousands of former members have since made their mark in the world. Dr. Page said that he regretted that, owing to pressing business, Governor Marcus H. Holcomb had not been able to attend, and he thanked the governor in behalf of the club for his presence on three other like occasions.

Daniel D. Bidwell, who has on several occasions represented "The Courant" overseas, was the first speaker, the club drum corps beating out an honorary salute as he took the floor. Mr. Bidwell related a number of little instances of the human side of the war, all of them finding favor with his audience, and he closed with a tribute to the memory of Major George J. Rau.

Professor Wetzel read "For You Seldom Hate a Fellow When You Know Him Very Well," "My Paw Said So," and one of James Whitcomb Riley's best liked poems, all of them amusing the large gathering, composed mostly of small hearers. And then he told the story of how Harry Knapp went to Annapolis.

"Harry Knapp was not a perfect boy," Professor Wetzel said, "he had so much 'pep' that at times he caused trouble, he was strong and manly and never afraid. But the one big thing about him was that he always told the truth; when he said something you could always believe it; he was afraid to tell a lie. And then when Principal Hall received that letter he recommended Harry Knapp. It pays to be honest, to be manly, to tell the truth."

As Professor Wetzel finished speaking, Professor Merriam arose. "And I was the teacher who recommended Harry Knapp," he said, "when Principal Hall came to me with Senator Hawley's letter and asked me who I thought best suited for Annapolis, 'the boy afraid to tell a lie,' I said 'You want Harry Knapp.' And he was given the appointment, and today is the commander of our navy." Drawing the moral for the benefit of his audience he added, pointing out among the gathering, "and if I should ever be asked again who should have an appointment to Annapolis, I should think of you, the boy most afraid to lie and point to you." The account of how the present admiral made his first start created a splendid impression, and at the close of the entertainment as they were receiving gifts of candy and oranges and popcorn, it is safe to say that hundreds of the small boys present were hoping, and praying, that some day they too might become as Harry Knapp.

The duties of the position are varied and extensive. They involve assurance and arrangements of all sorts for nurses on leave, whether army or not, also the same for nurses ordered back to the United States, the supply of equipment, the control of all Red Cross nurses in France, and the proposed duty of establishment and control of an American Red Cross Nurses' Aid Service for France.

Dr. Stimson's son, Dr. Philip M. Stimson, Yale, 1910, went to France early and was wounded within a few weeks of his arrival. He is now busy in the Blake Hospital in Paris. Besides his son and daughter "over there" it happens that eight nephews of Dr. Stimson are in the service.

The arrangements were carried out as simply as possible and only relatives and intimate friends, including a number of naval officers, were present.

## The Hartford Courant

Established 1764

SATURDAY MORNING, AUG. 25, 1923  
MELVILLE E. STONE.

Melville E. Stone, the organizer of the world's greatest news gathering organization, the Associated Press, and for so many years its active head, has just celebrated his 75th birthday. In his delightful autobiography he describes the forming of the "A. P." which now encircles the globe and his great desire to bring into being a news gathering and dispensing agency that should be controlled by nothing but the single aim to present all the news from day to day as accurately and as completely as possible.

Few men have been as fortunate in seeing the fulfillment of their most cherished desire. The Associated Press grew and developed in a way that must have far exceeded his fondest hopes and Mr. Stone's name is so closely connected with every phase of its expansion that it will remain forever a monument to him as one of the greatest newspaper men of his times.

"The Courant" joins in the congratulations that are pouring in upon him and hopes as do all who know him or know of his great work that he will continue for many years to be, as for many years he has been, one of the country's most distinguished citizens.

New York, April 23.—In honor of Melville E. Stone, for twenty-five years general manager of the Associated Press, the members of that association made their annual meeting here today an occasion for paying tribute to his services. The meeting also was marked by an appeal by Frank B. Noyes, president of the Associated Press, urging the editors to support President Wilson in the prosecution of the war.

To Mr. Stone was presented, in behalf of the board of directors, an illuminated volume entitled "M. E. S." "His Book," a work intended to set forth in permanent form the record of Mr. Stone's service, life and activities. Members of the Associated Press had also caused to be inserted in the book, in loose form, what were described by Mr. Noyes as "very beautiful impressions of steel engravings," being twenty-five \$1,000 Liberty bonds, "millennium milestones, as it were, of each of twenty-five golden years."

### Mr. Stone Expresses Thanks.

Mr. Stone expressed his thanks for the gift of the book and the Liberty Bonds in a voice that trembled with emotion. He told something of the inception of the Associated Press and of a prediction at the time that "a free, self-governing news gathering"

### Resolutions Offered.

C. M. Houssaye of the Agency  
Havas responded.

The resolutions of the board of directors of the Associated Press, which appear in the introductory note to the souvenir book, are as follows:

Whereas, Melville E. Stone, on March 3, 1918, completed a period of twenty-five years as general manager of the Associated Press; first leading with unflagging courage and determination in the battle which freed the telegraphic news service of the nation from control and exploitation by selfish private interests, and with wise enthusiasm and clear vision laboring for the firm establishment of the co-operative principle in ownership and management; then with extraordinary resourcefulness and constructive genius planning and directing the development of a world-wide system of newsgathering and distribution, always with unswerving devotion to the highest ideals of the newspaper profession and the best standards of American citizenship.

Resolved, That a suitable volume be compiled to set forth in permanent form the record of the service of Melville E. Stone, his life and activities as a loyal and public-spirited man; that he be recognized as a man who has a great deal of public value; that he be recognized as an American citizen; his contribution to the cause of liberty and of freedom of speech and of the press be furthered by a clean, responsible, efficient and courageous American journalism; and more particularly his work for and in the Associated Press, to whose character, growth and achievements he has contributed so much of fidelity, industry and inspiration.

Resolved, That upon the occasion of the annual meeting of the Associated Press in April, 1918, a copy of this volume be delivered to each member of the association, and that a special copy, suitably bound and inscribed, be presented to Mr. Stone with due expression of the admiration, gratitude and affection of his colleagues.

The annual meeting of the Associated Press at New York yesterday was given over largely, and very properly, to a celebration of the fact that the occasion rounded out twenty-five years of service for Melville E. Stone, secretary and general manager of the association, and, with all respect to the others who bravely undertook the work with him, the man who made that remarkable organization. Mr. Stone, a newspaperman himself, felt that the newspapers of the country should not depend upon privately conducted, money-making concerns for their news. His idea was that they should co-operate in the distribution of the news that each gathered in its own field and that they should share the expense as well as the news.

There is no division of profits. It is purely mutual, and it is, of necessity, absolutely impartial. Its members represent all shades of opinion and this fact would be in itself a sufficient check on attempts to "use" its service for any other purpose than the plain presentation of what has happened.

When the "A. P." began business it had an uphill fight against the organizations that were selling news to clients accustomed to getting their news in that way. But Mr. Stone's enthusiasm over its high purpose, his tact, his perseverance, and the fundamental soundness of his idea won out. The Association has now over a thousand members and "by Associated Press" is accepted by the public as if it read "by authority." Its agencies are all over the world. It has become an indispensable element in the daily life of the country.

And Melville E. Stone is the man who has made it. He had the satisfaction yesterday of realizing that this is recognized by the press of the country. There are men in America whose names are every day in the papers, men known by name to everybody who reads, but it is safe to say that nobody else in America is personally known to so many people as he is. His acquaintance is world-wide. He has talent that would have made him a leader in whatever work he undertook. In devoting himself to the interests of the newspapers of the country, he has rendered an immeasurable service to the United States.

His broad intelligence, his extensive travel, his unique experiences, his own charming personality and that easy approachability, which

*April 1921*  
Retiring from the general management of the Associated Press after twenty-eight years of service, Melville E. Stone closes an active career which is notable and unique

**The Associated Press.**  
(Waterbury American.)

For nearly thirty years, Melville E. Stone has been the manager of The Associated Press, and one almost thinks of The Associated Press in terms of Stone. All over the world he is known by name as probably is no other newspaperman in the world. The prestige of The Associated Press, its remarkable organization, its readiness for any emergency, are all the work of Mr. Stone. At the age of 72 he, although still an official, retires from active management, a retirement which is more than earned.

Mr. Stone's successor is Frederick Roy Martin, who has been for some years his understudy. Mr. Martin is well known here in New England as for a long period he was the associate editor of the "Providence Journal." He is a Harvard man of charming personality and of first class organizing ability. He served The Associated Press in Europe during the earlier years of the great war. He has been practically the manager of The Associated Press in its home office in New York since his return. He now takes the place which he has really held, relieving Mr. Stone of all onerous duties and carrying the responsibilities of a very exacting office diplomatically and efficiently. A man of 50, Mr. Martin is at his best as regards age and physical equipment for the arduous work ahead of him. When he comes to retire, there will be no question that the clients of The Associated Press can speak of his achievements with the same appreciative praise with which they now speak of the achievements of Mr. Stone.

(Springfield Republican.)

Frederick Roy Martin, who succeeds Mr. Stone, is a New Englander by birth and education. He was born in North Stratford, N. H., in 1871, and graduated from Harvard in 1893. He was for some years assistant general manager and for the past year or more, owing to Mr. Stone's lessening physical strength, has been acting general manager. Mr. Martin has already demonstrated his fitness and capacity in an exacting position.

(New York Tribune.)

Of Melville E. Stone, upon his retirement from active management of The Associated Press, it is more eloquent than many eulogies to say that he was content to be a reporter. There was every temptation in his great power, his control of the largest and most efficient news agency ever known, to editorialize, to propagandize to color facts in accordance with a personal bias. Charges of bias have from time to time been brought against The Associated Press, but have always collapsed.

There is an inescapable human element in reporting and the pursuit of facts is the most difficult and elusive of all hunting. The Associated Press under Mr. Stone has a long and consistent record of painstakingly fair effort to assemble and publish the truth. It is not too much to say that a standard has been set which will influence American journalism for many years to come. It must also be said that no factor has contributed more essential service toward the success of the American democratic experiment than this same spirit of truth telling which Mr. Stone made the ideal and practice of his organization.

Given the truth, false theory cannot long deceive any one. Let the newspapers of the country pursue any other god, and popular government ceases to be a possibility. In the hour of his retirement there is due to Mr. Stone the appreciation of all his countrymen for a high service steadfastly performed.

# MISS ALEXANDER TO MARRY IN WARTIME

Daughter of Mr. and Mrs. C. B. Alexander Engaged to Capt. Arnold Whitridge.

*March 1918*  
Several betrothals of interest to society have been announced.

Mr. and Mrs. Charles B. Alexander of 4 West Fifty-eighth Street have told of the engagement of their daughter, Miss Janetta Alexander, to Captain Arnold Whitridge of the 5th Field Artillery, U. S. A., son of the late Frederick W. Whitridge, who was President of the Third Avenue Railway Company, and Mrs. Whitridge of 16 East Eleventh Street. Miss Alexander is now working for the Y. M. C. A. in France, where Captain Whitridge has been since last June.

Miss Alexander is a member of the Colony Club and is a sister of Miss Mary Crocker Alexander and Mrs. Winthrop W. Aldrich.

Captain Whitridge, who is a brother of Mrs. Charles E. Greenough of this city, was graduated from Yale, class of '13, and also studied at Oxford University. He was at Oxford when the war began and joined the Royal Field Artillery. He served in the battle of the Somme, and in April, 1916, received the Military Cross. The decoration was bestowed for his having directed the fire of his battery during a hot period of the fighting from a forward observation station, with the German trenches only 100 yards away.

In January a year ago he returned to New York, shortly after the death of his father, to look after the interests of his family. He was on his way home from the front when he received word of his father's death. Upon the entry of this country into the war, he joined the American Army, and went to France last June.

The engagement of Miss Alexander adds another to the list of prominent society girls who have become engaged while in war relief work in France. Miss Ethel M. B. Harriman, daughter of Mrs. J. Borden Harriman,

Announcement has come to this country of the marriage of Miss Janetta Alexander, daughter of Mr. and Mrs. Charles B. Alexander of New York, and Captain Arnold Whitridge, of the Fifth Field Artillery, U. S. A., in France, son of the late Frederick W. Whitridge and Mrs. Whitridge, also of New York, which took place in Paris. The ceremony was performed in the presence of a few friends in the American church, Bishop Brent of the Philippines officiating. Mrs. Theodore Roosevelt, jr., gave a reception for the couple at her home, following the ceremony. The captain and his bride will spend his short furlough at Fontainebleau. The bride has been serving in the Young Men's Christian association in canteen work for the past few months. Captain Whitridge, who was graduated from Yale in the class of 1913, was taking a post graduate course at Oxford, when he entered the British service. He served with that army for more than a year with distinction and received the military cross from that government.

The ceremony was performed by the fathers of the bride and the bridegroom, both being Episcopal clergymen of the Diocese of Connecticut. In 1916, after his ordination, Mr. Barnett became a curate in St. George's parish, New York. Last autumn, he attracted considerable notice through his patriotism by his enlistment as a private in the National Army, refusing to consider the commission of a chaplain, which his friends felt that they could secure for him. He is now a corporal in Company C of the 303d Machine Gun Battalion, stationed at Camp Devens. The bride was graduated from St. Margaret's School in Waterbury in 1916 and last Thursday she was graduated from the Training School for Nurses at St. Luke's Hospital, New York, where she expects to remain until the end of the present year.

Daniel Durham Maynard of this city sat in the spectators' seats and heard the testimony given in support of his wife's petition for a divorce from him. They were married on August 6, 1908, and they separated on August 20, 1917. Maynard did but little towards her support, the woman told the judge. She had money and they quarreled a good deal because she would not give him money. She conducted a boarding house and the place was broken up when he demanded of the boarders that they pay board money to him. He had threatened her life with a revolver, and had torn her waist from her body. Her husband was supposed to be a professional gambler. A child born of the marriage was taken from the mother's custody by the father. The latter now has the child. Mrs. Maynard said the child had been taught by the father to be abusive to her, and one of the things the father had taught the child to do, was to stick his tongue out at the mother. The judge decided for Mrs. Maynard.

Captain Tozzi Finds Old  
Master Stolen From  
Bologna Gallery.

March 1921

Captain Pierre Tozzi, Italian war hero and artist, who first studied art in this city when he was an errand boy at the Boston Branch grocery, has recovered in New York one of the most valuable of the "Old Masters" that was stolen in 1919 from the walls of the famous gallery in Bologna, Italy. The painting was found in an unpretentious cafe on the East Side in New York and the habitues of the

place had no idea of its history or value. It is said to be the most celebrated of the "Madonna and Child" panels wrought by Francisci de Marco de Giacomo Raibolini, who died more than 400 years ago. He was known to art as Il Francia. Another "Madonna and Child" by the same artist is included in the J. P. Morgan collection and a third hangs in the Metropolitan Museum of Art.

As in the case of the "Mona Lisa," stolen in Paris, there was consternation when the Francia panel, painted on wood and not on canvas, was missing from its time-honored place in the Bologna gallery. The Italian police never obtained any definite clue concerning either the thief or the whereabouts of his loot. Diplomatic and consular officers all over the world were informed of the loss.

The Italian embassy in Washington has been informed of the discovery and the minister of fine arts in Italy has been notified. Captain Tozzi now has a studio at the Vanderbilt Hotel in New York. He said he had no doubt the genuine Francia Madonna had been found. He said it would be necessary to pin the facts in the hands of the Italian ambassador before telling details of how the picture was recovered. It was reported in New York that Captain Tozzi was the first to identify the treasure in its obscure surroundings.

When Tozzi was a small boy he lived here with his family. His father was a cabinet maker. Young Tozzi was an errand boy at the Boston Branch grocery and assisted in painting the placards for the store.

Mr. Flagg told him he should join his class, the Connecticut League of Art Students, which at that time met in the attic of the Batterson building, now the Hotel Garde. This class was so large that the members had an orchestra of twenty-five pieces.

Oscar Anderson, who is now holding an exhibition of his paintings in this city, said yesterday that he was a student in the league under Mr. Flagg at the time Tozzi was in the class.

James Goodwin McManus said yesterday that he took Tozzi out on his first sketching trip, up in the North meadows.

**Resigns as Organist of Center Church After Twelve Years.**  
**MARCH 12, 1918.**

Announcement was made yesterday by the prudential committee of the Center Church that John Spencer Camp, for twelve years in charge of the music of that church, has resigned. Mr. Camp will devote his entire time to composing and to his duties as treasurer of the Austin Organ Company. The committee has accepted his resignation and has adopted resolutions expressing the regret of the congregation at his retirement and their appreciation of his services to the church in the last twelve years. The resolutions follow:—

"After a faithful service of twelve years as organist and choirmaster of the First Church of Christ in Hartford, Mr. John Spencer Camp has tendered his resignation from that office.

"Accepting that resignation on account of reasons which he has made clear and final, the church desires to convey to him and to embody in its records the regret its members and the congregation must feel at the severance of a relationship in which Mr. Camp has commanded the respect

and admiration in contact with his character, his business and gentlemanly conduct in his material as well as his spiritual service of the church.

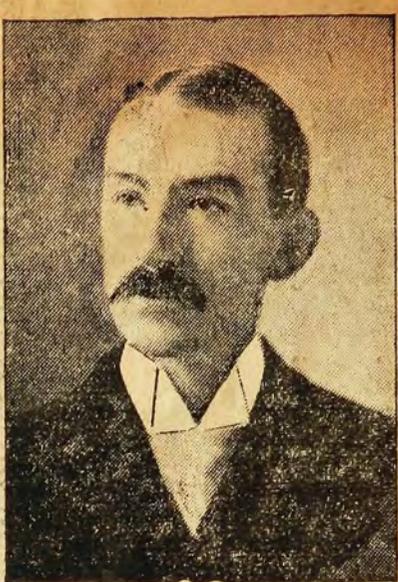

"His regular mid-week sessions with his matrons of time and the clergy in the office will be common work and its appreciation.

"The members desire further to the sense of permanently his uplifting and their affection continued work our common.

Among Mr. works are a Sixth Psalm," and "The Song has also composed them and written string pieces.

In 1906 he was elected president and treasurer of the Pratt & Cady Company, serving with that company for several years. He has been treasurer of the Austin Organ Company for a number of years.

Carl McKinley, a graduate of the Harvard School of Music in the class of 1917 and at present taking advanced study in New York on a scholarship won for writing the best musical composition in his class, will become organist of the Center Church on May 1, according to a decision of the church music committee, of which ex-Governor Henry Roberts is chairman. Mr. McKinley is the son of Rev. Charles E. McKinley who was, for a number of years, pastor of the Union Congregational Church of Rockville and who is at present pastor of a Congregational church in Galesburg, Ill. Mr. McKinley, who succeeds John Spencer Camp as organist of Center Church, would have studied abroad under his scholarship but for the war. He has an unusually extensive training although he is young. He comes to the Center Church highly recommended by a number of musical authorities and critics.

Elbert L. Couch and Mrs. Hubbard, both members of the Center Church choir, will leave the choir soon. It is understood that the music committee has reached no definite decision regarding their successors.

# Hartford's New Fire Alarm Headquarters

Feb. 1919

The new fire alarm headquarters on Pearl street is near completion, and according to Chief John C. Moran the building will be ready for occupancy in the near future, possibly before March 1. The new alarm headquarters will also be used as a house for truck No. 1 and will contain Chief Moran's office.

The building is of reinforced concrete construction, the front being of the stone, the side walls having an outer red brick panelling. The doors and window trimmings are painted green. A driveway on the west side leads to the rear, permitting apparatus to be stored in the basement, which is

large and roomy and contains several partitioned storerooms.

There are two entrance doors on the main, or apparatus, floor. The truck will be stationed on the west side, and the fire alarm truck, the runabout and the chief's car will be on the east side. The entrance for firemen and all others is to be through the small west side door, leading into the watch room. Back of this is a large recreation room for the firemen. In the rear of the building a hose tower is provided for a reserve supply of hose.

A stairway leads from the watch room to the second floor. The chief's office is located on the west side at the front. Twelve individual rooms are provided for the company members, and also a large, and splendidly-equipped bath room, with showers and

all improvements. Two sliding poles run to the apparatus floor.

The third floor, reached by a stairway, beginning at the head of that from the main floor, is devoted to the use of the fire alarm department, with the following equipment: Twenty-circuit main line relay board; six-circuit joker board; six-circuit gong board; forty-two-circuit protector board; two twenty-one-circuit storage boards; manual transmitter for transmitting signals; four five-circuit pen registers; two six-circuit pen registers, and also automatic time and date stamps, a master clock, and a battery room with storage cells furnishing current to the entire system. MRS. HOUGHTON BULKELEY. MISS DOROTHY P. GILLETTE.

Mrs. Houghton Bulkeley, before her marriage Miss Peggy Whitmore, daughter of Mr. and Mrs. William F. Whitmore of No. 46 Highland street, and Miss Dorothy P. Gillette, daughter of Mrs. C. Howard Gillette, of No. 63 Concord street, to-day started their work as members of the Woman's Land Army of America, on the farm of Samuel Russell, jr., in Middletown. Besides the two Hartford girls there will be eight others from various parts of the state, among them being Miss Dorothy Weir of Ridgefield. Although definite tasks have not yet been assigned to the girls, two will operate tractors, two will be put on the dairy squad and six will be farm hands. Mrs. Bulkeley recently completed a short course in farming at the Connecticut Agricultural college at Storrs.

Although Governor Holcomb recognized the assistance which had been rendered the state in its efforts to increase the food supply by women who had engaged in farming operations in Connecticut during the past three months. The recognition took the shape of the presentation of a brassard made of dark blue material, and having the shield and coat of arms of the state printed on it. There were thirty-three women entitled to the recognition, but only twenty attended the ceremonies, the others being prevented from being present by their farm duties in Litchfield county, particularly in the town of New Milford.

Among those present were Richard M. Bissell, president of the Connecticut State Council of Defense; former United States Senator Morgan G. Bulkeley, whose daughter-in-law, the wife of Lieutenant Houghton Bulkeley, who is in France, was the first to receive a brassard for her farm work this year; former Senator George M. Landers of New Britain, Major Samuel Russell of Middletown, for whom ten of the women worked on his farm during the season, and Mrs. Russell.

Governor Holcomb, in addressing the women said that the occasion brought his mind back to the time fifty years ago when he was working on a farm. "A wonderful change"

New York, May 6.—This was the warmest May 6 in the history of the weather bureau. At midday the official thermometer registered 84, breaking by 4 degrees a record established on May 6, 1850.

### Service at Berkeley.

From 1897 to 1903 Mr. Ladd was in charge of the mission church at Berlin, N. H., and he is still canonically connected with the diocese of New Hampshire. For the past fourteen years he has been Coit Professor of Church History at Berkeley. On the death of Dr. Hart in February of last year he was made acting dean. He has been a frequent visitor to England and is in close touch with church life there.

In 1916 he married Miss Ailsie Taylor of London, England, a daughter of Colonel Taylor of the British army, who took the classical trips at Newinham college, Cambridge. Mrs. Ladd has taken an active part in work for woman's suffrage since coming to live in Connecticut.

### As Teacher of Men.

Professor Ladd has long been recognized among the alumni and students of the Berkeley Divinity school for his unusual gifts as a teacher and trainer of young men, and his imprint upon the character and ideals of Berkeley graduates for some years past has been one of the conspicuous elements in the school's service to the church; and the months during which he has served the school as professor in charge have abundantly demonstrated his capacities as an able administrator and executive.

## REV. W. P. LADD INAUGURATED AS DEAN OF BERKELEY

Lord Bishop of Oxford and

GOV. HOLCOMB  
AT CEREMONIES

Dean Ladd Thinks War Will  
Bring New Era of  
Christianity.

Middletown, Oct. 28.

Honored by the presence of church dignitaries such as the lord bishop of Oxford, as well as Hon. Marcus H. Holcomb, governor of Connecticut, Rev. William Palmer Ladd was inaugurated as dean of the Berkeley Divinity School this afternoon at 3:30 o'clock in the Church of the Holy Trinity. The ceremonies were impressive. Delegates were present from various seminaries and institutions as well as the local churches, Berkeley alumni and clergy from this state and neighboring states.

Dean Ladd is the fourth dean that the school has had since it was founded by Bishop John Williams, in 1851. Bishop Williams, at that time also president of Trinity College, organized it as an adjunct to the college in 1851, but three years later the school was moved to this city, where it has been ever since. In connection with today's ceremonies, it is interesting to recall that it is the first time that a Berkeley dean has been inaugurated in this city.

The proceedings began with the entry into the church of the procession of delegates and dignitaries of the church, clad in their academic robes in number about sixty. The bishop of Connecticut, Rt. Rev. Chauncey L. Brewster, was the last to enter and took his place in the bishop's chair in the chancel, from where he presided over the ceremony. Meanwhile the hymn, "The Church's One Foundation" was sung as a processional. After the opening prayer, Dean Ladd made his inaugural address which follows:—

"As the war draws to an end we grow increasingly aware that we are coming to a new era in the life of the nation and indeed in the history of our civilization. The old world into which we were born and in which we grew up, the social, economic and political world of the nineteenth and early twentieth centuries, the world we have been so familiar with and habituated to, is in a state of decline and fall. It is still with us

friendships have been formed and tested and deepened. We face a day of decision. Are we going to build our new national and international politics on the friendship and go on to greater friendships, or on the rivalries and go on to a round of unending rivalry? It is a question. But there ought to be no question as to the church's mind and as to the side on which the whole impact of its influence should be brought to bear.

We have made sacrifices during the war for our allies. We have done it in order to win the war. But when the danger is past and enthusiasm dies down what shall we do? How about the restoration of shattered towns and devastated provinces? How about the war debts of nations which fought for our liberties before we entered the war? Shall our rich, fortunate country come to the rescue as a Christian brother and bear all it can of the common burden, or shall we hug our wealth and draw back into a selfish national indifference to the misfortunes of the old world? What shall the church do to inspire the nation to great adventures in helpfulness, to a chivalrous spirit adequate to the needs of humanity? Now is the time for the church to revive all its traditions, and they are many and glorious, which identify it with works of helpfulness and reconciliation and unification, the time to cultivate that pure religion which is so potent a force in destroying the barriers between nations which ignorance and indifference, sloth, pride, and prejudice so readily and effectively build."

"But today are we not looking for some larger conception of religion than that which has prevailed so widely since the days of Luther and Calvin? In the church as in the nation the need is for something more uplifting and compelling than even the best form of individualism. We seek the conversion of individuals, yes; but how impotent is the converted individual in an unconverted society? Individual penitence, yes; but a collection of penitent individuals will never make a regenerate society, and what we really need is whole nations, cities, communities, churches, penitent, and doing works meet for repentance.

And so we are brought back, are we not? to face the task which confronted the mediaeval church and to desire nothing less than the redemption of society itself. Recognizing that individual redemption can become effective only in a redeemed social order, our ambition can be nothing less than that society itself shall be redeemed. We shall desire to bring our religion to bear on all the social activities of the modern world, and to labor for a new politics, a new trade, a new industry, a new art, literature, and science, permeated through and through with the Christian ideal. The mediaeval church made many mistakes, and it never frankly faced its task.

"The secretary of the school, Charles E. Jackson, then read the record of the trustees confirming the election of Professor Ladd as dean. This was followed by the delivery to the new dean of the keys of the school buildings by the president of the board of trustees, Bishop Brewster. When this ceremony was concluded greetings from the Berkeley alumni were conveyed by Rt. Rev. E. S. Lines of the class of 1874, president of the Alumni Association. Rev. Theodore Sedgwick of Calvary Church, New York, class of 1890, read the following letter to the dean from Rt. Rev. Daniel S. Tuttle, presiding bishop of the church.

This evening the delegates and other guests were entertained at supper in the Deanery, and at 8 p. m. a public meeting was held in Holy Trinity Church at which Rt. Rev. E. C. Acheson presided. The subject of "The Church and the War" was treated by the bishop of Oxford and other speakers.

The program for tomorrow's proceedings will include a conference at 9:30 o'clock on "Opportunities Before the Church," speaker, the bishop of Oxford; and "The Program of the British Labor Party," S. K. Ratcliffe; a lecture at 3 o'clock on "Psychology Applied to Parish Work" by Rev. Dickenson S. Miller, of the faculties of Berkeley, the General Theological Seminary, and Columbia University, followed by a conference on way of making seminaries more directly serviceable to the parishes; and a lecture at 8 o'clock by Dr. Duncan B. Macdonald of Berkeley and the Hartford Theological Seminary, on "The Mystic in the Service of Religion."

The first dean of the school was Bishop John Williams, who for forty-five years remained at the head of the institution which he had founded. Bishop Williams was likewise bishop of the diocese from 1866 to 1899, the date of his death. Dr. John Binney succeeded him and continued to act as dean until 1908, when illness caused him to resign. Dr. Samuel R. Hart, a professor at the school since 1889, succeeded Dean Binney and continued as dean until last year, when he died.

Dean Ladd, the fourth dean of the school was born in Lancaster, N. H., in 1870. He is a graduate of Dartmouth College and has studied widely in England, France and Germany. He likewise has the degrees of M. A. from Harvard University, and B. D. from the General Theological Seminary. He has been Colt professor of church history at Berkeley since 1903. He is at present chairman of the social service commission of the diocese of Connecticut. In 1916 he married Miss Ailsie Taylor of London, England, a graduate of Newnham College, Cambridge, England, and a daughter of Colonel E. T. Taylor of the British general staff, now in service in France. They have two sons.

# This Hartford House Dates Back to 1750

ELM STREET HOME OF SKINNER FAMILY OCCUPIED BY IT MORE THAN CENTURY AND A HALF.

One of the old houses in Hartford to be eliminated by the march of progress which extends Hudson street to the north and across Elm street. In the path of the new street where it intersects Elm street is a fine old fashioned house which has always been in the Skinner family. It was built about the era of 1750 and is owned to-day by Mrs. Robert Beers and her sister, Miss Bessie Skinner. They lived in it in childhood, Mrs. Beers was married to it and the Skinners had lived in it continuously until about twelve

years ago Lewis Skinner, father of the present owners, moved out of it. It was owned by his brother, Thomas Skinner, and left to his nieces. Mrs. Beers and Miss Skinner had planned to move the old house off the lot and save it, but that plan now appears impracticable.

People who have been to Hartford from Holland insist that the lower story is of Dutch brick and likewise the big old chimney. It is quite possible that the bricks were brought up the Connecticut river by the Dutch some years prior to the building of the house. It has no cellar, and the structure rests on solid oak logs, but it is anchored,

almost cyclone proof by a regular old "Santa Claus" chimney, all of 8 by 10 feet, and so large that it has six fireplaces—three on each floor—and a novel place in the upper part where the Skinners for generations smoked hams.

The house retains its ancient interior, finished in old time panelling about two and a half feet wide, the beams and girders of rough hand hewn timbers and the floorings of boards a foot wide. Some years back it had less of a squatty appearance and stood more proudly up on its oak logs as investigation has revealed an old brick pavement a foot or two beneath the soil.

Nurses and Doctors Give Up,  
Miss Agnes M. Ward Remains at Her Task and Her Father, Captain Ward, Says She Will "Stick 'Till the Finish."

Miss Agnes M. Ward.

A Hartford girl has been blessed by the Pope and has been decorated by the allied governments for her valiant service in the war zones. She is Miss Agnes M. Ward, daughter of Captain Michael T. Ward of the Hartford Fire Department.

Of a group of thirty nurses and doctors whose enthusiasm carried them into the Red Cross and so across the Atlantic to stricken Belgium in the early days of the war, she is the only one who has remained, to "stick it out." Her father was averse to publicity of her great service; he said his daughter was averse to it, too, but with pardonable pride remarked that she would "stick 'till the finish."

Those who know Captain Ward will recognize that his daughter in the war zone has her father's courage. Captain Ward, by the way, has been in the fire department thirty years and at present is in charge

more advanced course in special nursing, fitting her for service in the Red Cross abroad. She passed the necessary examination without difficulty and sailed for Belgium in July, 1915. The group of nurses and doctors had contracted to serve for an interval of six months. But many of the nurses soon found an appalling difference between the tales of Red Cross life and the actual experience. And gradually they dropped away, until Miss Ward alone remained.

Often she heard the distant thunder of the guns. The windows rattled and the mangled poilus within smiled, according to her letters. And perhaps the following night or day another stream of maimed humanity would flow into the ward. The six months at LaPanne soon passed and she renewed her service for another half-year. At the expiration of this latter interval she traveled across France to Paris, and there joined the American Ambulance Corps. But the American government took over this unit, retaining its members for the duration of war, so that she is still there. She is now at Neuilly, six miles from Paris.

She writes little of her life there. There is an occasional reference to trivial incidents but to nothing more important. At LaPanne, she spoke of the German bombardment of Dunkirk, of the whining flood of shells that curved above the hospital. Once, she wrote, a shell burst near the hospital grounds, and the building trembled. No one was injured, though, she added.

In the summer of 1916 she received a month's leave of absence. With two other nurses she went from Paris to Rome. There she obtained an audience with the Pope.

of engine company No. 11, on Sisson avenue.

The Pope granted Miss Ward an audience in Rome, during a vacation, and conferred his blessing upon her for her devotion.

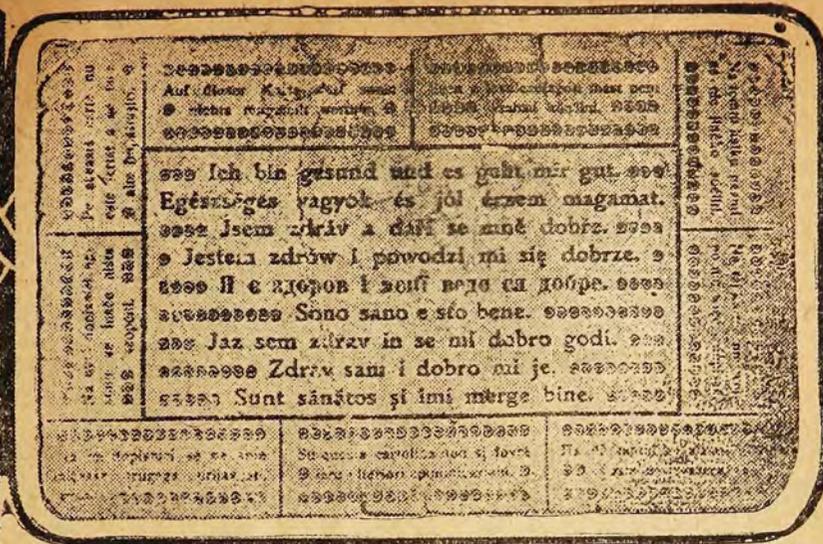

Thomas E. Ward, a brother of Miss Ward, is employed in the local office of Richter & Co. He leaves Hartford for Camp Upton, at Yaphank, N. Y., May 25. Another brother is also in service.

Miss Ward was graduated from St. Francis's Training School in this city and then went to New York. She took a post graduate course at St. Vincent's Hospital there, then a

### Suggestions for Improving the Throat.

When the skin of the neck is rough and dark from years of neglect, it requires vigorous treatment with hot water and flesh brush to curry it into condition. The usual bath mitts, or Turkish towel hands, will prove satisfactory in ordinary cases, but not in those where the skin feels like and resembles a piece of emery paper. This yields in time to the flesh brush, which must be used with discretion, so that the currying process not only clears the skin, but stimulates the activities of the underlying

says that the new railroad station in that city is to be opened for travel on Monday, tomorrow, at 5:30 o'clock, a. m. The paper relieves some apprehension when it explains that the wooden outfittings, now attached conspicuously to the building, are temporary and will be replaced by iron and cement. There are people still actively alive who remember when the station in New Haven was where the railroad tracks go under Chapel street. The cars were reached by going down stairs into a dark hole, where dirt and pickpockets abounded. It was a byword for the disagreeable. But, as soon as a passenger reached the upper air and the street, there he was right in the midst of the local bustle, such as there was in those quiet days. It seems safe to say that, if they had electric lighting in those days and the underground station had been brilliantly illuminated, its abandonment would have been protested against instead of welcomed.

a quick lunch room where you give your order and are served before you have time to change your mind. The lunch room will face Union avenue and will be 24 by 63 feet. But this is to be a regular up-to-date station, so we are going to have a dining room on the second floor of the building. Here will be a dining room that will rival those of modern hotels. It will be commodious, it will be substantially furnished, it will be made as cosy and as comfortable for the diners as experts in those things can make. Here will be where folks will go for a regular meal to be eaten in comfort and without thought of the train leaving in three minutes. The kitchen from which service will be given to this dining room, will be adjacent to the dining room and will be a model of its kind.

This dining parlor will be one of the attractive features of the building. But another novel wrinkle in the construction of the building is a room set apart at the west end of the station where a physician will have his office and where emergency cases will be treated by him.

The baggage and telegraph rooms will be on the track side of the station and will occupy a space 25 by 54 feet. The baggage room here will be for checking purposes only. The baggage room proper is to be located in an adjacent building, which, as stated, will be one of the additions to be erected at the ends of the present structure.

The office of the station master will adjoin the telegraph office facing the tracks. The concourse will, of course, be on the track side of the building and will be 15 by 25 feet. There will be elevators for freight and passenger

business at each end of the building. The third and fourth floors of the building are laid out for office purposes.

At the present time many offices of the railroad company are located in buildings in the center of the city. For instance there is a large brick building in old Union avenue, formerly occupied by the Connecticut company which is now used by the steam railroad. The railroad company also leases a large part of a business block in Crown street where another department in which many girls are employed, is located. The two upper floors of the new station building will not, however, supply sufficient room for the housing of all the railroad people now quartered in leased accommodations. It is the hope of the managers of the railroad that some day they may have money enough to add sufficient floor space to this depot building to bring all of their working staff, not in the "yellow" building and the old office in Water street, under one roof and that roof the roof of the new station. It may not be so many years before this is done, for the dream of a ten-story building on the site may yet come true.

Taken all in all this station is pleasing to the eye and it makes an equally good impression from either the street side or the track side.

In connection with the opening of the station the track work involved is also finished. Passenger trains have for a long time been using practically the same rails they will use when the new station is thrown open, so there remains but little of this part of the great change to be completed.

Persons leaving the station to board

east bound trains will walk through a subway, so-called, which will carry them under the west bound tracks and bring them up to the long concourse where they will board east and north bound trains.

The general contractor in charge of the work is the Thompson-Starrett Co. of No. 49 Wall street, New York, and the concern has been especially fortunate on this contract in that no labor troubles have occurred materially to check progress on the structure.

#### The Classification Yard.

In comparison with the character and the volume of business handled, the new classification yard at Cedar Hill will rank with the great railroad yards of the country. The plans for the yard were drawn with the idea of increasing and improving the service on the New Haven so that it will fully meet all demands of the traveling public and the commercial interests of the territory it serves. The road will be able to handle the peak load of freight traffic without delay or congestion, for this yard will relieve main terminals of much of their present burden.

The essential purpose of this huge undertaking is to receive trains from all routes entering New Haven, said trains made up of cars destined to all points on the New Haven railroad. In this yard the cars will be sorted out and made up into trains for their destinations. All trains will leave this yard in station order for all the important destinations. Many of them will, of course, be made up as through express trains for the more important commercial centers. Overcrowding at the road's gateways, and at terminals where cars have heretofore been shifted and

classified, will be overcome by this arrangement and such overcrowding has been the main cause of restriction and delay in freight movements on the New Haven system.

Freight jams at various points on the New Haven system occurred for years. Freight yards at the gateways and at numerous terminals within Connecticut and Massachusetts were built and then enlarged for many years, but as business grew the same old trouble arose and embargoes were the order of the day on this system long before the unprecedented war conditions imposed certain restrictions on the movement of many commodities usually carried by railroad.

Despite all the money spent in this way the improvement was only temporary. Finally the railroad people decided that revolutionary methods of handling freight in New England had to be evolved. The Cedar Hill yard is the result. Trains now will be run straight through from their originating points to Cedar Hill. Here the cars will be sifted and shifted and sorted and from here they will be sent out again to the gateways, if westbound and to the minor terminals and freight yards if carrying goods consigned to New England points.

The new yard will be what railroad men call the hump type, a type new to New England, but used to some extent in the west and, it is said, on the great Pennsylvania system.

There will be two distinct sections of the yard, one for the east bound and northbound traffic and the other for the south and westbound traffic. The first cluster of tracks will be the

Washington, May 11.—A nation's unity tomorrow in reverence and in homage to motherhood was asked tonight by President Wilson, in a Mother's Day message to the American people.

"All along the road were hundreds and hundreds returning troops who gazed in amazement at the women. We were absolutely the first women to enter the Ardennes. It was a funny procession. One Ford and three big F. I. A. T.s. And those roads and that country! Shell holes, barbed wire fences, dead horses and endless graves.

Helmets were strewn everywhere, and not a living thing in sight but the crows! The horrible sinister crows! How I shall always hate them after having seen them at work on the ravaged blood soaked fields of stricken France. The land hereabouts contains much chalk and is white desolation, as the grass does not grow again here as it does below Chalons. My God! it was awful, and those crows! One could not actually see dead human bodies, but one could smell them every once in a while, and there was always that black flock at their sinister work.

"At Vouziers, we stopped for a few minutes at the Foyer de Soldat where I went in with our drivers to get chocolate. They had gotten over their grouch at having females along, and seemed on the whole to be enjoying it rather than otherwise, or perhaps it was the scandal with which the party was surrounded as we surely did attract attention. In the Foyer, I met a Y. M. C. A. man from Englewood, N. J., who is a cousin of Ruth Conant in Hartford. Sanger is his name. He was very surprised to see an American girl wander in with all the 'froggies,' and we had a nice little talk while the poilus had chocolate.

"From Vouziers on to La Casseine, were roads that defy description. Up till now the roads had been remarkably good, and were nowhere near as bad as those between Hartford and Unionville, and there was no question of our not being able to get through, but after Vouziers, ye Gods! We passed once more through that dreadful city of the crows, stopping once to examine a huge German ammunition depot where we went into some very dressy gougouts with wooden floors and iron roofs, very cosy and nice. # SAPPER BOUCHER VISITS HARTFORD; FLAYS GERMANY

MAY 14, 1918.

Old Fighter Tells "Courant"  
Man of His Interview  
With King George.

Sapper John W. Boucher, 73  
Years Old, Sent Home  
From France When His

Sapper John W. Boucher.

Told by physicians two years ago that he was too old to survive an operation and then told by the King of England that he is the most remarkable young-old man he has ever met, has been the experience of John W. Boucher, brother of Miss Edith Boucher of No. 175 Sigourney street. Although he is 73 years old, and although he served through the Civil War, nevertheless he did not feel that he could sit idly by while democracy was in danger. So, concealing his age from the Canadian recruiting officer, the veteran enlisted in the 257th Canadians, a railroad regiment, and went overseas to do his bit. Eight months he remained on the firing line, until finally his age and war record were discovered, then he was ordered home, but not before a summons to Buckingham Palace and a half hour's interview with King George.

Sapper John W. Boucher's sister fails to see anything remarkable about his military service. When seen by a "Courant" reporter last night she was disinclined to talk of her brother's part in the Great War, seeming apparently to think that anyone who could, should be "somewhere in France." Miss Boucher was seen in the afternoon at Trinity Church, but was too busy with Red Cross work to talk about anything. Last night it was evident that her only thought was to be in the same war swept country that her brother has left.

The Bouchers come of good English stock; their present home is Toronto, Canada. When the children were very young the father died and the boy—of course in spirit he still is a boy—was sent to a boarding school. But when the Civil War broke out in the "States" he dropped books and pen, and without waiting for any maternal sanction, donned the Union blue and marched along against the Confederates with the 75th Michigan Infantry Volunteers. This is all of his Civil War history that his people know; it seems that he did not go back to the Dominion until some time had passed, and then his sister had removed to Hartford.

Boucher next aroused general interest by his participation in the European conflict.

Although letters received from the man, who is probably the oldest enlisted man that has gone across with any North American expeditionary force, are brief and fragmentary, they still tell of some of the veteran's experiences.

His age was, of course, recognized by the men with whom he came in contact every day. And from his age and a sort of fatherly care that he seemed to have for all his comrades who wore the Maple Leaf he received the title of "Dad." In France and Belgium he went with the railroaders, and according to his letters he has seen many of the atrocities that followed in the wake of the Huns. These he is going to tell about, to present to the American people the contrast between the enemy they were fighting in '61, and the barbarians they are fighting today.

The men who worked with Boucher offered many times to relieve him of some of his duties; they thought a man of his age incapable of carrying the pack that the Tommies carry. But no such thing could happen. He was there to do his part himself, not to have someone else do it. Reports

concerning him that have reached this country say that he answered "present" to all calls to work.

Few can realize the strain under which the soldier of the Grand Army of the Republic lived and fought. After the younger men had heard the sound of taps, they turned to their improvised beds, and slept—slept soundly. Not so the veteran. As is only to be expected, his nerves were more or less worn, and at night he found it impossible to get any sleep. The constant crash and thunder of the big guns made it impossible for him to snatch more than a few winks of sleep at a time.

It was impossible for the secret of his age to be concealed longer. Though he did not look as old as he was, an officer did not have to be especially observant to notice that one man under him was hovering near the promised "three score and ten." Finally the story reached the ears of someone higher in authority and Boucher had to start home.

Such faithfulness could not pass by unnoticed, however. On his way to the ship that was to transport him back to America he was invited to drop in and have a chat with the King of England. Naturally he went, and there he received the commendation and praise from the present ruler of Britannia that his forefathers had received from the rulers of the past.

Laws of heredity are shown sure and infallible by the Boucher story. He could not help running away from school to join the armies that were fighting for freedom fifty years ago any more than he could help enlisting in the present war—at the age of 73 years. His great-grandfather was chief of the engineering staff of the Duke of Wellington, and there are plenty of family heirlooms in the shape of medals and decorations to show how he was regarded by the man who was to make his name immortal on the fields of Waterloo. His grandfather saw service as did his father; his mother was born in India during the days when that province was more or less unsettled. So fighting is in the blood, and it must out. Just as while he was fighting, his sister was longing to go across in some capacity but was doing what she could here with Red Cross work.

Miss Charlotte Isabel Carson, daughter of Mr. and Mrs. Alexander Martin Carson of Sargeant street and Roy Wayland Putney of this city were married at the home of the bride's parents, by Rev. Dr. John Johnstone, pastor of the First Presbyterian Church of this city. The bride was unattended and the best man was Ralph B. Putney, brother of the bridegroom of Pittsburg, Pa. The bride wore a traveling suit of dark blue, with a hat to match. Mr. and Mrs. Putney left for a short wedding trip, after which Mr. Putney will return to Camp Devens, where he is stationed.

## BOB MORRIS IS IN NAVAL RESERVE

Former Trinity Athlete Called As First-Class Seaman.

*May 15 1918*

Robert Seymour Morris of No. 68 Lincoln street, coach of last year's Trinity football team, and one of the greatest all-round athletes, students and campus men that Trinity College ever has produced, goes to New Haven tomorrow for active service in the Naval Reserve, as a first-class seaman. He enlisted at Pelham Bay Park, N. Y., two months ago, but received his call for service only a week ago.

There were few forms of college activity in which "Bob" Morris was not interested. For three years he played at right end on the football team, made the track team, and at graduation was awarded the prize given to the senior most proficient in gymnasium work.

"Bob" was as proficient off the athletic field, as he was on it. In practically all of the class events which were held during his undergraduate days he was one of the committee in charge. Some of these were the Freshmen junior banquet, the sophomore hop, and the junior prom committees. He was also leader of the Glee Club and a member of the college quartet during his junior and senior years on the hill. When the time for graduation came "Bob's" ability to put things across was so well recognized that he was made class day president.

He was a member of the national fraternity of Alpha Chi Rho, and also won the much coveted appointment to the two Trinity honorary class societies, the Sophomore Dining Club, and the senior society, the *Majus* Head.

Although graduated with the degree of B. S. in June, 1916, "Bob" was not satisfied, and so he did post graduate work and received his master's degree. He then entered the employ of the Aetna Casualty & Surety Company as an actuary. He was one of those mainly responsible for the formation of a football team at Trinity last fall, and he showed that he was willing to do more than talk of college spirit by coming out every day and coaching the men in the fine points of the game. Although faced by many handicaps, "Bob" turned out a team which lost only one game and that to Yale by a 5-to-0 score.

He is a member of the University Club of Hartford and of the Hartford Choral Club.

Mrs. Berger is a master in the Society of Arts and Crafts and has been on the exhibition committee of the Boston society for the past four years. She has taken an active part in the recent service organized when the new museum building was opened in 1909 and, besides giving lectures on Mohammedan art, ceramics, pewter, etc., in the regular museum conference courses, she has talked and written on Colonial art, American silver, musical instruments, glass and early American pottery. The last subject was prepared from the collection formed by Albert Hastings Pitkin, now in the Morgan Memorial, and was read in Mr. Pitkin's place at the Metropolitan Museum in January.

MISS ELIZABETH M. GORTON.

Miss Elizabeth M. Gorton, daughter of Mrs. Elizabeth M. formerly of this city, has for several months been engaged in volunteer war work at Washington, D. C., with Mrs. Clara Sears, director of the division on women's work. Miss Gorton has done the war relief work publicity in the churches throughout the city. She volunteered for the work soon after she and her mother returned from a year's trip which included crossing the United States twice in an automobile which she drove herself, a visit to Hawaii, Sandwich Islands, Australia, Japan and other places. Since not allowed to work for Uncle Sam for nothing, Miss Gorton received a salary of \$1 a month. Attached to her salary check for the month was a slip asking what part of the amount she was willing to use for the purchase of Liberty Bonds. Miss Gorton has been on a vacation of a week visiting at the home of Mr. and Mrs. V. C. Brewer of Hockanum.

### A Party of Three.

It seems, according to Colonel McGovern, that his view of the matter is that the president of the Aetna Life Insurance Company sought a little party—a party of three. And the party took place.

"I wanted to see you two" said the senator—still according to McGovern—and then he went on to say these things.

The "Journal-Courier" of New Haven, which had the pole on this interesting conference, so far as the meeting at the Allyn House is concerned, reports the atmosphere of the meeting as follows:—

the parlance of the boy in the war governor was 'sore' at the defeat of his protege, former Mayor Hagarty, for mayor in the city election, and few expected even the friendship of years between the two could survive this ache. Colonel McGovern two days ago was supporting Frank Hagan, a republican candidate for mayor, as he had supported the governor's choice for years, both being Democrats. McGovern was understood during the campaign to have a most indiscreet remark in the office of business of his nephew, Terrence McGovern, which, published in Hartford at the time, was directly responsible, some say, for the defeat. He said he had to Mr. McGovern \$12,000 or three million exactly.

A report is current to the effect that former Senator Patrick McGovern is about to enter the employ of the Travelers Insurance company.

"There is nothing to be said about it at present," was his reply.

Mr. McGovern is said to be probably the largest individual stockholder in the Travelers.

He is no tyro in the insurance business. For thirty-nine years, up to May 18, last, he was with the Aetna Life Insurance company, leaving it on that date. No reason was given at that time for his retirement, and he has since consistently declined to discuss the matter. The same attitude has been taken by President Morgan G. Street Pleasantly Entertain Friends  
at Their Home.

May 21

Mr. and Mrs. Charles W. Holt of  
No. 8 Atwood street happily ob-  
served their silver wedding anniver-  
sary at their home, Thursday eve-  
ning, inviting in a number of close  
friends, but carefully concealing  
from them, until their arrival, the  
real reason for the gathering. The  
rooms were beautified by large clus-  
ters of roses and other cut flowers.  
Music, dancing and a repast were  
enjoyed. During the evening there  
came a telephone message of good  
wishes to the host and hostess from  
friends in Bridgeport; also a card  
from employees of the Connecticut  
Mutual Life Insurance company,  
where Mr. Holt is employed.

Mr. and Mrs. Holt had with them  
their son, Jack, who is at home from  
Dartmouth college. The son offered  
his services to his country about a  
year ago, and he expects soon to be  
called to the service.

New York, May 23.—After pledg-

Loses Fight Against  
Internment.**

Chicago, May 23.—The plea of Count James Minotto, for freedom on a writ of habeas corpus from internment on a presidential warrant, was denied late today by Federal Judge Carpenter.

The judge withheld reading of the decision until 11 o'clock tomorrow, to allow the count to pass tonight with his wife, Countess Ida May Swift Minotto, daughter of Louis F. Swift, packer.

The count's counsel had admitted the government's lawyer's disclosure that the count's father, Count Demetrius Minotto, was born in Vienna, and not in Venice, though the Minotto family is declared to be of ancient Venetian lineage. The count had never denied that he was born in Germany.

"If I ruled in favor of the petitioner (the count), the President of the nation would be powerless to deal with the thousands of men in this country who were born in Germany of parents foreign to Germany," said the judge in delivering his findings. "I believe that the law was devised to include all men born in Germany and raised and educated in that country and who might have all their sympathies with Germany."

The lawyers for the defense protested that the count had not been given a sufficient hearing, but the judge replied that the purpose of the emergency law would be defeated if the President must disclose the facts leading up to an order for internment.

Judge Carpenter declared that if the count should believe himself unjustly dealt with, he would still have recourse to an appeal to the Italian government.

After adjournment of court Count Minotto said: "No matter what the outcome is, I still will be loyal to this country."

It was believed that counsel for Minotto would try to carry the case to a higher court.

**APPEALED TO FEDERAL JUDGE.**

Chicago, May 24.—Internment of Count James Minotto began this afternoon at Fort Sheridan. Judge Baker in the federal court of appeals declined to continue the \$50,000 bond on which the count has been at liberty, and ordered him held until the court hears the case June 12.

**To Federal Court.**

Minotto, a son-in-law of Louis H. Swift, the packer, went to the federal court of appeals after Judge Carpenter in the district court had allowed the appeal.

Twenty years ago Wilbur N. Larkum was wearing the sailor blue in what experts agreed was the best thing in Hartford, the Second Division, Naval Battalion, C. N. G. Today his older son, Newton W. Larkum, will put on a uniform of identical design in Boston, entering the Naval Reserve Force. The Naval Division was formed in 1896 and Wilbur was a charter member and the first boy born to a member of the unit was his son, Newton. Newton is a graduate of the Southwest School. He was graduated from the high school in 1915 and the same year he entered Bates College in Lewiston, Me. A short time ago he enlisted in the Naval Reserve Force and yesterday he was called to the colors, leaving his studies of junior year at college.

Mr. Larkum has another son in the country's livery. This is Kenneth M. of the Sixty-sixth Battery, Field Artillery, now at Fort Adams, R. I. This boy is younger and he carried the city honor flag in the big Liberty Road parade Saturday. The older

vote, he said the vestry desired the  
 rector to realize that the people of  
 the parish would keep the home  
 fires burning, that they would give  
 to the assistant their best aid in the  
 work of the parish, and this not only  
 in financial matters but also in com-  
 munity.

**In Larger Field.**  
 Supporting the motion, Captain  
 Robert H. Greene emphasized the  
 balance of privilege and responsi-  
 bility, which now demanded that the  
 parish should release for work in an  
 larger field the man who had so  
 closely identified himself with the  
 whole field of spiritual work in  
 their own home city.

The resolutions were adopted by  
 a rising vote, unanimously.  
 The vote of confidence in the  
 assistant minister and the pledge of  
 co-operation with him in his work,  
 moved by Henry S. Robinson, and  
 seconded by George E. Buckley, was  
 also passed by a rising vote, unani-  
 mously.

The sermon at the morning ser-  
 vice, to which Dr. Alton referred,  
 was preached from the text: "I am  
 as monger ye as one that serveth." Dr.  
 Miel took occasion during his ad-  
 dress to answer the challenge of the  
 "Idell article in the Atlantic Monthly."  
 "Peter Sat by the Fire Warming

Presentation of the resolutions  
 was made by Dr. Charles D. Alton,

The farm is a forest of fruit trees,  
 just room enough to walk. I should  
 think we saw enough to feed all Den-

Dickinson-Street Bride Receives Orange Blossoms From Her Grandmother in Los Angeles, Cal. Springfield May 25  
One of the prettiest of the week's weddings took place at the home of Mr and Mrs Charles H. Cooley of Dickin- on street last evening, when their daughter, Miss Hazel M. Cooley, be- came the bride of Henry O. Dresser, on of Mr and Mrs Millard Dresser of Manhattan, Kan. The date chosen for the marriage was also the 25th an- niversary of that of the parents of the bride. About 50 friends and relatives were present at the ceremony, which was performed at 6 o'clock by Rev D. Harold Hickey, pastor of Asbury Meth- odist Episcopal church, and at the in- formal reception which followed. The bride chose for her maid of honor Miss Irene Cady of this city, while Mr Dresser was attended by Charles Davis of Boston, one of his classmates at the Young Men's Christian associa- tion college. Miss Esther Hall played the wedding music, the bridal chorus from "Lohengrin" being chosen for the processional.

The bride's gown was of white crepe meteor and georgette, beaded in white. The skirt was cut short length and the long sleeves were of georgette. Her tulle veil, which was made in Dutch cap style, was caught with orange blossoms sent by her grandmother Mrs Hattie J. Humason, from Los Angeles, Cal. She carried a shower bou- quet of white roses and lilies of the valley and wore as her only ornament a crescent pin set with pearls and sapphires, the gift of the bridegroom. Miss Cady was attired in a gown of pearl gray taffeta and carried an arm bouquet of pink rosebuds.

Palms banked the bay window in the living room, where the bridal party stood, and carnations and pink honey- suckles were arranged in profusion, both in the living room and the dining room. All the decorations were car- ried out in pink. Four friends of the bride assisted in serving, Miss Hazel Ring, Miss Marion Witherell, Miss Madeline Kellogg and Miss Frances Hills, all of this city. The bride's gift to her maid of honor was a sil- ver vanity case, while she presented Miss Hall with a gold and enamel pin set in pearls. The best man received from the bridegroom a pair of cuff links.

Mr and Mrs Dresser left yesterday for a short wedding trip, the latter wearing a Pekin blue silvertone suit and a small black straw hat faced with Pekin blue. Before going to Man- hattan, Kan., where they are to make their home, they will spend a few days with Mrs Dresser's parents. Mr Dresser was graduated from the Kan- sas agricultural college in 1914, and from the Young Men's Christian as- sociation college.

Twenty-five years ago yesterday Landlord J. B. Sam Graham and Richard Lambert of Unionville and Harry Bond of this city were these callers, and it was Mr. Bond who made the speech. On the shield was the inscription: "To Mr. and Mrs. J. B. Ryan from Sam, Dick and Harry."

The presentation was at 9 o'clock, an hour early for any Boniface who labors far into the night for the welfare of his guests, and to decoy Landlord Ryan from his ostermoor was a problem for the board of

"On ay 27, 1918, Dr. Twichel, pastor emeritus Asylum Hill Congregational Church, will have reached his eightieth birth-day.

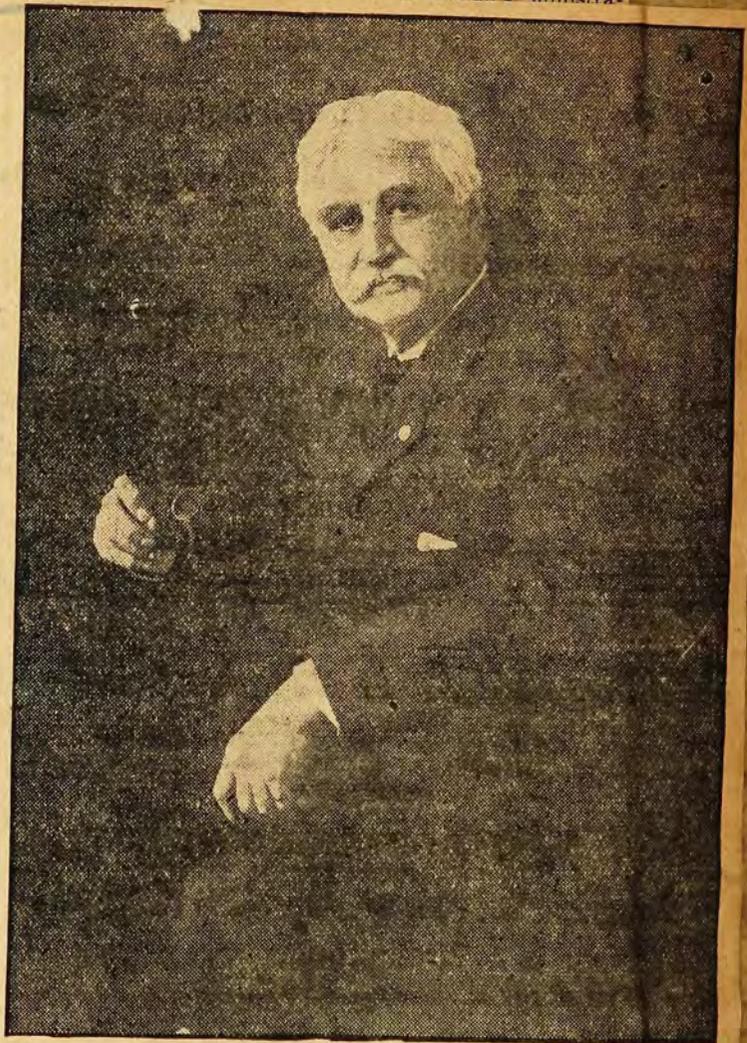

"It is desired to inscribe on the records of the church a minute expressing the significance to its members of this event in the life of one who has been so long their leader. His forty-six years of service completed an active pastorate which has distinguished both the minister and the church. This long term of service makes this occasion one of marked interest to this people, and it is fitting that they should unite in a message of congratulation to their beloved pastor on his attainment of this anniversary.

"There are those among the members of this church who remember the militant chaplain of Civil War times who came as a young man to be ordained as its first pastor. The circumstances are recalled by the recent appearance on the same platform where his

father began his ministry of his khaki-clad son who bears his name, and who is doing his part in this present world-war for righteousness and democracy as a chaplain at Camp Devens.

**Sketch of Mr. Twichell.**

Joseph Hopkins Twichell was born in Southington, May 27, 1838, a son

of Edward and Selina D. (Carter) Twichell. He was graduated from Yale in the class of 1859 and was port stroke in the Yale crew of that year. All of the crew went into the army, "Joe" Twichell as chaplain of the Seventy-first New York, which Dan Sickles, afterward a major general, recruited. "Joe" became a friend of "Fighting Joe" Hooker, for a time commander of the Army of the Potomac, and named one of his sons after that fire-eater. He rode with Sickles in the ambulance after that leader was hit by a cannon ball at Gettysburg and before his leg amputated in a field hospital. He attended the re-union in 1913 at Gettysburg field and met the wife of Longstreet, the famed Confederate leader in whose corps the Pickett, leader of the great charge, commanded a division. He was installed December 13, 1865, as the pastor of the newly formed Asylum Hill Church.

Just prior to that war he was studying at the Union Theological Seminary.

MONDAY MORNING, MAY 27.  
DR. TWICHELL TODAY.

Rev. Dr. Joseph H. Twichell is eighty years old today. It is said that the fine "minute" adopted by his Church yesterday had to be read to his bedside. One can imagine what a scene there would have had he been in the vigor that old friends still associate with Chief Justice Prentice read the eulogy with feeling and a voice that filled the great edifice, and the congregation rose in a body to confirm the document.

Dr. Twichell retired to be pastor emeritus in 1907, which is twenty years ago, and there are not a few in the congregation, who have never known him at all, and a good many who never knew him in his prime when he was easily the most well known and most popular citizen of the state.

Dignified clergyman as he always was, he was "Joe" Twichell to a circle of admiring friends. His ministerial qualities never deprived him of full sympathy with the daily and experiences of his fellow men, and there is no measuring the life he did through the almost fifty years of his pastorate. All who knew him loved and trusted him. Hartford would be today a different city if the circumstances led him to settle elsewhere. Nobody can say what we owe to him and to his dear friend, Parker, for their life labors in the community.

Not the Asylum Hill congregation alone, but all of Hartford will today extend congratulations to Dr. Twichell, and all the thousands who know him and consequently love him will send him the greetings of their sincere affection.

After graduating from Vassar College with honors and Phi Beta Kappa, Miss Leffingwell did graduate work for three years in the School of Political Science, Columbia University. During the year 1917-18, she held a Sutro Fellowship in History from Vassar, which carried with it academic honors and a monetary award. She received the degree of Doctor of Philosophy from Columbia University in June, 1917, and her doctorate dissertation on "Social and Private Life at Rome in the Time of Plautus and Terence," published in the Columbia University Series of History, Economics and Public Law, has been favorably received by leading academic publications. During the war Miss Leffingwell did research work in the Military Intelligence Division, War Department, Washington, D. C., and after the signing of the armistice, was connected for several months with the National War Council in New York in their publicity department. At present she is doing publicity work for the General Board of Promotion of the Northern Convention, which raised more than \$60,000,000 in its financial drive this spring. ### Graduating Seniors Wed Pedagogy School Stu- dents.

*May 29 1918*

The double wedding of Allen Parker of Greensburg, O., and Miss Irene Glasgow of Whittier, Cal., and of Jesse Stanfield of Orange, Cal., and Miss Marion Catlin of Hill, N. H., took place in the social room of the Hartford Theological Seminary yesterday afternoon at 4 o'clock. The brides were students in the School of Religious Pedagogy, and the bridegrooms members of the seminary graduating class.

Mary Groezinger, the little niece of Miss Catlin, and Katherine Lindley, the daughter of Glen Lirdley, were flower girls. The attendants, friends of the brides from the Schools of Pedagogy and Missions, were Kathryn Dunham, Helen Hawkes, Mary Moulton, Margaret Thompson, Carolyn Mackenzie, Mary Kirby, Katherine Hazeltine, Frances Rodgers, Edna Guild and Esther Kemp. The seminary quartet sang the seminary song, "I Am the Soul of Fellowship," and Miss Morgan sang "Perfect Love." The wedding march was played by Harwood Catlin with the violin and Miss Edith Kingman at the piano.

Rev. W. S. Hawkes of Idaho, Contributor to "Courant" Forty Years Ago.

Among the alumni of the Hartford Theological Seminary attending the commencement exercises, is Rev. W. S. Hawkes of Caldwell, Idaho, a graduate of fifty years' standing, who with his wife is visiting friends in this city. Mr. Hawkes, who has many friends in this vicinity, was for some years a pastor in Connecticut and later at South Hadley Falls, Mass. Mrs. Hawkes was graduated from Mt. Holyoke College thirty-six years ago and will attend a reunion at her alma mater.

Forty years ago Mr. Hawkes was a frequent contributor to "The Courant." He is a Civil War veteran and recalls that fifty years ago General Joseph R. Hawley gave an address at Spring Grove Cemetery and Dr. Mayer read a poem. Mr. Hawkes took part in the Memorial Day exercises yesterday.

For some years Mr. Hawkes was superintendent of home missions in Utah and Idaho, but now lives on an Idaho apple ranch which produced ten thousand bushels last year. He is also literary editor of the "Caldwell Tribune," and a member of the corporation that publishes it.

### LIEUT. KILBOURNE

NOW AT FT. SILL

*May 30*  
Lieutenant Aust'n Kilbourne is now at Fort Sill, Okla., as an instructor in field artillery work. He attended a Plattsburg camp a year ago and was assigned to the 101st Field Artillery. Later he was in France and was sent to a French field artillery school. He was with a French battery in the Toul sector. As he is a fluent speaker of French he had additional opportunity for usefulness. He was finally selected for instruction of students at Fort Sill. He is a graduate of the high school and of Yale, in the class of 1911. Lieutenant Orrin P. Kilborn of the Twenty-first Field Artillery, U. S. A., is now in a school for officers in France. He is also a Yale man and a member of Phi Beta Kappa.

Horace O. Kilbourne is in the stock and bond department of the office of the custodian of alien property in New York city. He is associated with Frank P. Garvan, formerly of this city. All three brothers are sons of Dr. Joseph A. Kilbourne of No. 271 Park street.

### THE AMERICAN'S CREED.

The city of Baltimore offered a prize of one thousand dollars for the best summary of Americanism. William Tyler Page, a descendant of President Tyler, and a graduate of the Baltimore public schools, won the prize, and his "creed," brief, but comprehensive and admirable, is as follows:—

#### The American's Creed.

I believe in the United States of America as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice, and humanity for which American patriots sacrificed their lives and fortunes.

I therefore believe it is my duty to my country to love it; to support its Constitution; to obey its laws; to respect its flag; and to defend it against all enemies.

# PROGRESS THEORY IN MINERAL LIFE.

Woolsey McA. Johnson of  
Hartford Advances New  
Scientific Idea.  
Says Ions Are Brought  
From Lowest Step by Ev-  
olutionary System.

JULY 28, 1919.

A new theory of mineral progression and retrogression has been developed by Woolsey McA. Johnson, No. 69 Vernon street, who has recently become widely known on account of his scientific experimental work. This theory is to the mineral kingdom what the Darwinian theory was to the animal, and will, no doubt, create much discussion among scientific men. It at least suggests new lines for experimental work, and may be the forerunner of a new chemistry.

According to an axiom of chemistry an ion is the smallest particle of electricity that has power of motion, and a colloid, the word being of Greek origin and signifying sticker or glue, is the smallest particle of matter that has the power of attracting ions. From these two words Mr. Johnson derives the name of his theory, ionizo-colloidization.

#### Evolutionary Steps.

The theory accepts radium as the highest form of mineral matter and states that ions are brought up from a low plane to the highest through a process of evolution. The theory is based on the fact that in radium the ions are extremely active, while they are less so in lower forms of minerals.

Mr. Johnson believes that his theory will revolutionize chemical experimental work, and is attempting to prove its value by using it in commercial manufacture. He has recently patented a flux for gold, silver, copper, iron and other metals. A flux is a substance which, when added to metals in a molten state, takes up the impurities, forming slag. The fluxes used at the present time do not break up the molecules, of which ions are infinitesimal parts. Mr. Johnson says that by introducing a flux that will break up the ion, metals in the purest form can be obtained from inferior ore. When the ionizo-colloidization flux is used, says the inventor, the metal is cooled suddenly so that the ions will not have an opportunity to recombine.

In a similar manner, according to Mr. Johnson, other minerals in an almost pure state can be obtained. He points out the magnitude of the achievement by saying that every plant and animal needs certain minerals to keep it in a healthy state, and quotes Aristotle, who said, "Play to each plant its favorite mineral-music," to prove that this, at least, is not a new idea.

#### Mineral Correctives.

But Mr. Johnson goes further and declares that many racial characteristics can be traced to the presence of certain minerals abounding in the countries in which the races arose. He believes that nervousness, sullenness and other unfortunate human traits can be corrected by the use of the proper minerals.

Mr. Johnson is so utterly taken up with his new theory that he is basing all of his experiments upon ionizo-colloidization. He has already put several mineral products on the market and is testing out others before offering them for sale.

# P. J. CALLAHAN PARADE MARSHAL. Memorial Day Leader Is Veteran of Civil and In- dian Wars.

Patrick J. Callahan, chosen for marshal of the Memorial day parade, is a veteran of the Civil war and of the Indian campaigns that followed it. He saw seven years of service as a Connecticut volunteer and as an enlisted man in the regular army.

Mr. Callahan enlisted in Company A, Ninth Connecticut volunteers, August 24, 1861, and served with that regiment until it was disbanded in 1864. He had been promoted to be a corporal January 1, 1863, and to a sergeant April 5, 1864. It was in October of the latter year that the veterans of the old Ninth, reduced by losses to a skeleton command, became the Ninth battalion of Connecticut volunteers. The four companies were in the federal service nearly four months after the close of the war, so that it was not until August 3, 1865, that Mr. Callahan was mustered out at Hilton Head, S. C.

### In Regular Army.

For about two years after the war Mr. Callahan was in Hartford, and then he enlisted in the regular army, becoming a member of Company E, Twenty-first United States infantry. It was while with this regiment that he saw fighting in the southwest against Indian tribes, especially the Apaches.

Frequent were the engagements his detail had with bands of Indians as the soldiers escorted wagon trains of supplies from one camp to another. In Arizona at the time were six army posts: Grant, Goodwin, Warren, Crittenden, Lowell, and Bowie.

### Walked 500 Miles.

Sergeant Callahan was discharged from the service at the termination of his period of enlistment, August 1, 1870, and he walked from Tucson, Ariz., to San Diego, Cal., a distance of 500 miles, to secure transportation back to Hartford.

This year's Memorial day marshal is 77 years old. He was born in Ireland. For many years after his return to civilian life, Mr. Callahan

**Paul E. Nilson Will Marry Miss Harriet Julia Fischer in  
Wheaton, Ill., Next Week—Both Going Back to

Paul E. Nilson.

Miss Harriet Julia Fischer.

Paul E. Nilson, who will graduate from the Hartford Theological Seminary this year, will leave here next Thursday for Wheaton, Ill. On June 5 he will marry Miss Harriet Julia Fischer at her home in Wheaton. Miss Fischer has been a missionary in Adana, Turkey, for a number of years, having returned to this country in 1917. Though Mr. Nilson and Fischer are natives of the same state, they did not meet one another until they went to Turkey.

Mr. Nilson graduated from Beloit College in 1911 and immediately became engaged in foreign missionary work. Four years' intimate acquaintance with the Armenians and Syrians in their own lands enabled him to know the situation there. Added to this a knowledge of deportation, massacre and other frightfulness to which the Turks subjected the Armenians and his education seems complete in the ways of war as waged in Western Asia.

When the war began he had been for more than three years teaching in St. Paul's College in Tarsus, the majority of the students of which were Armenians. Though on the main road through Turkey from the north

to the south, the college suffered less than most educational institutions because of the friendship of its head with leading officials. So the school remained open during the first winter, but in daily fear of being ordered to close. Many caravans of Armenians came through Tarsus, being deported from other cities in the south, and the majority of them were in frightful condition.

In May, 1915, an order came for the deportation of the 300 or more Christian families in Tarsus. This order was serious as it would have included some of the college professors and the most influential men in the city. But suddenly without explanation the order was countermanded.

When the U. S. S. Tennessee was sent to take away Americans from Asia Minor in June, 1915, Mr. Nilson was among those who boarded the ship at Mercine, the seaport of Tarsus. After an interesting trip home, which included a stop at Greece for a transfer to a Greek liner, he entered the Hartford Theological Seminary. Mr. Nilson is now working for the American Committee for Armenian and Syrian Relief in Connecticut, lecturing on and organizing the work. This summer he will preach in the Methodist Church at Torrington. He plans to return to Turkey with Mrs. Nilson as soon as conditions are such that he can go.

Washington, June 5.—Dr. Maurice Francis Egan, United States minister to Denmark, has tendered his resignation to the State Department owing to ill health. He was appointed in 1907 by President Roosevelt and has remained at that post since.

The resignation will be effective June 10. Egan had been minister to Copenhagen late last year, and several months on leave.

Minister Egan's lengthy stay in the Danish capital made him a member of the Danish royal family.

**D**R. MAURICE FRANCIS Egan has tendered his resignation as United States minister to Denmark. He has been at that important post in continuous service since appointed by President Roosevelt in Philadelphia May 24, 1907. He graduated from La Salle University in 1878, became professor of English in Georgetown College. In 1881, at Georgetown College, he became a member of the editorial staff of the "Georgetown Weekly."

After travelling extensively in the Southern and Western States he became editor of the "Georgetown Weekly" and afterward of the "Frederick Post." Later he began his extensive literary career as novelist, contributing such stories as "A Garden of Roses," "The Life Around the Tree," and "Christian Parents." His English literature, "A Son," "The Disappearance of a Poem," and other writings have given him wide celebrity. Among his many translations for the "Daly" are "The Disappearance of a Poem" and "The Disappearance of a Poem." Many of Dr. Egan's works have had a strong religious tendency.

A noted feature of Dr. Egan's career in Copenhagen was his episode. Dr. Egan was apparently convinced, he claimed, reached the point when the mountebank exploded late in 1909, and was accepted in Denmark, the American minister advanced the case accepting his assertions at that time.

a son of John H. and Emily Merrill Holcombe. The family traces back to Thomas Holcombe, who settled in Dorchester, Massachusetts Bay Colony, in 1635 and later in Windsor. He is in the same line of descent as Rev. Frederick Holcombe, a founder of Trinity College. One of his ancestors was John Webster, an early Colonial governor. Another was Captain Joseph Wadsworth, who hid the charter in the old oak. His father had been clerk of the House and the Senate of Connecticut.

After attending the High School he entered Yale College, from which he was graduated in 1869. Charles E. Gross and Frank R. Childs were classmates. From his alma mater he received three years later the additional degree of M. A. He has been a warm defender of the Yale faith and few things please him more in life than a triumph of the Blue. He has served as president of the Hartford Yale Alumni Association and is yet a worker, always enthusiastic and dependable for that "unit."

Upon his graduation Mr. Holcombe began his career as an insurance worker in the office of the actuary of the Connecticut Mutual Life Insurance Company. Two years later he was appointed actuary of the insurance department of the state of Connecticut. This place he held for three years.

It was in 1874 that he inaugurated his association with the Phoenix Mutual, as assistant secretary. The following year he was made secretary. In 1889 he was elected vice-president. December 27, 1904, he became the executive head of the company.

Mr. Holcombe has been a lecturer on insurance for Yale College and for Adelbert College, Western Reserve University.

He was president of the Fidelity Company, predecessor of the Fidelity Trust Company, and a director of the American National Bank. He now president of the Mechanics Savings Bank, a trustee of the Fidelity Trust Company, a director of the Phoenix National Bank, the Phoenix Insurance Company and the National Security Company of New York. He is also a director and treasurer of the Hartford Retreat.

Mr. Holcombe is further a fellow of the Actuarial Society of America, a member of the Sons of the American Revolution, the Society of Colonial Wars, the Society of 1812, the Hartford Club and the Hartford Golf Club.

In 1883 he was a member of the city council. In 1885 he was president of the board of aldermen. He has been a member of the city plan commission and the board of finance. January 29, 1873, he married Miss Emily Seymour Goodwin. There are three children, Harold Goodwin, Emily Marguerite and John Marshall, jr.

The Phoenix Mutual was formed in 1851 with Barzillai Hudson as president. Mr. Holcombe's other predecessors were Rev. Benjamin E. Hale, Edson Fessenden, Aaron C. Goodman and Jonathan B. Bunce. Its first policy was to John A. Hale, 31, of Glastonbury, for \$500 for the "term of life." The company began in the editorial rooms of Rev. Mr. Hale, editor of the "Fountain," in a building occupied by Edson Fessenden's Eagle Hotel, near City Hall Square. Later the company rented rooms on the second floor of the building at the southwest corner of Main and Pearl streets. In the seventies the company removed to the second floor of the Connecticut Mutual building. There it remained until 1897, when it occupied quarters in its new building at No. 49 Pearl street.

## DAILY COURANT PRESIDENT HOLCOMBE'S PROGRESS.

John M. Holcombe today joins the very considerable number of able-bodied citizens of Hartford who have reached 70 years of age and are still busy every day about their regular tasks. He is now in the class with President Bulkeley of the Aetna Life, born in 1837, with President Taylor of the Connecticut Mutual Life, born in 1845, and with President Clark of the Aetna (fire), born in 1841. We might go on and mention many others, active and useful (and in some cases actually necessary), on whom seventy years rest lightly. As "The Courant" said the other day, the Connecticut Constitution's provision that compels men to retire from the bench at 70 years is an anachronism. It dates back to a time when men were worn out at that age. Now science has added so many facilities to living that the attainment of 70 is merely an evidence of progress. Imagine applying the state rule regarding judges to all business organizations. "The Courant" joins in welcoming Mr. Holcombe to the class which it entered eighty-four years ago, and trusts that he may always feel as young as it does.

**JOHN M. HOLCOMBE  
REMEMBERED ON  
70TH ANNIVERSARY**

President John M. Holcombe of the Phoenix Mutual Life Insurance Company passed yesterday, the 70th anniversary of his birthday, amid the felicitations of his friends, receiving masses of Ophelia roses, as told in yesterday's "Courant," from the executive force of the company and the employees in the home office.

In the evening Mr. Holcombe was the guest of honor at a dinner at the Hartford Club, arranged by Mortimer Clark Terrill of South Manchester, field correspondent of the company, Vice-President Archibald A. Welch and others. Members of the executive staff and directors of the company were present and congratulatory speeches were made.

In addition to the flowers mentioned in "The Courant," Mr. Holcombe found on his desk yesterday a basket from the directors of the Phoenix Mutual Life Insurance Company.

IN CONNECTICUT**

**J. M. Holcombe Reads Paper to Historical Society.**

**SETTLERS FOUNDED  
PUBLIC SCHOOLS**

**School Fund Started—How  
Trinity and Wesleyan  
Were Born.**

John M. Holcombe, president of the Phoenix Mutual Life Insurance Company, read a paper on "The Beginning and Progress of Education in Connecticut" at the monthly meeting of the Connecticut Historical Society last evening, the attendance being large and interested. In a previous paper he had told about the birth of Yale University and last evening he gave more information about other colleges than his own.

Mr. Holcombe told about an appropriation for a town school in Hartford in 1642 and said that Windsor had school as early as 1856. He told about the bequest of Edward Hopkins and the Hopkins schools of New Haven and Hartford.

He told also about the "New Connecticut" or "Western Reserve." This was in the northeastern part of Ohio and contained 3,300,000 acres. In May, 1795, an act was passed selling land to a company for \$1,200,000. The fund now yields some \$100,000.

Mr. Holcombe reviewed the early history of the Episcopal school in

Cheshire in 1801. In 1823 Washington College was chartered and founded. Hartford subscribed over three-fourths of the endowment of \$50,000. Rev. Dr. Wheaton was sent to England to solicit.

Defenders of Yale were alarmed by the founding of a new Episcopal college in Connecticut. Their view was expressed in an anonymous pamphlet supposed to have been written by R. S. Baldwin and published in Hartford in 1824 in which it was claimed that the college was an instrument of sectarian aggrandizement, a scheme fraught with the seeds of discord and would be a source of feuds. A second college was declared to be unnecessary. Dr. Wheaton answered this and then the unknown replied.

Mr. Holcombe told of the opening of a military academy in Middletown in 1824 and said that in 1829 the school was removed to Norwich, Vt. Methodist clergymen became interested in using the vacant buildings in Middletown and in May, 1831, Wesleyan University was chartered. The institution was opened September 21, 1831, and is the oldest Methodist college in America.

September 10, 1833, thirty-eight Congregational ministers met in East Windsor to consider steps to combat theological views which they believed to be dangerous. The meeting led to the chartering in 1834 of the Theological Institute of Connecticut. The corner stone of a seminary was laid in East Windsor May 13, 1834, and a view later that students should also be practical farmers led along to failure in agriculture.

The theological faculty of Yale published a statement that no reason was ascertained for the seminary. Dr. Tyler, formerly president of Dartmouth, was the first president of the seminary. He continued at its head until 1857. The location was found to be inaccessible. The number of students fell off and it was decided to invite the corporation of Yale to unite the two bodies. This idea came to naught. In 1864 the seminary was removed to Hartford. For fifteen years the seminary occupied three rented rooms in Prospect street, but in 1879, James B. Hosmer gave the hall named after him.

In 1854 the Berkeley Divinity School was chartered. January 19, 1853, a course for students was arranged and three months later the board voted to buy land from the estate of Rev. Dr. Jarvis. The Wright house was bought in 1868 to give increased accommodations.

Mr. Holcombe pointed out that many of the settlers of Connecticut had been educated in great English universities and all were of more than average intelligence. Reverencing the Bible, as the inspired word of God and their guide in life, they naturally desired that their children might be able to read this book, which was one of the reasons for the establishment of schools. Connecticut founded one of the first public school systems in history, before tree stumps had been cleared from the home lots and houses built to shelter the settlers. All the large towns in Connecticut have founded high schools and academies, which are of high character and aim to prepare students for life and for further study in colleges, which themselves were founded as early as practicable.

The paper was discussed by Recording Secretary A. C. Bates and Charles E. Gross.

It was announced today by Secretary Anson Phelps Stokes of the university that only two candidates for the office had been nominated, Mr. McCormick and Major Frederick T. Murphy of St. Louis, Mo., and that Major Murphy had retired in favor of Mr. McCormick. His election is unanimously assured.

The balloting will take place next Tuesday and the result announced at the alumni dinner Wednesday.

Both candidates were formerly Yale football captains. McCormick was graduated in 1893, and his class will return this year for its quarter centennial celebration. Major Murphy was graduated in 1897.

Since graduation Major Murphy has become a leading surgeon and is prominent in the medical profession.

**A Charming New Residence in Lenox Rebuilt Out of Com-  
fortable but Undistinguished Old-fashioned  
Berkshire Home**

From Our Special Correspondent  
PITTSFIELD, May 25, 1918.

Mrs Alfred G. Vanderbilt's new Lenox home sets as naturally and as comfortably into its background as did the former house on the same site, built by the distinguished inventor, the late George Westinghouse. This new summer residence is singularly interesting as an example of what can be done in developing a not very inspiring original into something satisfyingly related to an English prototype much liked in our own as in Colonial times.

The new residence has been re-schemed and remade by the architect from a property which, while it in no way represented the owner's needs, was yet too valuable to destroy. This restriction accounts naturally, for certain features which would hardly have existed in designing a new house of equal size and finish; it accounts also for those accidental and unusual happenings which frequently occur in an alteration and which lend a good deal of charm and atmosphere to the finished work.

was a grand, great house for large entertainments. But the country was at war and it was suggested to her that artisans were needed in the service. Forthwith her scheme was abandoned, and taking a cottage on the property as the base the outcome has been the very attractive "Homewood" which she is now occupying.

There are spacious grounds. Miles of white roads thread their way by graceful turns through the vast sweeps of lawn, dotted here and there with the most beautiful old elms, and now the long driveways skirt and now they cross by massive bridges, an artificial lake, until they reach the handsome white villa which stands half a mile from the entrance on a high elevation of land rising abruptly 300 feet out of Laurel lake. This lake is a mirror which forms the centerpiece in the landscape for a dozen places grouped about it.

Directly across the lake from the villa the Hoosac mountains rise with an average altitude of 2000 feet. October mountain lies empurpled in the evening glow, while on and on the mountains stretch toward the north where 25 miles away Greylock rises over all. From the grounds can be

## MARRIED AT EMMANUEL

Miss Mary Louise Hill Becomes the Bride  
of John Gardner Coolidge, 2d, a Harvard  
1920 Man *June 12.*

Prominent among June brides is Miss Mary Louise Hill, daughter of Major and Mrs. Arthur Dehon Hill (Henriette P. McLean) of 17 Brimmer street, who today was married at Emmanuel Church, Newbury street, to John Gardner Coolidge, 2d., son of Mr. and Mrs. J. Randolph Coolidge, Jr. (Mary H. Hill) of 10 West Hill Place, Charles River Esplanade. The church was decorated for the occasion with palms massed within the chancel and white peonies placed in jars upon the chancel steps and in vases upon the altar. The regular organist of Emmanuel, W. Lynnwood Farnam, contributed to the interest in the event through his programme of nuptial music which he played while guests were assembling for the ceremony, and he played also the usual bridal marches for the entrance of the bridal party and departure of the bride.

Rev. Elwood Worcester, D. D., rector of the church, and Rev. Endicott Peabody, D. D., of Groton, were the officiating clergymen. The bride's father, Major Arthur Dehon Hill, is in France, where he is serving as judge advocate and in his absence the bride was given in marriage by an uncle, on the maternal side, Marshall McLean of New York.

Miss Hill wore a conventional bridal gown of white satin made with full court train and trimmed with exquisite heirloom lace which formerly belonged to her great-great-aunt, Miss Inches of Boston. The bridal veil of tulle was fastened in place with orange blossoms, and a bouquet of lilies of the valley combined with white sweet peas and delicate ferns was carried.

The bridal party, as it entered the church, was impressive, for it included the bridegroom's sister, Miss Eleanor Coolidge, as maid of honor, with five bridesmaids, Miss Julia Lyman, Miss Susan D. Lee, Miss Helenka Adamokska, Miss Alice G. Bremer and Miss Eleanor M. Bremer. All of these attendants were gowned alike in shot green taffeta with which fichus of white net were worn, and their hats of white straw were trimmed with lilacs. Hosiery of silver, with slippers to match, were a part of their costumes. All these attendants carried big

Adams Sherman Hill, brother of the bride, was best man for Mr. Coolidge, and the ushers, twelve in number, were the bridegroom's brother, Oliver H. Hawkins, Lewis G. Adams, Morehead Patterson, A. C. Schermerhorn and Alexander Zabriskie, all of New York; Eric A. McCouch, of Philadelphia, and Nathaniel Sage of Boston, who is a cousin of the bride.

Following the ceremony at the church, a small reception was given by Mrs. Hill, at the Brimmer street residence, in honor of the bridal couple. Just where they will make their future home is as yet undecided, for the bridegroom, Mr. Coolidge, is to enter an officers' training camp in the fall. Two of his brothers, J. Randolph Coolidge, 3d, and Hamilton Coolidge, an aviator, are in service in France. The engagement of Miss Hill to Mr. Coolidge was announced on the last day of April. Mr. Coolidge is of the Harvard class of 1920.

Henry Hunt Clark of the Rhode Island School of Design, was a lecturer at the school, and Robert Fulton Logan, an artist and illustrator from the School of the Museum of Fine Arts at Boston, was the most recent instructor. Mr. Logan had a studio in the Dillon building, devoted much time to landscape work, and labored diligently for the success of the art school. A night school was opened, thus permitting those otherwise engaged during the day time to receive assistance in art work. School children and teachers were taught drawing in the building Saturdays which greatly aided drawing work in the schools.

The art school building was bought in 1910 and fitted up by the society for its school when it was found that the Atheneum would no longer provide the space necessary for the successful carrying on of the work. A caretaker was secured, rooms being fitted for him and his wife on the first floor of the building where also was located the office of the society and an assembly hall. On the second floor was the lecture room and the workrooms of the class in antiques. On the top floor, properly equipped with sky lights for necessary lighting, curtains, etc., was the studio. It was here that the life class worked, living models posing, while an alcove was fitted up for study and work from still models. Women were largely represented in the class which at times numbered more than fifty.

### BABY TREADWAY HELPS

Youngest Subscriber to Red Cross Fund Raised at Columbia Country Club Gives \$10 When She Is Six Hours Old

Special to the Transcript:

Washington, June 17—"Baby Treadway" was the youngest subscriber to the Red Cross fund of some \$7500 raised by the Columbia Country Club Saturday during one of the greatest golf matches ever played on any course. The young lady herself possibly does not know that she was only six hours old when her grandfather, Congressman Allen T. Treadway of Massachusetts received a telegram on the course that she had arrived in New York as per schedule. He immediately wrote "Baby Treadway" for a \$10 subscription, as no one knows her full name. The patriotic mite is the child of Mr. Treadway's only son, Lieutenant Heaton Ives Treadway, who was graduated from Yale, received his lieutenantcy, was married and became a father all within the last twelve months. Lieutenant Treadway is attached to the Ordnance Department and stationed in New York.

## MARKHAM MAKING STRONG CAMPAIGN

### Expect Victory for Democratic Nominee in First District.

The canvass which Alderman John A. Markham, the democratic candidate for the state senate in the First district is making, is encouraging to the candidate and to his friends. Mr. Markham, who is entering his twenty-eighth year, has an aptitude for public life and an intellectual equipment and personal character which make him preeminently fitted to render efficient service in the public affairs of the people. He is a native of Hartford, the son of Judge Daniel A. Markham, a prominent member of the bar of Hartford county. He attended the Hartford Public High school, and was graduated from Wesleyan university in the class of 1917. He made his four years college course in three years. The industry and diligence which he showed as a college student are conspicuous traits of his character.

JOHN A. MARKHAM. . . . .

He is a hard worker and he likes hard work. If he is elected to the senate his district and the entire state will get the benefit of his habits of industry. In 1917 he showed his patriotic enthusiasm in the World war by going to Plattsburg where he gained for the military service of the country. He was commissioned first lieutenant. When he was discharged from the army he entered Yale law school from which he was graduated in 1921, and in the same year he was admitted to the bar. He is Mr. Markham was born in Hartford, November 15, 1894, and has lived in the Ninth ward all his life. He was graduated from the West Middle and High schools and then entered Wesleyan university, being graduated in 1917. He also was graduated from Yale Law school in 1921 and was admitted to the bar the same year. He is now practicing law in this city as a member of the firm of Markham, Arnott & Markham. He entered the service in May, 1917, and went to the officers' training camp in Plattsburg, N. Y., where he was subsequently made a first lieutenant.

On June 15, 1918, Mr. Markham married Alice King Bragaw, daughter of the late Isaac Bragaw. They have two children. Judge Markham, father of the young attorney and prospective aldermanic candidate, is a life-long democrat. Judge Markham was judge of the city court for several terms and also associate judge of the court of common pleas. He has been health officer for Hartford county for about twenty years. Major John L. Purcell, chairman of the Democratic town committee, was one of those who announced himself as well pleased that the democrats of the Ninth ward had induced Mr. Markham to run on the ticket for the office of alderman in the spring election.

The only social or fraternal organization to which he belongs is the Eclectic Fraternity of Wesleyan.

The democrats have an encouraging outlook for success in the First district. Since the district was organized on its present lines in 1903 it has been represented at five sessions by republicans and at four by democrats. The result of the election on Tuesday is likely to make the representation of the district equal as between political parties.

# MRS. TRUMBULL IN HOSPITAL WORK

Mrs. Walter Trumbull, who was Miss Marjorie Skinner, daughter of Colonel William C. Skinner, is now doing hospital work at the old immigration station at Ellis Island. She has been engaged in this work since her husband, who is a lieutenant in the 115th Field Artillery, 39th division, U. S. A., sailed for France to study artillery methods with the advance school detachment.

Mrs. Trumbull finds her work absorbing and is able to make herself of great usefulness to returning soldiers, as every ship that brings wounded into the port of New York lands them at Ellis Island, where they are treated for a few days until they are sent to specialty hospitals.

In a letter to her father Mrs. Trumbull says that she jumped at the chance to do hospital work at Ellis Island because she knew sooner or later she would get some of the boys from her husband's division and get news from them. She has already seen four men from the 26th division, all of whom say that the 26th has the greatest history to its credit of any division in France. It is now in the Lorraine district out of heavy fighting for a while, being gotten together from their brigading with the French and English. Under the system in use the companies brigade with French or English veteran regiments until they have had experience, when the regiment is gotten together again by calling home its four companies.

Regarding this feature of work in France Mrs. Trumbull writes:—

"They have worked up to now with a veteran French or English regiment beside them or an American infantry regiment has been protected by French or English artillery or vice versa. You know a whole division is a whole battle unit—so many regiments of infantry, one machine gun battalion, one trench mortar battery, so many cavalry regiments and two regiments of field artillery and one of heavy artillery, etc. Each division has all the elements it needs within itself and is linked up by its liaison officers—who keep infantry, cavalry (generally dismounted now and used as dismounted infantry) and the artillery who throw the barrages over the infantry—all in touch.

"The 26th has been temporarily withdrawn from the line to reassemble its separated infantry, cavalry and artillery into one piece and as such will go into the line.

"One of the boys was from the 102d infantry and from Captain Emerson Taylor's company. Can't you see what a chance we have to keep in touch? I am the only army woman who works down here and I go into a big ward and the boys come down and just gather all around me when they see me come in. They know I talk their language. Everybody knows that my brothers and husband are in France and in their division and while the other women all work just as hard as I do, they know I am

There's a boy from the 26th over on that corner bed. Here Brown, here's a lady who's got brothers in your division.' Then Brown gets up on his elbow and tells me his regiment and they all come over to listen to him telling me,

### Chance to Do Good.

"We are all the grandest friends and they show me all their trophies and pictures and they like me and love to have me come, and you can imagine how I adore doing any little thing for them. I write their letters and send telegrams and bring them oranges and cigarettes. The Red Cross hasn't any fund for buying those things for returned soldiers, so if you know of any one that wants to make a little donation to a good cause you might tell them to send me their check. Honestly, money couldn't be better spent, as their wants are few—just pitifully few—just oranges and cigarettes and post cards. But we ward workers have to buy ourselves and buying every day for between 200 and 300 men gets a little dear and yet you can't go with empty hands into a ward filled with soldiers broken in health in service to their country."

### No Pay For Seven Months.

Mrs. Trumbull finds that through delays the returned soldiers have not received their pay for seven months. This state of affairs is undoubtedly not an oversight, but due to the fact that the men have changed their locations frequently and the pay due them has not yet caught up with them. It is presumed that the checks have been mailed to them but have been delayed. The hardship entailed on the men is very great and Colonel W. C. Skinner, Mrs. Trumbull's father, said last night that when he goes to Washington today he will take the matter up with the authorities there. It seems that a mere statement of the trouble would lead to its prompt correction. Regarding the unfortunate situation which exists at present, Mrs. Trumbull writes:—

"It is most unfortunate that those who have served in France haven't been paid anything in seven months. There are a large number of such in my hospital. Of course I don't know that those overseas have failed to be paid in seven months, but at least fifty there today hadn't. When the seven months' pay comes in a lump sum it will be wonderful, of course, but today those boys haven't any money—most of them. They don't know how long they will stay at Ellis Island and hesitate to write home for money for fear it will miss them.

"There were three boys there today who were all college graduates. They had just a dollar between them and

 as follows, according to the war de-  
 partment report.—

For extraordinary heroism in action  
 north of Montfaucon, France, October  
 15, 1918. When his men had become  
 almost exhausted by twelve days' con-  
 tinuous fighting against stubborn re-  
 sistance and had suffered heavy casu-  
 alties, Col. Dorey, himself suffering  
 from a painful wound, went forward  
 from his post of command through a  
 heavy enemy barrage to the front  
 line, where he reorganized his forces  
 and directed the attacking units for  
 two days, until he was again severely  
 wounded. His conspicuous bravery in-  
 spired his troops to the successful as-  
 sault of a strongly fortified ravine,  
 and woods which were of vital im-  
 portance and resulted in the capture  
 of numerous prisoners and much ma-  
 terial.

Mr. Gladding responded in  
 words of appreciation and said that  
 he was proud of the school and  
 thanked the teachers and employes  
 for their hearty co-operation during  
 his term of office.  
 It was a pleasure, Mr. Gladding  
 said, to have presented eighty-one  
 diplomas to pupils of the Arsenal  
 district who are now either in the  
 army or navy of their country.  
 The time-piece is of excellent  
 make. On its back is Mr. Gladding's  
 monogram and in the cover the in-  
 scription:  
 "Presented to Curtis P. Gladding  
 by his co-workers in the Arsenal  
 School, June 28, 1918."  
 About sixty teachers and employes  
 were present at the presentation and  
 all expressed deep regret at Mr. Glad-  
 ding's retirement from the district  
 committee. Each teacher and em-  
 ployee shook his hand heartily.

## CHARMING HOME CEREMONY

*Shirazfield.*  
 Interesting Social Event at Mill-  
 Street Residence 29

The home of Mr and Mrs William Wells Tapley of Mill street was the scene last evening of one of the prettiest weddings which have taken place this season when their youngest daughter, Miss Mary Wells Tapley, became the bride of Harold Potter Hubbard of this city, son of Mrs Shannon B. Hubbard of the Chateau. The ceremony was performed at 7.30 o'clock by Rev E. B. Freeman, pastor of the State-street Baptist church, who used the single-ring service, and a reception followed. As the bridal party descended the stairs the wedding music from "Lohengrin" was played by Jacobs's orchestra and the Mendelssohn march was chosen for the recessional. The orchestra also played during the receiving hours.

First in the bridal procession were the ushers, Russell Tapley, brother of the bride, and John Schade Norton of East Orange, N. J., her brother-in-law. They were followed by the maid of honor, Miss Mabel Knight, and the two bridesmaids, Miss Polly Leeds and Miss Elaine Glasgow, and the bride came last on the arm of her father, by whom she was given in marriage. Mr Hubbard was attended by Donald Mitchell Munroe, another brother-in-law of the bride, as best man.

The bride made a charming picture in her gown of white satin Francaise, which was draped with Chantilly lace. The panel train which fell from the shoulders was also of satin. Her tulle veil was caught with orange blossoms and she carried a shower bouquet of white roses and sweet peas with silver ribbons. The dresses of the maid of honor and the bridesmaids were of delicate pastel shades of gros de londre made over flounces of tulle and silver. Miss Knight's gown was of blue and she carried a shower bouquet of Ophelia roses and pink cosmos tied with blue and silver ribbons. The two bridesmaids carried combination French arm bouquets of blue larkspur, yellow poppies and red roses, tied with pink ribbons. Miss Leed's dress was of pink and Miss Glasgow's of yellow.

The decorations throughout the house, which were arranged by Aitken, were of unusual beauty. Two large rose trees of Ophelia roses were

Mr Hubbard and his bride were assisted in receiving by Mr and Mrs Tapley and Mrs Hubbard, Sr. Hughes catered. The gifts of the bride to her attendants were gold mesh bags and Mr Hubbard presented his best man and his ushers with silver pencils. Mr and Mrs Hubbard left by motor later in the evening for their wedding trip, and on their return will make their home during the summer on Mill street. Mrs Hubbard's traveling costume consisted of a blue taffeta dress and a blue hat of georgette.

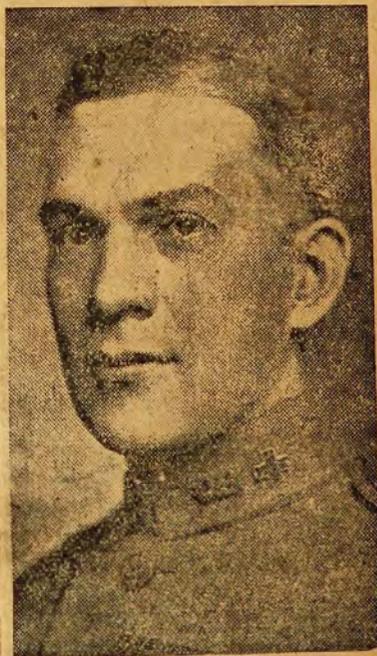

Last evening's bride attended the Walnut Hill school and later the Garland school in Boston. Mr Hubbard is connected with the advertising department of The Daily News. Among the out-of-town guests at the wedding were Miss Grace Potter of Brookline, Mrs George Brewer of Boston, Miss Isabelle Peterson and Miss Elizabeth Dold of Buffalo, N. ## Miss Elizabeth J. Cairns

### Retires After Long Service.

*July 4, 1918*  
Miss Elizabeth J. Cairns, for many years district superintendent of the Washington Street School District and at present principal of the Wilson Street School, has sent her resignation to the chairman of the Washington School District Committee and will withdraw from the work of the district. When asked by "The Courant" last night her reasons for resigning she said that she had simply decided to give up teaching. As to her plans for the future she said that she was undecided just what these would be.

Miss Cairns is one of the best known educators in Connecticut and has been a source of inspiration to the many children who have come under her direction as a teacher. She was born in this city and was graduated from the Hartford Public High School in the class of 1880. She began her career as a teacher in North Wilbraham, Mass. From there she went to the Arsenal School, in 1883. Willis I. Twichell was then principal of the school and Miss Cairns said last night that under him she received much valuable advice in the work of teaching. In 1896 after having served there successfully as teacher, Miss Cairns was made principal of the Washington Street School. While at the head of this school her work was one of solid achievement. The school made rapid progress along educational lines. During the past year she has been principal of the Wilson Street School.

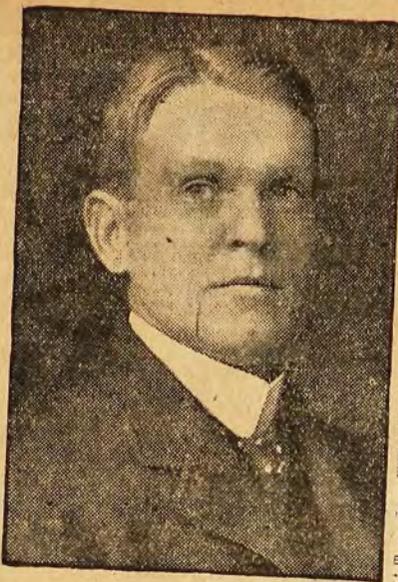

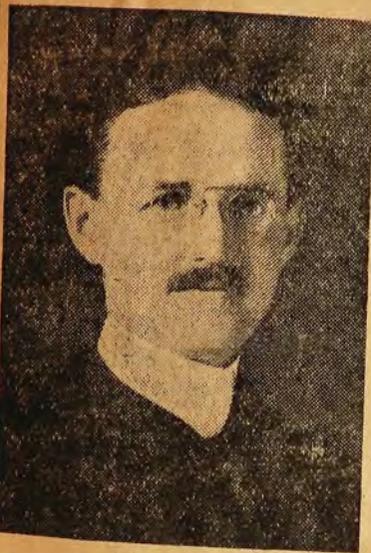

Miss Cairns is president of the State Teachers' League, and has been president of the Connecticut Woman's Council of Education. Two years ago she served with distinction as president of the Connecticut State Teachers' Association, being the only woman president that the association has ever had. She is a member of the Principals' Club, has been president and secretary of that organization and in connection with it, was one of those in charge of the new course in studies made a year ago.

# COLONEL PARSONS TO GO OVERSEAS

Colonel Francis Parsons, vice-president and trust officer of the Security Trust Company, will sail soon from an Atlantic port for the other side of the Atlantic to engage in work for the American Red Cross. He was in New Haven yesterday making arrangements for the attendance of his son at the opening of the fall term of Yale College, but from two sources it was learned that he may be connected with the casualty work in France, sooner or later.

When Rev. Dr. Ernest deF. Miel, rector of Trinity Church, returned to France in February several influential Hartford friends of the Red Cross found opportunity to extend their services to work in Europe, Colonel Parsons being among those who had this opening, but at the moment he was unable to complete his preparations. His plans have now advanced to the final stage.

A high official of Hartford Chapter said yesterday that the usual arrangement is a blanket contract, in which the worker is to be utilized as the actual conditions of the moment and at the point of service dictate and few of the workers are certain at the time of starting from Hartford what their labor in England or France will be.

Colonel Parsons is the only son of the late Major John C. Parsons, at one time head of the First Company, Governor's Foot Guard. He was born in this city and attended the High School, from which he was graduated in the class of 1889 with honor. He was graduated from Yale College in that of 1893, having John T. Robinson as a classmate. He was a contributor to "The Yale Literary Magazine" and has written for magazines of literary standing a number of articles and stories.

For a short time after graduation he was state editor of "The Courant" and later he attended the Yale Law School, being graduated in 1895. His interest in the development of the city led to his selection as a park commissioner. He was interested in banking and his work for the Security Company led to his elevation to his present responsible positions there.

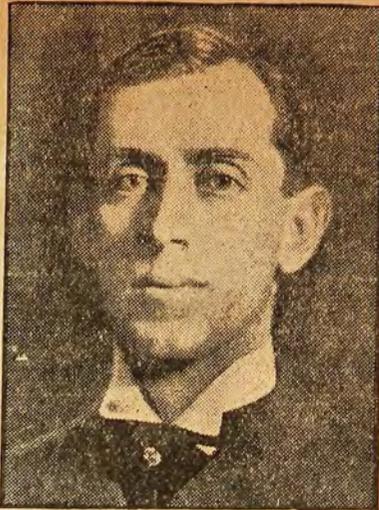

Colonel Parsons was for a time assistant adjutant-general with the rank of colonel. On the formation of Troop B he was a leading member. On the organization of Company B, First Regiment, Connecticut Home Guard, he was its first lieutenant and some months ago he became its captain. Both his inclination for the military and his fondness for Red Cross labors lead him to his coming tasks.

Vice President Francis Parsons of the Security Trust Company, who sailed in July for an English port to work for the American Red Cross in England, writes under date of August 14 to an officer of the bank, telling that he is in a hospital in Pansy, near Winchester, as "private secretary" to wounded Tommies. He has been advanced to the rank of captain.

**BIRTHDAY OF GEORGE V.**

King Recipient of Numerous Messages Expressing Loyalty.

London, June 5.—An unprecedentedly large number of messages expressing loyalty to the throne were received by King George from all parts of the empire on the occasion of his birthday. In addition to the usual official messages many city officials in South and West Africa sent congratulations and the emperor promised support.

At the India office similar messages were received from the viceroy, the council of provincial governments and native princes and the commercial bodies. In these messages many native leaders announced their intention to undertake special recruiting campaigns.

The royal family had already taken their seats. There was a large attendance of official representatives and the vast nave was filled with wounded sailors and soldiers. The special service, which lasted forty-five minutes, included an address by the archbishop of Canterbury.

**TRIBUTE TO KING GEORGE.**

**British Premier Congratulates Monarch and Queen Mary on Wedding Anniversary.**

London, July 9.—In the house of commons yesterday Premier Lloyd George moved a resolution congratulating King George and Queen Mary on the twenty-fifth anniversary of their wedding.

In a long speech the premier paid tribute to the manner in which the king had "faced the gravest issues during a period in which the world has been devastated by the greatest hurricane that ever swept the surface of the globe."

"When ancient thrones are tottering and monarchs are being deprived of their sceptres in other lands," the premier said, "the British throne has become more firmly established than ever on the only foundation that is possible, namely, the lasting affection and good will of the people."

"The war has strengthened the bonds which unite our king and people. At a moment like this, the crisis of the war, the unity of the empire means much, and in this respect the position won by the occupants of our throne is a matter of imperial moment. The stability of the throne is essential to the strength of the empire, for it is not merely a symbol, but a bond of unity."

**King George Thanks Army, Navy and the Sailors on Merchant Ships on 25th Anniversary Demonstration**

Yesterday was the 25th anniversary of the marriage of King George and Queen Mary of England. They participated in a special thanksgiving service in St Paul's cathedral at London, then visited the Guildhall, where a congratulatory address and a gift from the city of London were received. The celebration of the silver wedding throughout the country took the form of the collection of gold and silver articles and money for the Red Cross.

King George, replying to an address by the lord mayor of London, said: "I am greatly touched by the kind reference to the happiness of our married life—a happiness which has been much increased by the un-failing sympathy and affection of our people. We acknowledge with gratitude to God the many blessings bestowed during these years."

"This anniversary falls at a time when the shadow of war lies heavily on the land and when the very existence of the empire is assailed by unscrupulous foes. In this time of trial it is our honest desire to share the sorrows of the people and to alleviate their sufferings."

"While hearts are heavy at the thought of the bereavement and distress which have befallen the nation we have seen with joyful gratitude the whole-hearted response to the call of duty throughout the empire. Here in the presence of representatives of the dominion, the colonies and the Indian empire, I warmly acclaim the noble, self-sacrificing spirit with which our brothers across the sea have given their best in the united defense of liberty and right."

"Through four long years of unceasing conflict the ancient qualities of the British race have shown themselves in innumerable heroic deeds and in dogged endurance which have baffled the enemy's purpose. From visits I have made to the sailors in the fleets and to the soldiers in the armies, I have brought back an ever-increasing admiration for the spirit which pervades all ranks and for their resolution and cheerfulness in all circumstances. What words can express the debt we owe to the navy, which, with unsleeping watchfulness and through every kind of difficulty and danger has protected our shores and has kept open for us and our allies the highway of the sea?"

"What can express our debt to the splendid army, the very flower of the nation, which stood, and still stands, as a wall between us and the fury of our enemies; and to our air force, distinguished by many glorious achievements, and now the third arm of the defense of the empire of which I am proud, indeed, to be general in chief?"

"When we think of the great fighting services, let us remember, too, the unflinching gallantry and determination of the men of the merchant ships who refused to be dismayed by a terrorism hitherto unknown in naval warfare, and the courage of the mine sweepers, trawlers and fleet of auxiliaries which have performed without cessation their perilous tasks."

**TRIP OF KING AND QUEEN**  
 Belgian Rulers Fly Across Channel to Attend Silver Wedding of King George and Queen Mary

King Albert and Queen Elizabeth of Belgium arrived in England in an airplane Saturday to attend the silver-anniversary of King George and Queen Mary, it was learned last week. The king and queen of the Belgians attended Wednesday a concert given by the famous Belgian orchestra which is visiting London.

Speaking at this function, Earl Curzon, member of the war cabinet, said, in his reference to the royal couple: "On Saturday morning they flew over here. They were the first king and queen to descend upon our coast from the sky."

"To welcome our own king and queen on the memorable occasion on Saturday last and to show their sympathy with the wounded sailors and soldiers the king and queen of the Belgians took a short respite from their life of watching and waiting in the angle of Belgium which is still left to them—watching for the next assault of the brutal enemy."

The Belgian king and queen were greeted with great enthusiasm at the concert where thousands of Belgians had assembled.

A royal air escort of three Belgian seaplanes guarded King Albert and Queen Elizabeth on their flight over the channel from Belgium to England, on Saturday morning, which marked a trip for the first time in history that any ruler has made a flight from one country to another. The royal couple traveled in separate seaplanes operated by Belgian army aviators. On the British side of the channel the king landed first near a British warship off Dover. The queen descended soon afterward, her seaplane also landing near a warship.

They started from the Belgian coast and made the trip to England in about 50 minutes. The purpose of their visit to England was to attend the silver anniversary of King George and Queen Mary on Saturday.

This is the first time since the war began that King Albert has visited London and virtually the first time since August, 1914, that he has been outside his native land. Queen Elizabeth was most enthusiastic about the voyage, telling about it wherever she went and whenever anyone asked the details of the trip.

This is the first time in history that any royal personages have crossed the channel by airplane.

# Queen Mary's Wardrobe Institution In Itself

**British Queen Never Tries on Dress—Dressmaker Has Model for Purpose—Insists on Meticulous Observance of Court Conventions—Eldest Son Won't Marry to Suit Her**

**M**ARY, Queen of England and Empress of India, is indeed hedged about with her royalty. Not only does it encumber her as she discharges the elaborate ceremonial of state functions and presentations and as she rides about her business of laying cornerstones of hospitals and charitable institutions and generally conciliating the "people" with glimpses of her majesty, but even in the matter of clothing a most involved routine and ritual must be observed.

Queen Mary never goes to a dressmaker to have her clothes tried on. A model of herself is kept at her modiste's continually, and on this all dresses are fitted, and brought ready to wear to the palace, when the king comes to inspect them. It is the same with hats and shoes. The duties of the ladies-in-waiting include studying the fashions and making suggestions for new clothes to the queen.

The queen's furs are kept by a fur expert in the palace. Burglars would find great difficulty in breaking into the wardrobe at Buckingham palace or Windsor, for both are protected by a modern electrical burglar alarm. It is necessary, also, to give new passwords day and night to the guards on palace duty.

#### Shoes to Match Costumes

The queen has exactly the same number of shoes, hats and gloves as she has dresses. They are all bought together. A maid is kept only to care for the queen's lace, of which she has one of the most beautiful collections in the world. This maid folds, cleans, washes and darns the lace, which is kept in silk covers and skilfully folded to prevent "cutting."

The queen's dresses are hung in linen bags in great wardrobes in the robing room and are brought out to be examined, brushed and pressed at regular intervals. The queen's dresskeeper is really an expert dressmaker, capable of completely altering the queen's dresses if there be a sudden need. The queen's gloves are stowed away in long drawers with lavender sachets, under chamois leather cover-

The queen wears a great deal, espe-

cially at Balmoral, and visits one or another of the tenant's families daily. The queen adores gardening, and is as proud of the Sandringham gardens as the most enthusiastic horticulturist in England could wish.

In both the country estates the queen's rooms are simply furnished but full of souvenirs—rather too full of photographs, family knick-knacks and trifles for modern taste. Here the queen relapses into the unpretentious, devoted wife and mother, which she is at bottom. She is perpetually worried about the king's health; very particular to advise him as to what not to eat. There are moments of irritability between them, to which each contributes a full share. But the moments of concern for one another are more frequent. The king at the head of the stairs advising his wife not to come too fast up the long flights, which she dislikes (for she is rather short of breath), is a remembered sight with the members of the royal household.

#### Wales Chief Worry

Queen Mary's sole real concern now so far as her family goes, is the Prince of Wales, who is nearly 30 years old and has not yet married. The queen says she does not wish to hurry him to a decision—and indeed she is powerless to do so save by her tender maternal influence. "But I do wish the dear boy would settle down," she often says.

It is a serious problem, if only financially, as to how royalty is to continue to hold its position in these days. During the war the king reduced his income considerably, giving to public charity a portion of the capital which belongs to the crown by English law. And the demands upon the king's purse for charity are increasing instead of decreasing. Also national feeling as well as his own taste, demands that the king must not trade upon his prestige. That is, he must not ask others to subscribe to charitable funds to which he does not give money himself. And he must be the first to pay the tradesmen's bills. Nor has the present king at least ever been accused of conferring a title of nobility for any services but those to the nation, never to his own family.

Yet how to make both ends meet? The problems of royalty in the year of grace 1923 are sterner than the outside world thinks.

# WHITFIELD SOCIETY RESTORES HISTORIC HYLAND HOMESTEAD

(128)  
Many from Hartford Attend  
Formal Opening in Guilford.

MRS. JACOB KNOUS  
IN CHARGE OF WORK

Seventeenth and Eighteenth  
Century Architecture and  
Woodwork.

(Special to The Courant)  
Guilford, July 9.

The ancient Hyland house on Boston Post Road in Guilford, which ancient cooking utensils, the house is unique among the old houses of the state.

The first documentary evidence of the age of the house is found in Guilford land records in a deed of 1719, which states that this was the homestead of George Hyland, where he last dwelt. George Hyland came to Guilford in 1651 and died in 1693. His widow died about 1702, after which the homestead remained in the possession of sons-in-law until 1719, when a grandson, Ebenezer Parmelee, bought it. This Parmelee, boat builder, was the builder of the first town clock in this country, which he made and set up in the tower of the First Congregational Church. To him is attributed the profuse and handsome woodwork which the old house contains. Among the noted descendants of George Hyland, whose name the house bears, are Dr. Andrew Dickson White of Ithaca, N. Y., first president of Cornell University and former ambassador to Germany and minister to Russia, and Lie late Governor Highland Hall of Vermont.

The program this afternoon opened with an invocation by Rev. F. E. Snow, pastor of the First Congregational Church of Guilford. The president of the Dorothy Whitfield Historical Society, Mrs. Jacob Knous of Hartford, spoke words of greeting to the guests, after which Mrs. Elford P. Trowbridge of New Haven gave a talk on old houses. An original poem in blank verse, entitled "The Colonial House," was read by Mr. Snow.

### History of House.

An historical sketch giving glimpses of the human beings which the old house had sheltered in its earlier years was read by the historian of the society, Mrs. Harry F. Griswold, as follows:—

"The roof tree is second in importance only to the human life it shelters. Roll back the years to January 19, 1693. On that long day the name of George Hyland

was the center of Guilford's interest, as it is again today, but for another reason. In an upper chamber, upon a bedstead with curtains, the master of the house day dying. Friends and townsmen gathered about him; Rev. Joseph Eliot, pastor of the town, John Hill, sr., father of the betrothed husband of young Hannah Hyland, William Stone, sr., for George Hyland's worldly affairs were not set in order and the time was short.

"In the hall below, or living room as we would name it today, the family group gathered about the great fireplace and spoke together in the hushed tones of the nearest of kin. George Hyland's wife was there, she that was Hannah Cruttenden; her two married daughters had come with their husbands, Elizabeth and Isaac Parmelee, Mary and Thomas Hall, from their near-by homes. Hannah was there, the betrothed of John Hill the younger, and little Deborah, whose marriage to Ebenezer Hall was seven years in the future. The family group fell into silence as the faint tones of the dying husband and father filtered down through the floor above in unintelligible sound. George Hyland was making his nuncupative will, the skilled pen of the Rev. Mr. Eliot giving it legal form:

"I, George Hyland, of Guilford in ye Col. of Connecticut in New England, being sick and weakin body but of sound memory and understanding, do make this my last will and testament, that the property I have in and to the house and barn and parcel of land were to belong to those 'in whose allotment it shall fall.' The sons-in-law, in their turn, would bind themselves to pay "unto our said mother at or before the first day of March yearly the sum of 45 shillings yearly in meat and bread, corn and a milch cow summer and winter." A written agreement was drawn and signed on January 27, 1701. There is evidence that the 'honored mother' did not long survive and that she was gone before the close of the year 1702.

"And now another group is gathered in the hall, the west front room of our old house. The Hyland estate has been divided into four allotments and the four sons-in-law are about to draw each man his allotment. We may imagine sober, dignified officials of the town conducting the lottery and mayhap one of them has loaned his high silk hat for the drawing of lots. The four brothers-in-law are assembled, their faces full of interest in the outcome for the game of chance has its fascination in any generation, and the four sisters—reflecting the excitement of their husbands. One by one the Hyland sons-in-law advance, each thrusts a hand into the hat, each draws therefrom a number. Now the estate of George Hyland extended from the present boundary on the west to Miss Fannie Griswold's home lot on the east, from the highway, Boston street, on the south, to Union street on the north. The westernmost parcel was drawn by Thomas Hall; the next by Isaac Parmelee; the next by John Hill. Ebenezer Hall drew the easternmost parcel. Thus Thomas Hall became the owner of the homestead in accordance with the Widow Hyland's directions 'without regard into whose allotment it shall fall.'

Collins), 15 to 1, 6 to 1, 2 to 1, second; regarded the four young slaves, Pompey, Moses, Aaron and Candace, children of Montross and Phyllis, it seemed to Madame Naughty not well to set adrift in the world those so incapable of caring for themselves. So by her will of December 14, 1771, Madame Naughty indentured them for life to friends and neighbors. Candace was committed to the care of Mr. Ebenezer Parmelee and Ann, his wife, 'during their lives and after their decease to Ensign Hooker Bartlett and Ruth, his wife,' Ruth Bartlett being a daughter of the old couple and quite possibly a namesake of Madame Ruth Naughty.

With Candace came an ox-cart drawing up at the rear door of our house and laden with household goods bequeathed to the black girl by Madame Naughty. The lean-to chamber must have been well filled with her possessions. There were the bed and bedding and bedstead upon which Madame Naughty was lying when she made her will two years before her death. There were two pillows and other furnishings belonging to the bed. There were a little iron pot, an iron skillet, four pewter plates, two pewter platters, one looking glass, one Dutch spinning wheel, one new great wheel, two pairs shees, two pillow coats, Madame's Callimaneon frock, one white Holland apron, one chest of drawers, Madame's light colored Shallon quilt and broadcloth short coat; also Madame Naughty's trundle bed and bedclothes and bedstead, her large brass kettle and a large pewter bazon, her calico frock, her dark colored Shallon quilt, madame's caps, books, etc., were divided between old Phyllis and young Candace, the latter being then about 22 years of age.

"Let us think of Candace, young, strong, capable, as putting her shoulder to the wheel in the home of the aged Ebenezer and Anna Parmelee. Let us imagine her as remaining with the widow Parmelee after her husband's death in 1777 and until this lady's death in 1789. En-

## Horns, Factory Whistles and Church Bells Spread the Glad News.

The shrill clanging of trolley bells by enthusiastic motormen and conductors, the honk honk of innumerable motor car horns were the first heralds yesterday afternoon of the almost delirious joy with which Hartford was soon to welcome the glorious news of the first big American victory and the knowledge that the "second half" had begun, with session of the through the Ger rush.

# NEW YORK GOES WILD OVER NEWS OF U. S. VICTORY

## Bells Ring, Whistles Blow and Crowds Cheer and Wave Flags.

New York, July 18.—New York city received the news of American victories in France with cheering, constantly increasing of bells and blowing of whistles. An official touch was lent to the general jubilation when the bells on City Hall and Brooklyn Borough Hall were rung for fifteen minutes.

Great crowds collected before bulletin boards tonight. Many of the readers carried small American flags, and as line by line was added to the story of the battle overseas, these flags were waved madly.

Recruiting offices were crowded during the late afternoon and evening.

There was a demonstration of war spirit at theaters and restaurants, while hastily organized jubilees were celebrated at some of the leading clubs. Many of these clubs, including the Union League, were obliged to put on extra telephone operators to answer the flood of questions which poured in from members in the city, at the seashore and in the mountains.

victory. The suggestion was carried out. Pastors "Courant" Wires Busy.

"What are the whistles blowing for?" and "Why are the church bells ringing?" were the questions asked hundreds of times over "The Courant" telephone wires. "A big victory," was the answer which caused the questioner to shout "Hooray." One woman called and asked if the operator would please tell her what the latest war news was. When informed that the French and Americans continued to advance, she said: "Lovely, lovely, isn't that fine. I have three boys over there." And that was the sentiment expressed by the hundreds who were informed by telephone of the success of the American arms.

Added to the din of the whistles and the message from the church bells, was the tooting of automobile horns as the occupants of the cars read the latest bulletins, and the incessant clanging of trolley bells. Smiles of satisfaction, and that expression of "I knew it would come," were noted on the faces of the crowds in front of the bulletin boards. From the youngest member of the crowd who was able to read and grasp the significance of the news which was printed on the bulletin board to the oldest man and woman, there was a feeling that the Yanks and the Pollus had successfully demonstrated that to use a slang expression, "they were all there."

Unable to locate the sextons immediately, it was some time before the bells in some of the churches were rung. Rev. Dr. John Newton Lackey, pastor of the South Baptist Church, called at "The Courant" office after being informed of the good news, and declared that if he could not find the janitor who rings the bell in the South Baptist Church he would ring the bell himself. In its demonstration of the first big American victory, Hartford showed that it is heart and soul with the Hartford soldiers and the soldiers from every other city in the country who are doing their bit in France to uphold the Star Spangled Banner.

C. B. Whittelsey said last night that, immediately after he had been notified of the news, he communicated with the various factory heads, and arranged to have all factory whistles blown twice. The whistles blew for fifteen minutes, and then, a few moments later, blew fifteen minutes again.

The crowd in front of the bulletin board, instead of growing less as the night wore along, increased, and at 10 o'clock, one side of State street in front of "The Courant" building was completely blocked by the eager crowd.

# ABOUT TO GO OVER TOP WHEN NEWS OF ARMISTICE CAME

DECEMBER 12, 1918.  
Lieut. Philip Roberts De-  
scribes Dramatic End of  
Fighting.

The averting of a veritable "Charge of the Light Brigade" by the signing of the armistice and the end of hostilities is told in the following letter from Lieutenant Philip Roberts who, with his men, was about to go over the top, when the news came:—

So much has happened to me the past few days that I cannot begin to write all I want to. But the war ended for me in as dramatic a fashion as any one could ask for. I was in the extreme front trenches a few miles from Montmidy prepared to go over the top in the assault wave against a strongly fortified line of machine guns on a hill.

Months ago at Camp \_\_\_\_\_ I said jokingly that I hoped things would break somewhat in this fashion, that I would get to France, be in the front line trenches for a few days just to see it all and then just as we were all set to go over the top, I wanted a dispatch rider to gallop up from the rear, his horse blood-shot and panting and wave a white flag shouting "Peace." It was almost as good as that. It actually came about this way.

After a week in the Argonne forest, a part called the Bois de Tilly, under as primitive living conditions as North American Indians, we were billeted for one night in reserve in a dismal village called Villers Divant Dun. We there received orders in the middle of the night to go to the relief of a regiment in the line that was meeting with serious resistance. So at 2:30 in the morning, in the foggy chill of the night, we started on the long hike to the front. Corpses along the road, that day-break revealed to us, showed that withdrawal of the Germans had been costly for both sides. After eight hours or so of hiking, we came under artillery fire and just at dusk, we moved up to the front line, under plain observation of a German balloon, and with shells breaking all around us. Our sergeant said it was the worst relief he had ever seen and when we were ordered to do it and how we suffered few casualties as we did, is a mystery to me. At any rate, we moved into a wood, with the Germans about 200 yards off and then relieved the other regiment and "dug in." I made a coffin-like hole for myself. It was so wet and cold that I got out of it and took a chance on the surface. It was muddy truck-tracks so the bushes furnished considerable protection for shrapnel. Communication was very difficult in the darkness, but word came to me to pile all surplus equipment on the ground at 4:30 a. m. to be prepared to go over the top with my platoon at daybreak. No definite objective was given, but the hill

cold, so cold that the water in our canteens was frozen. At 4:30 I cleaned my pistol in the dark, organized the men of the platoon, all of us shivering in the cold, and commenced to pile up blankets and all impedimenta. At 5.15, a runner from the captain came to me and said the attack was postponed and at 9 o'clock we heard that all firing was to cease at 11 o'clock."

## AVIATOR HAWLEY

### MAY RETURN HOME

*March 13, 1918*

Everett K. Hawley, formerly of the firm of Campbell & Hawley, brokers, of Pearl street, who fell 3,200 feet with a balloon at Temple, Texas, Wednesday, sent a night letter to his wife, who is living at No. 219 Kenyon street, Thursday night, the letter being received yesterday morning. Mr. Hawley said in the letter: "Not seriously injured, strained my back and one knee, and hope to be furloughed and returned home. Do not worry. They will take an X-ray picture of my back tomorrow. Am in the Baylor Private Hospital. Doing fine." The telegram was dated from San Antonio, Tex. Mr. Hawley, who enlisted in the balloon service in December, had been flying about three weeks prior to the time of the accident. Mrs. Hawley was preparing to go to Texas, but upon receiving the telegram, decided to await her husband's return.

### Hartford Balloonist Tells His Experiences.

*April 6, 1918*

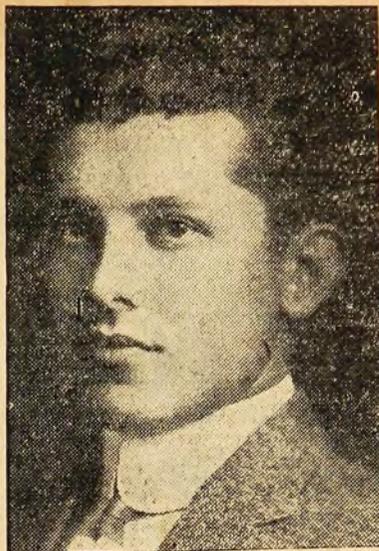

Although still suffering from the effects of a 3,200-foot fall from an uncontrollable balloon, Everett K. Hawley, formerly a member of the firm of Campbell & Hawley, is anxious to get back into service, so that he may go up in the air again. Mr. Hawley reached Hartford yesterday on a thirty-day furlough. The accident in which he got a sprained back and knee occurred at Temple, Tex.

Cadet Hawley, when seen at his home at No. 219 Kenyon street last night, was not too tired to talk of his experiences in the balloon corps and especially of the soul trying moment when the big gas bag, with its crew of nine men, was falling through space. Despite the fact that the accident almost had fatal results, Mr. Hawley does not seem to think much of the serious side of it. He talked only of the humorous incidents which he saw before and after his drop, or, as he says, "before the earth's rise."

Each balloon cadet is required to make one night flight before he receives his commission. In the party along with Mr. Hawley were seven other cadets and a pilot, a civilian, starting from San Antonio at 1 o'clock on the morning of March 13, they prepared the aircraft for the trip through the clouds. By 3 o'clock they had completed all arrangements and were ready to take the air.

After the flight it was decided to make a landing at Waco. The valve, which allows the gas to escape from the bag, was opened to allow the balloon to descend. Only part of the gas was to escape. When an effort was made to close the valve, it was found that it would not close. Several times the pilot pulled the valve rope, but the familiar closing click did not come. Then the captain said, "Boys, we are in for it." They all saw that they were in for it. Down, down the balloon went at the rate of fifty feet a second.

"The balloon carried the regular supply of ballast," Mr. Hawley declared. "We threw out some of the forty pound bags, but we were going down so much faster than the sand, that it flew into our faces and blinded us. So we threw out no more. Seated at the instrument which recorded the altitude, a cadet read the diminishing distance which separated them from the ground. It was rather strenuous." Mr. Hawley admitted "I

To Lecture at Baltimore College of Dental Surgery.

Dr. William E. Boucher of No. 49 Pearl street has been appointed a member of the teaching staff of the Baltimore College of Dental Surgery at Baltimore, Md. Dr. Boucher was an honor man in the graduating class of 1900, which was made up of seventy graduates. **HARRY LAUDER IN POLITICS**

[From the Detroit Free Press]

Harry Lauder, Scottish comedian, minstrel and patriot, announces that he will be a candidate for election to the British Parliament at the next general election. And his purpose is plain when he adds that he will run against Ramsay MacDonald or Philip Snowden, both belonging to what is known as the British Socialist-Labor "pacifist" group.

All who have heard Lauder speak on the war know the intensity with which he opposes those who favor any end to the struggle short of a knock-out victory by the Allies and America. Having lost his only son on the west front, he has entered upon the work of arousing and sustaining the spirit of the Allied peoples with this one end in view—that civilian pressure be prevented from demanding a premature peace. In America, in Australia, in France and in Great Britain he has used his stage work as a means to gather hundreds of thousands of people together for the purpose of swaying their hearts and their sympathies by his undoubted great powers as a preacher.

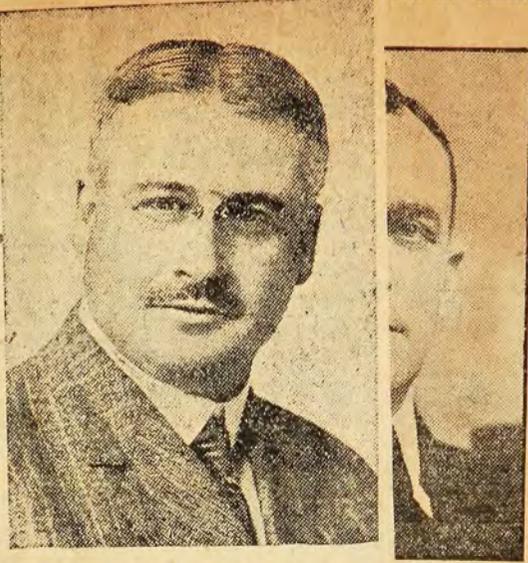

We doubt if any single man has been so effective in this respect as has Harry Lauder. His words have sunk deeper than have the words of any other man or woman who, coming from the front, has tried to make us one with the boys over there. They have moved thousands of people to undisguised, unashamed tears where scores of others, using almost the same words, have failed to excite more than interest.

Why has this been so? What is the basis of Harry Lauder's appeal? It is, very largely, the obvious intensity and deadly sincerity of the man, coupled, no doubt, with the common knowledge of his bereavement. But it is also the consummate artistry of the man, able not only to feel the injustices of the war to the very bottom of his warm Scotch heart, but as well to lay the latter bare to his audiences without any touch of maudlinism or unmanliness.

It occurs to us that all this will prove of inestimable value to Lauder when he runs for Parliament. We do not envy his opponent, however strong he may be in his constituency. Lauder will bring to British politics a sense of reality that cannot help but be refreshing and cleansing. Political contests are too apt to skate on the surface of life and to ignore the deeper emotions. Harry Lauder will see to it that the electorate to which he appeals has a full dose of red-blooded, soul-stirring issues to consider.

Edward M. Day, the well-known lawyer of this city, returned yesterday from Washington, where he has been engaged in Red Cross work since the first of July. Mr. Castle, the head of the department of communication of the Red Cross, was sent to Europe and Mr. Day was called on to take his place. Mr. Castle returned yesterday and Mr. Day at once came home, in accordance with his original plans. He says that the work of the bureau is largely to supply information to people here about the boys over there and that it does a great work in that line for which parents are profuse in expressions of appreciation.

—Harry Lauder is to run for the British Parliament, and why not? There to call a great Scotch comedian has done his utmost a most bit for his country. He gave his details and has worked harder for the cause reported of Britain perhaps than any single private citizen. His contributions in money have been large and his spirit has been willing. captain of the freshman team. He left Princeton without finishing the year, and in the fall of 1915 went to Trinity. There he at once made the varsity team as center, and throughout the season was one of the stars of the undefeated combination captained by Fred Castator, now a lieutenant, and conceded to be one of the best teams Trinity ever had. Breslin's work was especially noticeable in Trinity's victories that fall over Amherst, Williams and Wesleyan, and in the scoreless ties with Brown and Tufts.

At the close of the 1915 season, Breslin was picked by a number of football experts as center on the All-New England team, which excluded only Yale and Harvard. During the season of 1916, Trinity's team was less strong, Breslin being one of the few experienced men returning to college that fall.

#### At First Plattsburg.

When the United States entered the war, Breslin enrolled at once for the first Plattsburg camp, and in August, 1917, was commissioned second lieutenant. He was made athletic officer of the Forty-second (Rainbow) division, then at Camp Mills, Long Island, and was still with that division when he went overseas in October.

Letters received at intervals from Lieutenant Breslin by college friends in this city indicated in substance that war was slightly rougher than

**HARTFORD'S ROLL OF HONOR**

Hartford's Roll of Honor is now in place in the new Municipal Building. The name of every son of Hartford now serving in any branch of the national service is included.

The roll of honor is constructed of rich dark mahogany and is thirty feet in length and placed directly opposite the assessors' office on the main floor of the building. The words "Hartford's Roll of Honor" are inscribed in gold, the effect being very pleasing. The names are posted on the board on typewritten sheets, the section being devoted to men in the army and navy enrolled prior to May 10 of this year. On a separate list are the names of those who have enlisted since that time. The Red Cross workers, Y. M. C. A. secretaries and others in active civilian service are listed at one side of the roll. The roll of honor is decorated with flags representing the allied nations—England, France, Belgium, and the United States. These are on file.

Flags are of beautiful workmanship, the colors being rich in hue and the material of finest silk.

Superintendent Philip Mason invites all those in the city having relatives or friends to come in and see if their names are properly listed. There are between 3,000 and 4,000 on the roll, there may be some slight inaccuracies, and in such case the matter will receive prompt attention.

Several hundred people inspected the "Roll of Honor" yesterday and it is expected that all people in Hartford will take an interest and find cause for pride in their city's splendid showing. Hartford gave 4,000 men in the service of the Union in the Civil War and now a vastly greater number are going forward to "make the world safe for democracy."

vice President Frank P. Furlong of the Hartford-Aetna National Bank is completing his arrangements for sailing for a European port to aid the Red Cross as assistant zone commander in France and, within a few days, he has been handsomely re-broad, membered by friends wishing him success. Mr. Furlong spoke of his desire to visit the company rooms first of all on his return a year from this month. Mrs. Furlong told of her study of music in France and her travel in that land. The visitors sang American airs and the evening was passed with military stories and patriotic music. Mr. Furlong received a handsome camera from friends in the Hartford-Aetna Bank. Vice President Henry T. Holt was in charge of the af- fair. The presentation was informal. Mr. Furlong made a tour of the bank, saying goodby, before starting for the port of departure. A number of gifts were made by friends, individually.

Ten-Page Letter.**

Vice-President Frank P. Furlong of the Hartford-Aetna National Bank, now in Red Cross work overseas, has written to his old friend, Charles B. Dillingham, the New York theatrical manager, and "The Courant" reproduces the letter, uncensored and unexpurgated. F. P. F. and C. B. D. were boys together at Hartford's North End a matter of about two score years ago and their friendship has stood the test of all these years, in spite of the fact that one entered the newspaper business and was graduated into the theatrical field, while the other dabbled in politics and took a post graduate course in banking. They had some military training in Hartford, as both figured more or less prominently in Company K, First Infantry, C. N. G., of which one Winchell (then "Billy") Smith, actor, playwright and producer, was also a member. Here is the Furlong letter to Dillingham:—

Dear Charles:—

Your ten-page epistle bearing date of December 21, reached me a day or two ago. Needless to say that I was delighted to hear from you and to be apprised of all that is going on in America. The only opportunity we have to know what is taking place there is through our friends, in that the daily paper consisting of but a single sheet, only has a few paragraphs of interest.

"It is true the war is over and if I were not "a big boob" I daresay I would be on my way home by this time. I hope to be able to make it in the early spring.

Immediately upon my arrival I will thrust myself upon you and let you see what a big soldier am I.

I will advise you sufficiently early of my coming that you may devote a week or a month in listening to my story. I have enough material stored away in my brain to enable Winchell Smith to write a little war drama for you. I will take care of the music unless John Golden insists.

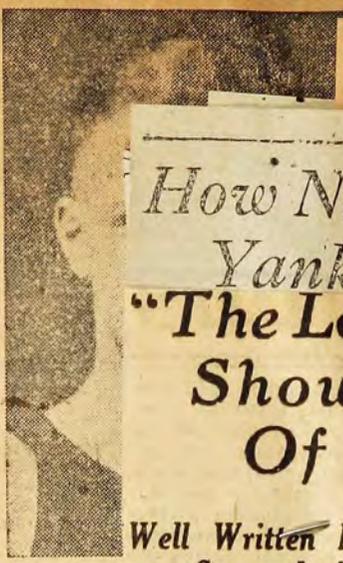

Get out your Barnes' geography and note some of the places where I have been stationed. First, Contrexeville, not far from Vittel, which is famous for its drinking water and conspicuous for its absence of wine—that is, good wine.

THE LONG WAY ROUND, By Emerson Gifford Taylor, Small, Maynard & Co., Boston, \$2.00 net.  
This novel is of special interest to Hartford people, as being the work of a well-known Hartford man; but it may be criticized, without bias one way or the other, as a well written novel, showing sympathetic insight into many phases of life, and a fair degree of skill in dialogue. Its weakness lies, where the weakness of most American novels is to be found, in the thinness of its atmosphere. After all, this fault may lie rather with the subject than with the writer; however ambitious we may be for the fame of American novelists, the fact remains that they are immensely handicapped by the material in which they work. Any trained English novelist, of the third or fourth rank, can convey a sense of ripeness, of a richness of background, and of a certain mellowness in his characters, which even Joseph Hergesheimer, at his best, can only remotely approach in his pictures of life in our country.

EMERSON G. TAYLOR

"The Long Way Round" relates the love story of a young widow, of French and American blood, who is also a painter of eminence; and who, after an early life passed wholly in Europe, comes for a time to the United States. Mr. Taylor's trick of making his heroine, "Suzanne De Sevry," tell her story, at one moment in the first person, and the next in the third, saying, "I did this,"—in one line, and—"Suzanne thought thus,"—in the line following, while it gives a note of originality, very soon becomes wearisome, and is sometimes perplexing.  
There is something wistful in this work of Mr. Taylor's, the same chord that used to be struck in some of the novels of F. J. Stimson, ("J. S. of Dale"). The reader feels the sense of the man of cultivated tastes, loving France is told by Major Taylor in partent and a play.

pictures, and knowing something of them; knowing and loving books; knowing the life of men of his own sort in the great centers of European culture, the life of London, Paris, Rome. He tries to portray the traits of this unformed and chaotic social life of ours in the terms of life in those centers, and it cannot be done.  
One of the best bits in the book is "Suzanne's" comment on the comradeship between men and women in America; it gives the real explanation of many international marriages, marriages which are not of the sort generally accepted as the standard, that of the impecunious nobleman and the American "heiress." The sympathetic reader will find many points of rather unusual interest in Mr. Taylor's novel.

## Miss Baumann, Confined to Sanitarium, Asks for Habeas Corpus

Writ  
Daughter of the Late Gustave Baumann, President of Biltmore Hotel.  
AUGUST 11, 1918.

Miss Elfrida Frances Baumann of New York, 27 years old, who has been under treatment at Dr. Vail's Sanitarium in Enfield, for about one year and a half, was before Judge Edward L. Smith in the court of common pleas yesterday to be heard in support of her application for a writ of habeas corpus to issue. She was committed to the sanitarium by the probate court at Enfield on petition of her mother, the court finding that she was an insane person, as was recited in the mother's application. In the application before the judge yesterday, which was signed by Miss Baumann she recited that she was held in imprisonment and under restraint without color of law or right. The hearing was continued, however, until Saturday, August 24 at 11 a. m., and yesterday Miss Baumann, was by order of Judge Smith, in the name of Dr. Edwin Smith Vail of the sanitarium at Enfield, put in the care of Dr. Whitefield N. Thompson of the Hartford Retreat for study and examination.

Miss Baumann is a tall, attractive girl of fair complexion. Her father, Gustave Baumann, who died about two years ago, was the president of the Biltmore Hotel Corporation in New York, and it was said yesterday that the mother of Miss Baumann is the holder of a large amount of the stock of the corporation, and the belief was expressed that she controls the majority of the stock. The papers to produce Miss Baumann in court were not served on Dr. Vail until Friday afternoon. Miss Baumann is an only daughter, and she has a brother.

It was said that the mother or brother had no knowledge of the habeas corpus proceeding, and the fact that service was not made until Friday afternoon for the hearing yesterday morning at 11 o'clock, though the order of citation was signed early in the week, gave cause for suspicion that Miss Baumann wanted the hearing and without the knowledge of her relatives. She was represented by Benedict M. Holden, who has the rank of brigadier-general at the quartermaster's depot of the United States government at Philadelphia. Judge Bernard P. Gaffney of New Britain, and Edward J. Myers of Mr. Holden's office. Herbert Knox Smith appeared for Dr. Vail against whom the citation for the production of Miss Baumann was issued. Dr. Vail appeared at the court house, accompanied by Miss Baumann and it was at the court house that Dr. Vail met Mr. Smith, the latter having been retained as counsel on Monday afternoon, Judge Smith was told.

## Rare Form of Insanity.

The form of insanity with which it is asserted Miss Baumann is afflicted, is said to be decidedly rare.

### Said To Be Clever.

While Miss Baumann has not an advanced education, it was said yesterday that she is a very clever man and that she is decidedly cunning in her conversation. "I have talked with her for more than an hour, and I know no more now than when I started," said one man. "While she may not be as well posted on every-day affairs as some women, you will not meet many women as clever and smart as she is, but of course that does not altogether indicate a correct mental balance. I would be interested to have you take her to 'The Courant' office for an hour's interview and then to learn what you found out."

The young woman has been under no special restraint at Dr. Vail's sanitarium, it was said. She has been permitted to go and come when she liked, the only provision attached being that she report at the sanitarium at night. There never has been any dispute between her and Dr. Vail. Dr. Vail's position yesterday was that he was not willing that the girl be taken from his custody until the mother and her brother had an opportunity to appear and be heard in opposition, if they desired and his belief was they would oppose the application.

It was agreed by counsel on both sides that the hearing be continued. Dr. Vail wanted it continued that the mother and other relatives of the girl could be not fled, and counsel for the girl wanted it continued that they might have the testimony resulting from the investigation. The fact that Dr. Vail produced the girl in court, put her in the custody of the court and as the plan which the judge adopted, that of putting her in the care of Dr. Thompson, was agreed to, it was further agreed that two additional physicians be named for a study and observation of Miss Baumann with a view to her release.

## FREED FROM SANATORIUM.

Elfrida Frances Baumann Wins—Doctors Say She Doesn't Need Institutional Treatment.

Following an agreement between the parties, by which the granting of the writ was not opposed by the defendant, Judge Edward L. Smith of the court of common pleas this morning granted the petition of Elfrida Frances Baumann for a writ of habeas corpus to obtain her release from the sanitarium of Dr. Edwin S. Vail in Enfield.

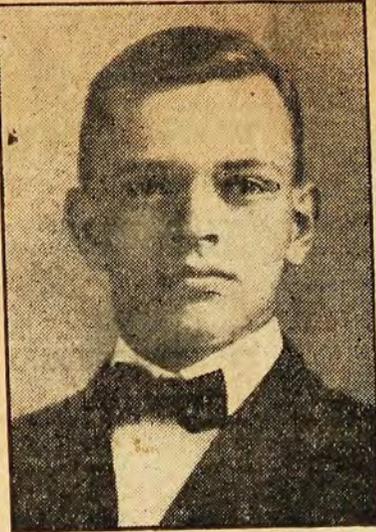

Since the first hearing on August 10, Miss Baumann has been under observation by Dr. W. N. Thompson, Dr. Frederick T. Simpson and Dr. Max Mailhouse at the Hartford Retreat to determine whether she is insane. The doctors' report submitted to-day stated that she "is not insane and does not need institutional treatment," which was the basis of Judge Smith's decision.

The report also explains briefly what the experts consider Miss Baumann's mental condition and recommends that needing oversight and direction, she should voluntarily place herself under such oversight. It was stated that she and her mother are ready to follow this suggestion.

# B. L. NEWTON BUYS SIGHTLY ELPSTONE FOR SUMMER HI

## AUGUST 14, 19 Hartford Man Livin Former Strakoscl House.

Water Commissioner Burt Newton has bought the notable place in New Hartford as Elpstone, one of the most beautiful in its section of Litchfield and a shrine for lovers of music, because of its occupancy by the late Clara Louise Kellogg, prima donna and grand opera. Mr. Newton is living on the place for about a week. The transfer of the real estate was made early in the month by Mr. Newton from the Strakoscl estate. Mr. Newton, Mrs. Newton and their son, Theodore B. Newton, occupy the place for the rest of the summer.

Mrs. Clara Louise Kellogg died at her home, 100 New Hartford, May 13, 1916, after a year's illness. She was a native of New England stock, of English descent, at Stratford, Conn., in 1842. She moved to New Hartford in 1865. She was a pianist and her debut in New York was in 1868. She sang at Stratford, Newburgh and New York. Her public life ended in 1894. The Stratford house was built by her great-grandfather, Edward E. Kellogg, and now owned by the heirs of the late Hiram B. Kellogg. Mr. Newton lives at "Grey-stone" just north of the brick house mentioned. Though a small matter, inasmuch as the statement has been made twice in "The Courant," it seemed well to correct it.

A picturesque war wedding was that of Miss Grace Franklin, daughter of Captain William Buel Franklin, U. S. N., commandant of the Pelham Bay Naval Training Station and Lieutenant William Murray Black, jr., son of Major General William M. Black, chief of engineers, U. S. A., at Pelham, Monday. The ceremony was performed by Rev. Lea Luquer of St. Matthew's Church, in the Liberty room of the Officers' Club, with the assistance of McVickar Haight, camp pastor of the station. The bride, who was given away by her father, was attended by Miss Lillian Kent, as flower girl, and her brother, Colonel Roger Black, U. S. A., just returned from the French front, was best man.

Is at Camp Dix - Will Be Here Next Week.

It was said at the home of Mr. and Mrs. John C. Bulkeley of Walbridge road, West Hartford, last evening that their son, Corporal William H. Bulkeley of the Headquarters Company of the 102d Infantry, had returned from France and was at Camp Dix, Wrightstown, N. J. Corporal Bulkeley is expected to be at his home some day next week. He is among 150 non-commissioned officers of the American army in France who are sent to be instructors in National Army cantonments. These arrived at Dix Tuesday. To assign them for work in the camps for which they will be selected will occupy some time. It will probably be a week or two before all start on the work.

Corporal Bulkeley enlisted in June, 1917. He sailed across in September. He has written that Major George J. Rau's death was caused by a direct hit by a shell and that death was instantaneous. "We lost one of our best officers when we lost him," he wrote.

**Hartford Soldier Returns From Battlefields of France and Tells of German Retreat.** *Aug 19*

Fresh from the battle front in France after ten months of active service, Corporal William H. Bulkeley, of the Headquarters company, 102d United States Infantry, and son of Mr. and Mrs. John C. Bulkeley, of No. 26 Walbridge road, is spending a ten-day furlough at his home, having reached here Saturday, from Camp Dix, where he reported following his arrival at an Atlantic port, August 10.

Corporal Bulkeley left his regiment July 25, after having witnessed the first stages of the allied offensive. The 102d regiment was then near Chateau Thierry, having relieved some of the marines after their advance in that region.

"The Germans didn't merely retreat. They retreated so fast that our artillery couldn't keep up with them," declared the corporal. Corporal Bulkeley attended an artillery school while in France, and when recalled from the front was to enter an officers' training school behind the lines. Then his orders were changed, and he was returned to the states to act as camp instructor. He did not know where he would be assigned at the end of his furlough.

The corporal reported that the 102d Regiment was well cared for and in fine spirits, eager for more fighting.

"The men are constantly contending with each other over the number of Germans each of them account for," said the corporal, who added that in Colonel John H. (Machine Gun) Parker the regiment has as commander one of the most popular officers in the whole American army.

"The men fairly love him," Corporal Bulkeley said. "He insists that every man shall smile when saluting."

Corporal Bulkeley added that the loss of Major George E. Rau and of Captain Arthur F. Locke was sincerely mourned by the regiment, each being recognized as extremely capable officers.

**Miss Estelle Cushman, Formerly of Capital City, Wins New Laurels in Government Work.**

**AUGUST 19, 1918.**

Miss Estelle Cushman, daughter of Mr. and Mrs. Charles Cushman of Franklin avenue, is winning new laurels in the musical field as the result of her recent experiences at government work in the South. During the spring she was appointed by the United States government as official song-leader to Camp Screven, Tybee,

in honor of being song-leader thus far. Her work has been attended with success over her previous

work. She is a graduate of the Normal School and of the University of Georgia as bachelor of music several years ago. For two years at college she was supervisor of music in Savannah, and she has received her official appointment as song-leader for the soldiers had by the United States and the National Y. W. C. A. Clubs. She has considerable note, a good composing line, and is mostly with children. She has found fa-

vorable "reception" of August 19, 1918. The article quotes her in an interview with

"She is a pretty, young, well-haired, well-dressed, is as charmingly feminine in her manner and has as winning a girl-like way as if she had never in her life done anything more masculine in its scope than tating.

"The men are crazy about singing. It makes such a wonderful effect," says Miss Cushman. "to have the men sing in harmony, rather than unison. But when they first come they're so funnily bashful about it. I ask them what they sing and they generally say 'I don't know. I just sing,' or else they say: 'I can't sing anything.' Then I have each one just sing a line or so and put him in as first tenor or second, first bass or second, and he goes off perfectly proud of himself. Presently they're singing away at part songs as though they had known harmony all their lives. They write me the nicest little notes when they get North. 'I'm singing second tenor in the quartet. You just ought to hear me!' and that sort of thing. Of course the amount of good that comes from an interest like that for them I don't suppose it's possible to estimate. Some of the quartets we have made have done such good work, when the men got thoroughly interested, that the members have been asked to travel about the neighboring towns to give concerts."

Miss Cushman is spending a few weeks at home and expects to go overseas in the fall. Her enthusiasm, talent and self-devotion are assets which make her undaunted in a field of wide scope and variety, and which should win her way in her chosen work.

# "QUARTER A DAY KEEPS KAISER AWAY"

Winning Slogan in Liberty  
Loan Contest by Margaret  
Lombard.

A Quarter a Day  
Keeps the Kaiser away;  
Buy a Liberty Bond.

This war whoop is officially stamped with the seal of the approval of the Liberty Loan committee of Hartford. The name, but not the address of its talented authoress, Miss Margaret Lombard, is known.

That girls can fight—if not with shells, with slogans—as well as their big brothers is proved by the result of the contest for Liberty Loan war whoops conducted by a sub-committee of the loan managers for the city, announced yesterday by the judges, Mrs. Louis R. Cheney, Morgan B. Brainard and Arthur M. Collens, sitting as special referees, who awarded all of the prizes to girls. Following is the list:—

First Prize—Miss Margaret Lombard, address unknown, \$10.

Second Prize—Miss Catherine Sullivan, St. Joseph's School, No. 1293 Broad street, \$5.

Third Prize—Miss Doris Wilcox, New Park Avenue School, No. 626 Broad street, \$3.

Following are the battle cries:—

First:—

A quarter a day  
Keeps the Kaiser away;  
Buy a Liberty Bond.

Second:—  
Remember it is also YOUR Liberty which is being fought for! Buy a Liberty Bond.

Third:—  
Everybody, all together, Buy a Bond.

There were hundreds of war cries in the contest and to select was extremely difficult, Mr. Collens said yesterday. Many were pat, terse and pyrotechnic.

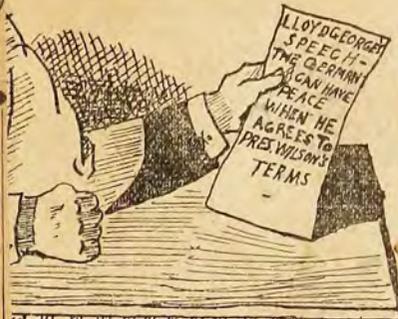

Attention of Miss Lombard.

Will Miss Margaret Lombard kindly appear in person as well as in spirit and reveal her address? Not alone is there \$10 for Miss Margaret, but an appreciative public, indebted

to her for a war whoop, wishes to meet her. When Julia Ward Howe wrote "The Battle Hymn of the Republic" she did not keep her address beyond the middle distance, as is the case with Miss Margaret.

"The Courant" photographer snapped a typical scene in this crowd of South School District pupils assembled around the teacher's desk to paste thrift stamps in their thrift stamp books in their drive to beat the Kaiser.
